## Find Body Of Major Wood, Wausau Pilot

### EXPLOSION IN AIR WRECKED RACING SHIP

Ward Miller, Mechanic,  
Saves Self by Para-  
chute Leap

HEADED FOR CLEVELAND  
Searching Aviator Lands at  
Scene of Crash, He  
Reports

Los Angeles—(AP)—Major John P. Wood, Wausau, Wis., wealthy air mail pilot, and transport executive, went to his death at the controls of his racing monoplane as it exploded in mid-air early Monday morning.

His body was found in the wreckage 25 miles northeast of Needles, Calif.

"Landed at wreckage. Body found in plane. Death instantaneous. No fire, but explosion."

That was the message received today by Paul E. Richter, Jr., of the Aero Corporation of California, from Pilot Burrell Smith of the searching airplane sent from here.

### HEADED NORTHERN AIRWAYS

Major Wood, 32 years of age, was president of the Northern Airways, a line between Chicago and Minneapolis, and was a resident of Wausau, Wis. He went to his death above the great California desert, near the Arizona border, at 2 o'clock Monday morning, while racing to Cleveland, O., for a non-stop record from Metropolitan airport, Los Angeles.

Ward Miller, his mechanic and companion, was saved when the explosion of the five hundred gallon of gasoline which exploded him from the cabin monoplane. Miller pulled the cord of his parachute as he layed into unconsciousness. When he awoke he found himself alone and bruised on the rocky strewn desert, with bits of the monoplane near him.

Miller found no trace of the plane, but reached Needles, 300 miles south-east of here, 300 miles later.

Arrival of Miller in Needles and his telegram to Los Angeles of his safe return put into effect immediately an extensive search for the monoplane.

The wreckage was spotted from the air last evening by Pilot Smith. His impression from his air survey was that the craft had been destroyed by fire.

Early today he flew over the desert again and reached the wreckage. He discovered that the ship had been shattered by a mid-air explosion and that Major Wood apparently had been instantly killed when Mechanic Miller was blown out of the cabin of the ship by the blast.

### GREEN BAY HOST TO EPISCOPAL GATHERING

Green Bay—(AP)—The eighty-third annual Wisconsin conference of the Methodist Episcopal will convene here tonight at the First Methodist Episcopal church with Bishop H. Lester Smith, of Chattanooga, Tenn., presiding.

The conference will continue through Sunday with appointments and official positions being announced at the final meeting.

Bishop Charles Locke, St. Paul, will not be able to attend because of illness, it was announced today.

### HOTEL KEEPER DIES AT CHIPPEWA FALLS

Chippewa Falls—(AP)—Erick Myron, hotel keeper here, who during the last ten years has been engaged in extensive logging operations near Ladysmith and Winter, Wis., died here today as the result of injuries received at his logging camp late yesterday.

### Dies Suddenly

W. E. DEVER

### W. E. Dever, Ex-Mayor Of Chicago, Dies

Chicago—(AP)—William Emmet Dever, whose proudest claim was that no sign of scandal marked his four years as mayor of Chicago, died suddenly yesterday after a year's illness. He was 67 years old.

Drafted from the superior court bench by the Democrats to run for mayor, Dever was elected in 1922 with a 100,000 vote margin over Arthur Lueder, incumbent postmaster. His term of office, 1923-27, was sandwiched between the three terms of Mayor William Hale Thompson, who defeated him for reelection two years ago.

"Mr. Dever had been seriously ill since shortly after returning from the city. The cause of death was given as cancer of the pancreas. For several weeks he has been confined to his home. His physicians had been hopeful that he might build himself up sufficiently to undergo an operation which they said was necessary to save his life.

The former mayor's illness forced his retirement from active life last fall when he resigned as vice president of the Bank of America.

Born in Woburn, Mass., of poor parents, Dever was only a boy when the necessity of aiding in the support of the family arose. Industry and frugality were factors that early made themselves apparent. He came to Chicago 25 years ago and formally entered politics in 1902 when he was elected alderman.

Ten years in the city council were followed by election to the superior court bench to which he was twice reelected. Among the more famous cases over which he presided were those of William E. Lorimer, former United States senator, and the "Black Sox" members of the Chicago White Sox.

His term as mayor was marked by the closing of approximately 8,000 places where liquor was being sold, although Dever himself was classified as personally a "wet." Numerous civic developments, including construction of Vhacker Drive, the two deck street, were accomplishments of his administration.

Funeral arrangements were to be completed today. Burial probably will be made at Woburn, Mass.

### JOHN COOLIDGE WILL BE WED THIS MONTH

New Haven, Conn.—(AP)—Major John Coolidge, son of former President Calvin Coolidge and Miss Florence Trumbull, daughter of Governor John H. Trumbull of Connecticut, will be married Sept. 23.

The date, which the prospective bridegroom, at work in the operating department of the New York, New Haven & Hartford railroad here, had declined to announce because he felt it the prerogative of his fiancée to do so, which was known yesterday with the issuance of formal invitations. The future Mrs. Coolidge is now with her parents and sister, Jean, at Rangleys Lake, Me.

After a wedding trip the couple will live in an apartment in Westville, a suburb of this city. This apartment of four rooms which Major Coolidge has engaged, will be convenient to his work.

### CHICAGO MILKMEN TO DO WORK IN DAYTIME

Chicago—(AP)—Coming home with the milkman, a quaint custom originated by uncouth persons who lured too long at their cups, no longer will be sign of a hectic evening in Chicago. Milkmen have decided to work in the day time.

It is the opinion of the Milk Drivers union that the public doesn't want its milk delivered before dawn. Hardly anybody ever gets up that early, if the union is correctly informed. Eight o'clock in the morning is about the right time to start deliveries, the union says and beginning today it is that way.

### ARAB LEADERS TO TALK OVER JEW PROBLEM

Meeting of Palestine Executives Is Called for Thursday

Jerusalem—(AP)—Forty-eight Arab leaders from all parts of Palestine comprising the Palestine Arab executive have been summoned to meet in extraordinary private session in Jerusalem tomorrow to consider recent developments in the Holy Land.

Publicly regarding the meeting was suppressed but in some quarters it was felt it would afford opportunity for open airing by indignant Moslem chieftains of the resentment aroused in them by certain recent events.

News of the impending meeting emerged shortly after it was learned here the British government had ordered a special Palestine commission headed by Sir Walter Shaw, former chief justice of the Straits settlements, to make an inquiry into Arab-Jewish clashes, beginning its task this month.

The decision of the British government not to permit the scope of its Palestine inquiry to extend to any question altering the Balfour declaration—that which fixed British policy at establishing in Palestine a national home for Jews—was hailed with joy by the Jews but was resented openly by Arabs.

It was believed this would be one of the problems considered by the Arab executive, members of which have from time to time voiced their opposition to the Balfour declaration and have blamed the Moslem-Semitic clash on Arab feeling against it.

### HOLD SELVES ALOOF

Members of the executive have remained aloof from the British representation in Palestine, no leader or member having yet called upon Sir John Chancellor, the high commissioner, since his return. Sir John's proclamation, issued Sunday, in discussing clashes of the last 10 days, was felt by the Arabs to be decidedly pro-Jewish and anti-Arab.

The Arab executive made public a vigorous reply to this proclamation, alleging that the Palestine government had caused trouble by arming Jews, denying that there had been mutilations among the Jewish casualties at Hebron, asserting that

### SENATE RECEIVES TARIFF MEASURE

Vote on Revised Bill Is Not Expected Before Monday

Washington—(AP)—The revised house tariff measure formally was laid before the senate today as it assembled for actual business after a summer recess.

For weeks the measure has been under consideration by the finance committee. With the time for its discussion at hand many members are at disagreement over its provisions and a heated contest is expected.

Most of the senators were in their seats, and the galleries were filled comfortably as Chairman Smoot submitted the bill.

Agreement was reached earlier in the day between the Republican and Democratic members of the finance committee that actual voting on amendments would be deferred until Monday, leaving the remaining days of this week for debate.

The committee previously had voted 11 to 8 to favorably report the bill, the ballot being along party lines.

The first voting skirmish is expected when Republican independents and some Democrats move to confine the tariff increases solely to farm products.

### CHICAGO ENDURANCE PLANE STILL IN AIR

Chicago—(AP)—The "Chicago-We Will" drone monotonously in wide circles over the sky Harbor airport today in its quest for the refueling endurance record. At 4:21 a. m. the plane passed the 281 hour mark and the sound of its motor, ground mechanics said, indicated that everything was well.

Russell Mossman and C. E. Steele, the pilots, dropped a note commenting on yesterday's heat, and reiterating their intention to beat the 421 hour record held by the "St. Louis Robin."

Major William Hale Thompson sent a message to the flyers by radio, urging them to bring the record to Chicago.

"Motor purring like a kitten," said one note from the plane. "We intend to stay up until we've set a record that nobody will want to shoot at."

### Married Life Helps To Make Male Mind Feminine

New Haven, Conn.—(AP)—Married life, if given time enough, tends to bring the male mind a little closer to the feminine type, the Ninth International Congress on Psychology was informed today.

This finding was presented in a paper written by Dr. Lewis M. Terman of Stanford University. His investigation dealt with "sex differences primarily non-intellectual," such as interests, emotional reactions, preferences and aversions.

One purpose was to find what environments, if any, help determine mental masculinity and femininity.

A masculinity-femininity test of 308 items or traits was arranged. The paper summarized some results without any details.

"There are few men, perhaps ten in a thousand, who are more feminine in these traits than the average woman, and about the same number

### BE ALIVE AND KEEP UP GRIT, EXPERT WARNS

Wisehaupt Tells 250 Appleton People Why Some Businessmen Fail

The retail business man who keeps a stiff upper lip and doesn't permit his head to drop on his chest and mutter "rotten" when asked how business is, is bound to be included in that group of merchants who are successful, Howard J. Wisehaupt, expert analyst of business troubles and difficulties, told about 250 persons at Appleton high school auditorium Tuesday evening.

"The merchant who is consistent and consecutive in his ideas and realizes that there are periods in a year when business is bound to be poor, will come out of the slump in short order and will have things coming his own way before he realizes it," Mr. Wisehaupt declared.

Wisehaupt, who is consistent and consecutive in his ideas and realizes that there are periods in a year when business is bound to be poor, will come out of the slump in short order and will have things coming his own way before he realizes it," Mr. Wisehaupt declared.

"Too many business men are afflicted with that dreadful disease called 'settle,' which is so common with men who lack initiative. All they do is sit around thinking the world owes them a living, and tell everyone they know what a rotten place they're in.

"Over 900 retail merchants fall in this country every year, because they have such perfectly absurd ideas, and the reason they ultimately 'hit the wall' is because they are driving customers out of their establishments by showing such an attitude," the speaker stated.

"There are some merchants who continually harp on chain stores as the reason for decline in business. In this respect they are again loaded with perverted ideas. A chain store never has been too strenuous competition for a live wire merchant.

### JEWELS, CLOTHING STOLEN FROM HOME

Loss to Kansas City Resident Estimated at \$200,000

Kansas City—(AP)—Jewels and clothing valued at between \$150,000 and \$200,000, was stolen from the home of T. J. Pendergast Democratic leader, here last night.

The thief entered the house through a second story window and ransacked seven rooms, working so quietly he was not heard by four children playing in the basement and a maid asleep on the third floor.

Mr. and Mrs. Pendergast discovered the theft when they returned home shortly before midnight from the home of Mr. Pendergast's brother M. J. Pendergast, who died Monday.

Much of the loot was rare jewels and fur pieces, including the \$42,000 engagement ring of Miss Macoline Pendergast, who is to marry William E. Burnett, Jr., Oct. 15. Part of Miss Pendergast's trousseau also was taken.

The thief found the bag containing the jewels behind a dressing table where Mrs. Pendergast had hidden them when she and other members of the family arrived home yesterday morning from New York. A roll of \$3,000 in currency, which Mr. Pendergast had placed under the mattress of his bed, was untouched.

### 6 WOMEN, 6 MEN ON PANTAGES JURY

Prosecution Promises Witness Who Will Crush Defense

Los Angeles—(AP)—Six women and six men had been selected as tentative jurors today to hear the case of Mrs. Alexander Pantages, wife of the theater magnate, charged with murder in connection with the death of Joe Rokumoto.

Mrs. Pantages is accused of driving in a reckless fashion while intoxicated. Rokumoto died from injuries when the automobile which he was driving was struck by a machine piloted by the multi-millionaire theatre operator's wife.

James Costello, deputy district attorney, announced that when the selection of the jury was completed, "I would call a witness, whose name he refused to disclose, whose testimony would shatter plans of the defense."

"This witness," Costello said, "will testify to the condition of Mrs. Pantages immediately after she drove her car into that of Rokumoto. The witness will give testimony as to her sobriety and the state of mind, that will disprove the defense claims."

The defense attorneys had announced that they intended to bring out that Mrs. Pantages was suffering from a nervous disorder and was not intoxicated on the night of the accident.

Mrs. Pantages was accompanied in court yesterday by her two sons, a daughter, and her husband.

Mrs. Pantages goes on trial Sept. 22 on two charges of assault preferred by Eunice Pringle, 17-year-old co-ed dancer, who accused him of attacking her in his private office several weeks ago.

### DE PERE YOUTHS FACE STATUTORY CHARGES

Green Bay—(AP)—Three De Pere youths, Edwin Kuhn, 22, Howard Boehm, 17 and William Johnson, 16, were ordered held under \$5,000 bond each when they appeared in municipal court today to answer to statutory charges preferred by a young Green Bay girl.

### FRUSTRATE ATTEMPT TO COUNTERFEIT NEW BILL

Washington—(AP)—The first known attempt to counterfeit the new small sized currency has ended in failure.

Julius F. Ries, said to be an Omaha traveling salesman, is under arrest in Cedar Rapids, Iowa, after appearance of counterfeiters of the \$10 note of the Kansas City Federal Reserve bank in Council Bluffs, Iowa on Aug. 29. Secret service officials reported that Ries had \$320 of the spurious money in his possession.

Chief H. Moran, chief of the secret service, said today the counterfeit note was so crude that it would not pass any person accustomed to handling currency. It was made by a photo mechanical process.

### EXPECT RAIN TO HELP CURB FOREST FIRES

Storm Would Aid in Stamp-  
ing Out More Than  
30 Blazes

BY THE ASSOCIATED PRESS

A full in the wind and the prospect of rain today gave north Wisconsin hope that more than 30 forest fires in 11 counties could be stamped out.

Wearied men who had curbed most of the blazes visioned in a heavy rainstorm the final assurance that endangered timberlands would be saved and their work finished.

The same feeling permeated upper Michigan, where state conservation officials were concerned about forest ening fires in the western section and on Isle Royale in Lake Superior.

But if the rain should be only a brief one, these districts faced a situation filled with serious possibilities.

Careless campers are blamed for the majority of conflagrations, but logging trains, logging sparks from their engines, and settlers burning brush, shared responsibility.

Only four Wisconsin fires were regarded as serious today. Two of them were near Lakes Superior and Michigan. The third was on Pine river in Forest-co and endangered a Conner lumber camp and merchantable pine. The fourth was along the west Wolf river in Langlade-co.

Ontonagon-co of upper Michigan reported a series of fires sweeping into valuable land, and the same report came from Isle Royale. The state conservation commission moved to control the island fire by sending a tug to fight it, but placed chief reliance in rain.

Wisconsin fires were in these counties: Ashland, Bayfield, Burnett, Florence, Forest, Iron, Langlade.

### DROP ATTEMPT AT REFUELING FLIGHT

Backers of Shuttle Under-  
take Salvaging of  
Plane

Salt Lake City—(AP)—Officials of the Boeing Air Transport east of here, indicated today that no further attempts would be made soon to establish a transcontinental refueling endurance flight record—a feat which the Shuttle tried thrice.

The third attempt to fly six times across the continent without landing ended on a mountainside near here yesterday morning when the ship, piloted by Captain Ira C. Eaker and Lieutenant Bernard Thompson, cracked up in a forced landing. Eaker and Thompson were forced down by a clogged fuel pipe. They were not injured.

Boeing officials said the plane would have to be dismantled on the mountainside before being returned to the factory at Seattle, where it is to be rebuilt and put back into the San Francisco-Chicago mail service.

Taking off early Sunday morning at New York, the Shuttle made its way slowly across the country in its third flight, arriving over San Francisco Monday afternoon. Poor flying conditions caused it to circle over Elko, Nev., that night. It headed toward Chronico yesterday morning, passing over Salt Lake City. Soon afterward it encountered a storm and turned back toward this city.

Eaker said the stoppage in the fuel line gave him no time to pick a good landing place. He managed to bring it to a stop in a small clearing on the slope, but the axle broke and the plane stood on its nose as it came to a stop. The wings also were broken.

### FIRE RAZES BUILDINGS ON FARM; LOSS \$25,000

Chippewa Falls—(AP)—Fire of undetermined origin early today destroyed virtually all of the buildings on the farm of Mike Dachel, near here, causing a loss estimated at \$25,000.

Edmund and George Dachel, brothers of the owner of the farm, are in a hospital here today, suffering from burns received while saving stock from one of the barns. A pump truck from this city went to the scene and saved the farm residence.

### GAS MEN MAKE EARLY CALLS TO SEE THAT PILOT LIGHTS BURN

Evansville, Ill.—(AP)—A score of men went around knocking on aristocratic and other front doors in the hours before dawn today asking sleepy householders to take a look at their gas ranges. Some folks thought it was a hoax but it wasn't.

Pressure in the gas mains dropped low for a short time late last night and then shot back to normal. The gas company, fearing the low pressure may have caused pilot lights to go out, sent crews throughout the city to arouse the citizens to make sure that no ill effects might be suffered.

### LOS ANGELES COPS FACE GRAND JURY

Officers Are Accused of Be-  
longing to "Shakedown  
Ring"

Los Angeles—(AP)—Stories of alleged bribe-taking by Los Angeles policemen accused of being members of a "shakedown ring" and information concerning two unsolved murder mysteries were ready for presentation to the county grand jury here today by investigators who have spent four days gathering evidence.

J. B. Westman, alias Harry D. McDonald, brought the sensational charges against the officers in a confession of his activities as a vendor of illicit liquor under the cover of operating a Turkish bath house here.

Arrested last Friday by federal prohibition agents, Westman declared he was "fed up on shakedown" and said he had paid out the profits of his establishment over a long period of time at the demands of police officers. He named a captain, two lieutenants and other members of the Los Angeles vice squad as persons promising protection from the law.

Investigators of the federal prohibition office here later declared that 62 policemen had been named as members of the "shakedown ring."

In a supplementary statement, Westman revealed, investigators said, that he had heard police and gunmen talk freely of at least two murders, now listed as unsolved and mentioned the names of suspects in the back room of his camouflaged bath house. Westman denied he had been the "pay-off" man in these cases and said he could not say how much money was passed for protection.

### DEAN OF VAUDEVILLE THEATRE OWNERS DIES

New York—(AP)—Frederick Francis Proctor, 78, known as the dean of vaudeville theatre chain owners, died at his home at Larchmont, N. Y., today. Mr. Proctor had been in ill health for several months and recently suffered an attack of congestion of the lungs from which he failed to rally.

### EDISON IS WELL ON ROAD TO RECOVERY

West Orange, N. J.—(AP)—Thomas A. Edison, convalescing from a recent attack of pneumonia, has recovered sufficiently to sit up in bed, smoke his customary cigar and read the newspapers.

At dinner last night he drank more than his usual quantity of milk, which forms his principal diet. He insisted it be served from the thermos bottles he is accustomed to use when at work in his laboratory.

His son, Charles Edison, in a statement said the aged inventor was not completely out of danger and that the wife difficulty was to keep him from having his bed to continue his experiments.

# German Dirigible Back Home At Friedrichshafen Port

## RECORD CROWD GREETSHIP UPON RETURN

Globe-Encircling Trip Is Completed in 20 Days, Four Hours

Friedrichshafen, Germany —(AP)—Beating its round the world cruising record by more than a full day, the Graf Zeppelin, German airship, returned to Friedrichshafen from Lakehurst, N. J., at 8:52 a. m. (2:52 a. m. e. s. t.) Church bells pealed and cannon boomed a salute as the huge ship, escorted by an honor guard of 12 airplanes, appeared over the city, circling the town hall before it turned back to its hangar at the Zeppelin works.

One of the largest crowds in Friedrichshafen history greeted it there, cheering madly as the ship lowered toward the ground. Within a few minutes of its appearance it was taken in hand by the ground crew and at 8:56 a. m. was walked into its hangar.

The 22 passengers were at the windows of the ship as it came, to earth, waving flags in answer to cheers from the throng below, many of whom had waited at the field all night. Ground Officer Hans von Schiller was the first to emerge from the dirigible, and was followed by the crew following after the ship entered the hangar.

**MAKES RECORD TIME**  
With its landing the dirigible completed a round-the-world trip—Friedrichshafen to Friedrichshafen—in 20 days 4 hours 18 minutes. The Zeppelin previously had flown around the world from Lakehurst to Lakehurst in 21 days 8 hours 26 minutes, a time which is itself a record.

The Zeppelin left Lakehurst at 7:18 a. m. e. s. t. Sunday, Sept. 1, completing 67 hours 34 minutes in reaching here over an estimated course of 45,955 miles, against its own record crossing from Lakehurst to 55 hours 23 minutes completed Aug. 10 over a course of 4,200 miles.

Aboard the Zeppelin were 22 passengers and a crew of 49, headed by Captain Ernst Lehman. For the first time in the history of the Zeppelin's major voyages, its master, Dr. Hugo Eckener, remained in America on business. The world trip ended at Lakehurst.

Save for some wild maneuvering in the region of the Azores the trip eastward from Lakehurst was without special event. The ship, striking for Cape Finisterre, Spain, from the Azores region, skirted the Spanish coast, to Santander and thence struck for Bordeaux, France.

**WEATHER NEARLY IDEAL**  
The first time weather conditions had permitted the central French route for the Graf, from Bordeaux the Zeppelin cruised northward across Limoges and Dijon, France and Basel, Switzerland, striking across Lake Constance and toward home as the rising sun stared it in the face.

Never before have there been such crowds to greet the Zeppelin as there were today. Thousands encamped on the Greenwald outside the airship hangar, especially in places from which they might obtain a good view of the hangar. Other thousands literally walked Friedrichshafen's streets most of the night since hotels and inns were crowded and there was not a vacant chair anywhere.

The Countess Brandenstein, Count Zeppelin's only daughter, wept with joy when the ship pulled to land, for to her, as to other Germans, the landing marked completion of the globe encircling cruise. Her husband and family were with her.

A large list of other notable was present also, including Jacob Gould Schurman, American ambassador, Duke Albrecht of Wurttemberg, accompanied by his wife, brother and two sons, members of the German ministry and of the German state governments. David Lloyd George, former British premier, tried to arrange accommodations so that he might be present also but was told by the Hotel Kurgarten there was not sufficient room.

Some people wondered why a private villa was not placed at his disposal and found the only excuse to lie in the fact that Dr. Eckener and his staff were away and that things were rather disorganized during their absence.

**CREW PARADES CITY**  
After a reception in the hangar the passengers and crew were taken to a gaily decorated automobile for a parade of the little city. Only Hans von Schiller, one of the pilots, would not go.

"I have been charged by Dr. Eckener," he said, "to see the wonderful sword given him by the Emperor of Japan safely home. I propose to carry it there myself."

All looked tired and worn, some of the crew even haggard. Captain Lehmann said everything worked beautifully except that he regretted having to make a long detour to avoid unfavorable winds. This was commended by Commander Wiley and Lieutenant Mayer, the American naval officers aboard, however, who said the Zeppelin owed its wonderful success to the officers' knowledge of navigation and their ability to take advantage of the favorable and unfavorable atmospheric conditions.

According to Von Eschwege, a German newspaperman aboard the ship, on the return trip they thought of home. The world flight was a great strain. The officers and crew made superhuman efforts to complete a gigantic task.

Gustav Kauder, another newspaperman said he regretted only one thing, and that is that four hours were lost in a detour to greet the ship.

**AMERICAN BREAKS RULE**  
The American newspaperman said that Graf Zeppelin was not permitted to smoke on board, or at least, it was broken

## MAN DIES AFTER BEING HIT BY CAR DRIVEN BY WIFE

Injuries sustained when he was pinned beneath his car and the back wall of his garage Monday afternoon proved fatal to William Becker, 33, route 1, Fremont, who died about 7:30 Tuesday evening at Theda Clark hospital at Neenah. The accident occurred when the car, driven by Becker's wife, bounded forward when she shifted the wrong gear and crushed the man against the wall. The wife believed the car was in reverse when she started it. Survivors include the widow and two small children. The body was taken to Fremont Tuesday evening.

## ARAB LEADERS TO TALK OVER PROBLEM

Moslems Feel That British Are Decidedly Pro-Jewish

CONTINUED FROM PAGE 1

Jewish mobs had killed isolated Arab women and children, and that even British troops had shot Arabs at Sour Baher and elsewhere.

The Arab pronouncement stated that troubles in Palestine, past and present, had been caused by the British Zionist policy which aimed at "annihilating the Arab nation in its own country in favor of reviving a non-existent nation."

The Arabs demanded an impartial inquiry by "outsiders" whose sense of justice was not curbed by Zionist influence. In conclusion the pronouncement demanded abolition of the Balfour declaration, suspension of Jewish immigration, and establishment of a parliamentary government.

**COUNTRY IS QUIETER**  
Generally Palestine was quieter today, although there was still some anxiety regarding the situation in Tiberias, upper Galilee, with which city telephone communications failed after reports of scattering Moslem attacks which caused a few casualties.

Official information mentioned "local incidents" in the north, stating: "An attack on police barracks at Hattin, eight miles west of Tiberias, Sunday night, was repulsed successfully. Slight hand-to-hand fighting occurred at Yegod Ha' Haalab."

The Jewish Telegraphic agency reported that 14 Arabs were killed by troops when they attacked Yegod Ha' Maalab and two others were said to have been killed similarly near the colony Nishmar Ha' Yarden, both in Galilee.

The same agency said that 200 Arabs were arrested at Ligeia and 120 participated in the riots.

**JEWS FEAST, PRAY**  
Ottawa —(AP)—Today was set aside in Jewish communities throughout Canada as a day of fasting and prayer in behalf of the Jews in Palestine who have been victims of attacks by Arabs.

At the same time a dominion-wide campaign was begun to raise funds for the relief of refugees and other sufferers from Moslem incursions. President Hoover sent the following message to Mrs. A. J. Friedman in charge of the campaign, urging generous support for the enterprise. "I am glad of the opportunity to express my profound sympathy with those who have been bereaved and who have suffered through these disasters. Good citizens of every country deplore these outbreaks and the loss of life. Our government is deeply concerned, not only in the broader sense, but in the narrower sense of the protection of the lives of American citizens."

## JUDGE GRANTS REQUEST OF PAIR FOR JURY TRIAL

Appearing by their attorney, A. H. Krugmeyer, Arnold Doering, 27, 531 N. Bateman-st., and Arthur Hinz, 78, 720 First-st., Menasha, charged with petty larceny, were granted a jury trial by Judge Theodore Berg in municipal court Wednesday morning. Trial has been set for Wednesday morning. The date for jury trial was set for Sept. 23.

**CATCHES BIG FISH**  
Elmer Steenis, 203 N. Rankin-st., has reported the catch of a Mississippi catfish weighing 22 1/2 pounds in Lake Winnebago Sunday. The fish when dressed tipped the scales at 12 1/4 pounds. Mr. Steenis was fishing alone near the lighthouse when he landed the fish.

during the Graf's flight from Lakehurst to Friedrichshafen ending today.

An American passenger, Frederick Hogg by name, boasted that rules were meant to be broke, and disappeared one night into the "labyrinth" to smoke a cigar.

His action so incensed the remainder of the passengers they wanted the most severe measures taken and sought to have him locked up. The Zeppelin officers, however, were said to have refused to do this and only warned him against repetition of his offense.

Smoking aboard the Zeppelin has always been forbidden since its balloons are filled with the highly inflammable and explosive hydrogen gas, which could become ignited easily from a cigar or cigarette if there was the slightest leak in the balloon coverings.

## Famous Pilots Entered in Balloon Race

Among the leading pilots to participate in the international balloon races from St. Louis September 28 will be (left to right) Ward T. Van Orman, Lieut. Thomas G. W. Settle and Capt. W. E. Kepner. American, and Ernest Demuyter of Belgium. Preparation of the bags means such a scene as this, taken at Pittsburgh last spring. An indication of the gas needed in one of the monsters is shown in inset.

## CHARGE LOCAL MAN DROVE WHILE DRUNK

Find Bottle of Alleged Liquor in Edward M. Maxwell's Car

Edward M. Maxwell, 510 E. Circle-st., pleaded not guilty of drunken driving before Judge Theodore Berg in municipal court Wednesday morning and his trial has been set for Sept. 17. He furnished \$100 bonds.

Maxwell was arrested about 8:35 Tuesday evening on S. Oneida-st. by Officer Carl Radtke after the police had received a telephone call saying a driver had sideswiped a car parked on S. Oneida-st. and had failed to stop.

It is charged that Maxwell was the driver of the "hit and run" car. The machine which was sideswiped is owned by Art Herwig, 613 N. Rankin-st. Herwig's machine was slightly damaged and investigation showed Maxwell's car also had been damaged.

In Maxwell's car the police found a pint bottle partly filled with alleged whiskey. The bottle bore a prescription which had been issued to Maxwell by a Milwaukee doctor and the bottle of liquor had been sold by a Milwaukee drug store.

Maxwell was held at the police station Tuesday night.

## EVANS AND HOLMES AT M. E. CONFERENCE

Dr. J. A. Holmes and Dr. Richard Evans will attend the annual Wisconsin Conference of the Methodist church which will open at the new Methodist church at Green Bay on Thursday. The conference, which will close the early part of next week, will be in charge of Bishop H. Lester Smith of the Chattanooga area, who conducted a series of meetings in Appleton last year.

C. O. Davis has been elected delegate to the lay conference on Friday, and Elmer Root has been chosen alternate. The meeting of laymen is a part of the annual conference.

Committee To Meet.

Members of the county board printing committee will meet at the courthouse Monday afternoon to allow bills. Members of this committee are Supervisors John Sawall, S. G. Ruppel and Richard Wickesberg.

## THE WEATHER

WEDNESDAY'S TEMPERATURES	Coldest	Warmest
Chicago	70	90
Denver	46	72
Duluth	60	74
Galveston	82	83
Kansas City	74	90
Milwaukee	72	92
St. Paul	64	92
Seattle	52	70
Washington	70	96
Winnipeg	48	78

**WISCONSIN WEATHER**  
Showers probably tonight and Thursday; cooler tonight and in east and south portion Thursday.

**GENERAL WEATHER**  
The high pressure has remained practically stationary over the Atlantic coast, bringing fair weather to the lake region and to all sections east of the Mississippi except the southern states. A trough of low pressure extending from Lake Superior to Texas has caused unsettled with showers in the upper Mississippi and Missouri valleys and the western plains states. This is followed by high pressure over the northern Rocky Mountain states, which is bringing much cooler to the upper Missouri Valley and the western plains and frost was reported this morning from North Dakota. Temperatures of 90 degrees or more were reported yesterday from all sections in Wisconsin. Showers are expected in this section tonight and Thursday, with much cooler Thursday.

## WEATHERMAN INSISTS SHOWERS ARE COMING

The weatherman insists that thunderstorms, showers and cooler weather is going to prevail here, although his predictions of Tuesday failed to materialize in this vicinity.

Skies were clear here Wednesday morning and the mercury registered 8 degrees above zero at noon. At 6 o'clock Wednesday morning the thermometer stood at 75 degrees above zero.

The weatherman says relief from the torrid wave, which has been prevalent in this vicinity for the past several days, is on its way and should arrive here by Thursday morning. Winds are shifting from the west to the southwest, which is a fair indication that showers will prevail.

## ARRANGE TO CALL FOR BIDS ON SNOW REMOVAL

Members of the county highway committee, at a special meeting Tuesday afternoon, took steps to advertise for bids from private contractors on removing snow in the county. Contractors must furnish their own equipment and material and bids must be submitted on both 50 mile districts and on the entire county. The committee also made preparations to advertise for bids for gravel and crushed stone to complete several road projects which were started on county trunk highways this summer. Bids also will be sought on snow removal equipment needed by the county if the county board decides to have the highway committee take charge of snow removal rather than letting the work in the hands of private contractors. Advertising for the bids is to take place within the next few days and the bids probably will be asked for within 10 days.

## BOARD OF APPEALS DEFERS MEETING

The board of appeals met in the council chambers Tuesday evening to hear the Anton Strohofer case, but the meeting was postponed until 1 o'clock Wednesday afternoon because the affidavit of a legal notice had not been submitted. The case involves a building controversy of Mr. Strohofer who wishes to construct a new garage at 531 W. 6th-st.

## SHOOTING CLUB TO PRACTICE AT NEENAH

The Appleton Angling and Shooting club will hold a practice shoot at the old Lakeview Paper company site at Neenah at 2 o'clock Saturday afternoon. Members of the club and their friends have been invited to take part. A special feature of the shoot will be an archery exhibition by John Hof. Plans also are being formulated for another practice shoot on Sept. 10.

## CHARGE MAN DIDN'T STOP AFTER CRASH

James Young, town of Freedom, also charged with reckless driving

James Young, town of Freedom, was arraigned before Judge Theodore Berg Wednesday morning on charges of reckless driving and failure to stop and render assistance after an accident. Preliminary hearing has been set for Sept. 7. Young furnished \$500 bonds.

The Freedom man was arrested on complaint of Frank Leininger, motorist, who claims that Young's car caused an accident on Highway J, about five miles north of Kaukauna Monday night, and that Young sped away after the crash. With Leininger at the time of the accident was Gust Ness. Leininger claims that both he and Ness were cut and bruised and that Leininger's car was damaged.

Undersheriff Ernest Conrad arrested Young Tuesday.

## 10 BALLOONS ENTER RACE FOR GORDON BENNETT TROPHY

United States Lists Three Entries in International Event

BY ALLEN QUINN  
(Associated Press Aviation Editor)  
St. Louis —(AP)—Ten balloons, representing the United States, France, Germany, Belgium, Denmark and the Argentine, will soar away from St. Louis September 23 in quest of the International Gordon Bennett trophy.

It will be the eighteenth of the international balloon races and the third to start from St. Louis. Seven of the races have been won by the United States and five by Belgium, which gained permanent possession of the original Gordon Bennett trophy with its third "straight" victory in 1924.

The United States became permanent possessor of the second trophy with victories in 1926, '27 and '28. Now the third of the Gordon Bennett trophies is up, with three American airmen seeking to gain the first leg on it.

Capt. W. E. Kepner, pilot, and Lieut. W. O. Earlickson, aide, of the army air corps; Lieut. Thomas G. W. Settle, pilot, and Ensign Wilfred Bushnell, aide, of the navy, and Ward T. Van Orman, veteran civilian balloonist and an aide, are the American entrants.

Against them will be pitted the lone Belgian entry, Ernest Demuyter, who is seeking his fifth international victory. Demuyter is the only balloonist to have won the Gordon Bennett race more than once and his string of three victories in 1922, '23 and '24 won permanent possession of the first trophy for Belgium.

France has two entries, Germany also has two, and Denmark and the Argentine each have one.

Because St. Louis is in the central part of the country, new distance records for balloons are expected if weather and winds are favorable. The present record is 1,334 miles, made in 1912 by M. Bieanme of France, who soared from Stuttgart, Germany, to Moscow, Russia, in 46 hours.

It is likely the balloons will sail to the eastward from St. Louis, or at least land to the eastward. Ninety-five per cent of the balloon flights in this country, the aerological section of the army signal corps reports, land to the eastward of their starting point because the prevailing winds in the higher altitudes are westerly.

Lieutenant Settle and Van Orman won their places in the international event in the national elimination race from Pittsburgh last May, which Settle won. Van Orman is a veteran of many balloon contests. He

## C. OF C. DIRECTORS TO MEET FRIDAY NOON

Directors of the chamber of commerce will hold their regular bi-weekly business meeting at Hotel Northern Friday noon. Reports on activities of various committees will be heard and routine business transacted.

## CAPITAL IS MUM ABOUT NAVAL PACT

Receives MacDonald Address With Considerable Reservation

Washington —(AP)—Optimism over the early settlement of the Anglo-American naval problem as expressed by Prime Minister MacDonald in his address before the League assembly was received by Washington officials with some reserve.

While the only official comment on the question was made by Secretary Stimson, who said that hopeful progress has been made toward an agreement between the United States and Great Britain, the attitude in official circles here is that much time must be spent in working out intricate and important details in the problem.

The statement by Secretary Stimson that this work on details must be accomplished before any final agreement on parity, or naval equality could be reached, was interpreted in diplomatic circles as indicating that Washington officials were anxious that the question be settled more finally before any definite announcement was made.

A number of the high naval officials are members of the navy general board which recently has been devoting close attention to the discussions on reduction in sea power between the United States and Great Britain.

The conference at the white house was held shortly after the president's breakfast hour. Upon leaving the executive mansion members of the naval general board returned to the navy department and immediately went into session.

## MOVE ABOUT "POINTS"

Geneva, Switzerland —(AP)—The three points mentioned yesterday by

has won four national events and the international race in 1928. The tragic death of his aide, Walter W. Morjon, who was killed by lightning in the 1928 national elimination race, inspired Van Orman to invent a lightning arrester device, with which his balloon will be equipped in the Gordon Bennett event.

## ELECT DIRECTORS OF NEW COUNTRY CLUB

Make Progress Toward Organization of Club to Operate New Golf Property

Progress has been made toward organization of the North Shore Country club at a meeting at the Valley Inn, Neenah, last night. The new club will complete development of the golf club property on the north shore of Lake Winnebago recently acquired from Riverview Country club. The new club will seek a charter from the state and considered means of financing and completing the development of the property. It is probable that the sale of membership will finance a large part of the development and a bond issue to cover the remainder is under consideration.

The following directors were elected: J. N. Bergstrom, R. S. Powell, M. A. Wertheimer, E. H. Mahler, W. C. Wing, Charles S. Boyd, F. J. Sensenbrenner, J. C. Kimberly and Mowrey Smith.

Premier Ramsay MacDonald as still outstanding. In the Anglo-American naval conversations, pursued in London by the premier and Ambassador Davies, are believed to consist of the three most difficult questions of all.

Such was the intimation given to the Associated Press correspondent this afternoon by reliable sources, who are in a position to know just exactly what is going on.

The information further indicated that one of the points still unsettled is the old problem of cruiser strength.

The correspondent was informed that Premier MacDonald's fundamental idea in wanting to go to Washington is to establish personal contact with President Hoover, Secretary of State Stimson and other American officials.

The British premier would be especially desirous to visit Washington if conversations at Geneva should reach a deadlock and if MacDonald believed his personal presence in the United States might help in reaching a final agreement.

The league assembly is eagerly awaiting word from France and Germany of their reactions to Premier MacDonald's speech yesterday.

Commentators noted that while the British premier was very warmly congratulated by the German delegation, Premier Briand of France remained silent in his seat.

Tomorrow both M. Briand and Dr. Gustav Stresemann, head of the German delegation, are to speak. What they have to say is awaited with scarcely less interest than was the speech of Mr. MacDonald.

Premier Stauning of Denmark closed this morning's sessions with a review of what Denmark had done in the way of disarmament.

# BE ALIVE AND KEEP UP GRIT, EXPERT WARNS

Wisehaupt Tells 250 Apple-  
ton People Why Some  
Businessmen Fail

CONTINUED FROM PAGE 1

He welcomes such competition and realizes that the game of selling is made more interesting through man-  
euvers of chain stores. Without  
competition, selling would be a pretty  
dry game," he said.

At this point, Mr. Wisehaupt con-  
tinued his comparison of good and  
bad business establishments by  
analyzing sales forces. He described  
the difference between an incompe-  
tent clerk and a live wire sales-  
person.

## LIVE-WIRE CLERKS

"The establishment which has a  
personnel composed of sales people  
who are alert and realize that the  
customer has entered the place of  
business to make a successful pur-  
chase, is the one that leads in a  
community. The place of business  
whose clerks back away from a cus-  
tomer and inquire meekly, 'Is there  
something?' is on the road to decline.  
People don't go into a store to take  
chances on finding what they want  
—they want it and would like to  
have a sales person wait on them  
who can talk about his wares in-  
telligently.

"Too many merchants don't keep  
their windows lighted at night and  
Appleton is no exception to this  
rule. They don't realize what a mis-  
take they are making when they pick  
up their particular parts of the street  
and take them in for the night. They  
spend thousands of dollars for gorge-  
ous display fronts and then shut off  
their lights at 9 or 10 o'clock and  
sit there when the throngs are going  
public good by their places later in  
the evening they took into darkness.  
They should keep their windows  
lighted at least until the people who  
attend theatres have retired," Mr.  
Wisehaupt said.

Mr. Wisehaupt who has spoken in  
226 cities, analyzing business prob-  
lems will give four more lectures here.  
The topic of his address to-  
night will be Human Nature and  
Business Profits.

"In my lecture on Wednesday eve-  
ning I will try and point out some  
of the reasons why the younger gen-  
eration is being confronted with such  
strenuous problems and difficulties—  
and the reasons why so many young  
people show such a little self respect  
for themselves by drinking gin and  
partaking of other vices which they  
are led to do. I also will endeavor  
to show why many educational in-  
stitutions are wrong when they try  
through their vocational guidance  
programs to tell young people what  
they are best fitted for; why the  
majority of people at the age of 35  
are willing to admit that the line  
they are following at that age was  
never dreamed of in high school and  
college days.

"It's a crime the way some states  
spend millions of dollars trying to  
find out proper methods of breeding  
cattle and grain, and spend very lit-  
tle in the proper breeding of children,"  
Mr. Wisehaupt concluded.

## LEVITAN RAPS POLITICS IN STATE'S BUSINESS

San Francisco, Cal. —(AP)—A plea  
of amity between political factions  
was made here Wednesday by Solo-  
mon Levitan, state treasurer for  
Wisconsin. Levitan, who spoke before  
the annual convention of the National  
Association of State Auditors, com-  
ptrollers and treasurers.

Each American believes "at least  
theoretically," Mr. Levitan said, in  
majority rule, "but when some of  
these citizens get into public office  
they seem to forget their allegiance  
to our democratic form of govern-  
ment."

"Instead of holding up the hands  
of those elected by the majority, even  
though they may be of the opposing  
political faction, these persons do all  
in their power to thwart accomplish-  
ment by those in authority."

"The trouble lies in the false con-  
cept that political parties exist for  
the purpose of promoting their own  
interests, when in theory at least,  
they exist solely for the purpose of  
promoting the interest of the state  
—nation."

Mr. Levitan also spoke against the  
"contempt of wits" and "concealment  
of facts" in the trial of court cases,  
saying that American lawyers avoid  
acts in efforts to save their cases,  
at crime increases, while English  
lawyers are necessary to obtain  
private license and had no right to  
be the passenger aloft.

Enthusiastic over his knowledge of  
law, Krimsler took his sister, a  
20 years old, for a flight over  
the Brooklyn home when the motor  
plane began to sputter, pre-  
sumably from lack of gas. He head-  
ed for an open lot but landed nose  
it with a crash that destroyed the  
plane.

Krimsler suffered internal injuries  
to his sister several fractured ribs,  
multiple fractures of both legs and  
a fractured skull.

Broadway Entertainers at  
Spensville Pavilion, Friday  
night. Come!

## ARRREST STUDENT PILOT AFTER PLANE CRASHES

New York — (AP)—An 18-year-old  
student pilot who cracked up a bor-  
rowed plane while giving a sister a  
ride over their Brooklyn home was  
arrested at the Coney Island  
hospital today on charges of felon-  
y assault.

Police said Gus.ave Krimsler, the  
18-year-old, had completed but four of  
the fifteen hours necessary to obtain  
private license and had no right to  
be the passenger aloft.

Enthusiastic over his knowledge of  
law, Krimsler took his sister, a  
20 years old, for a flight over  
the Brooklyn home when the motor  
plane began to sputter, pre-  
sumably from lack of gas. He head-  
ed for an open lot but landed nose  
it with a crash that destroyed the  
plane.

Krimsler suffered internal injuries  
to his sister several fractured ribs,  
multiple fractures of both legs and  
a fractured skull.

Broadway Entertainers at  
Spensville Pavilion, Friday  
night. Come!

## Movie Man, Bride on Honeymoon

When Sam Katz, who heads a chain of 1,200 movie houses, and his  
recent bride Eleanor, dancing partner of the late Maurice, return from  
their honeymoon they will reside on a New York estate which has a  
private theater and on which the buildings are artificially cooled in  
summer.

## Briefs About Badgers

LaCrosse—Raiding LaCrosse sa-  
loons, 12 federal prohibition agents  
arrested seven men. They will re-  
ceive preliminary hearings Sept. 20,  
21, and 23.

Racine—John Repchek had worked  
for seven years to save money  
so that his wife in Czechoslovakia  
might be brought to America. He  
finally saved \$300. On the way to  
the telegraph office, with the bills  
in his pockets, he met two casual  
acquaintances and told them of his  
plan. They were with him a while  
and then left. John looked for his  
money. It was gone, and the friends  
had disappeared.

Escanaba, Mich. — Two men were  
held in jail today on charges of stab-  
bing Tom Carmody, 32, Perlin. He  
was wounded in a brawl with Alex  
Carlson, 58, and George Hanis, 27,  
both of Perlin. The quarrel started  
after Hanis wrecked Carmody's car.

Marquette—Spontaneous combus-  
tion set afire and destroyed a large  
barn filled with freshly cut clover  
on the farm of J. Zeratsky here.

Milwaukee —(AP)— Renewal of the  
investigation into alleged abuses of  
authority by city officials has been  
set for some time during the next  
10 days.

Milwaukee —(AP)— A breach of  
promise suit, asking \$15,000 damag-  
es, has been filed against Dr. Edwin  
B. Brodzinski, 32, a dentist, by Miss  
Isabel Kasperzak, 25.

Manitowoc —(AP)— A dive into 15  
feet of shallow water at Crystal  
Lake may cost Roderic Fox, 20, of  
Manitowoc, his life or permanently  
cripple him. Paralyzed, he is in a  
serious condition at the Plymouth  
hospital.

Manitowoc —(AP)— Two men who  
were arrested in a roadhouse near  
here last week, have been linked  
with several crimes in the vicinity  
of Hurley. Sheriff A. Lucia of Iron-  
co has notified authorities of Mani-  
towoc. The men are Henry Ford  
and Fred Binder.

Pewaukee —(AP)— Federal agents  
Tuesday raided the Beverdort hotel,  
largest at Pewaukee, and arrested  
Charles Meyer, proprietor. Nine  
half-gallons of beer were seized.

Racine —(AP)— William Rogan, 43,  
of Mt. Pleasant wrote a note Tues-  
day night: "Dear Mama: Papa is  
leaving you" and then swallowed  
poison. His wife found the note, called  
for help, and her husband was  
taken to a hospital where it was  
said he would recover.

## FOUR WORKERS' CASES SCHEDULED FOR FRIDAY

Testimony will be taken in four  
cases under the Workmen's Compen-  
sation act at a hearing to be con-  
ducted here Friday afternoon by an  
examiner from the Wisconsin In-  
dustrial commissioner. The hear-  
ings will be held at the courthouse.  
The examiner also will hold informal  
conferences with employers and em-  
ployees on matters arising under the  
workmen's act. Cases to be heard  
Friday are: Mrs. Ray Ulrich versus  
Menasha Carton company; Francis  
Zemlock, Jr. versus Grelling Engi-  
neering company; Frank Ronan  
versus Kimberly Clark corporation;  
Fred J. Schmidt versus F. C. Mader.

## CASTLE ON HUDSON TO HOUSE KATZ AND HIS DANCER BRIDE

Estate Has Theater and Gar-  
age With Space for 150  
Cars

New York — (AP)— When Sam  
Katz was a boy in high school on  
Chicago's west side, back in 1903,  
he used to hurry from classes to a  
dime nickelodeon in the neighbor-  
hood, where for a \$1 a week he  
played the piano from supertime  
until the last show was over.

And when Romance flickered on  
the screen in the little movie house  
that had been a grocery store, Sam  
lapsed into the melody of "Castles  
in the Air," and conjured from the  
twanging keys a vision of the castle  
he was going to build some day.

He is building it now, on a  
mountain side above the Palisades  
of the Hudson near New City, N. Y.  
It will be ready in a few months for  
him and his bride.

His bride is Eleanor Ambrose,  
the dancer. When Sam was play-  
ing a nickelodeon piano who was  
Eleanor Tuckett, daughter of a  
Newton, Kan., merchant, police-  
man. She came to New York; she  
met, danced with and married  
Maurice Mouret; and for one lusu-  
rious year, until Maurice's death in  
1926, she shared with him the  
mante of the Castles and the ap-  
plause of supper-club habitués  
from Broadway to the Riviera.

Katz played the piano until he  
had saved money enough to buy the  
nickelodeon. Then he took into  
partnership his father Morris, a  
Jewish barber who had brought his  
family of six to Chicago, from Rus-  
sian when Sam was four months  
old. They saved, bought more  
nickelodeons, and went into part-  
nership with the four Balaban to-  
kies. Twelve years ago the partners  
built in Chicago the first of the de-  
luxe motion picture houses which  
now dot the nation.

The mansion that Sam Katz is  
building for his bride in the central  
edifice on an estate which encom-  
passes a mountain on the west  
bank of the Hudson river 25 miles  
above New York.

The estate also has a hundred-  
room manor for guests, a sumptuous  
theater of its own, stables, tennis  
courts and swimming pools, a  
garage with space for 150 motor  
cars—even an air-cooling plant to  
keep temperatures temperate in all  
buildings on torrid summer days.

LOCAL CHIROPRACTOR AT  
PALMER SCHOOL MEETING

Dr. J. A. Panneek, chairman of  
the Wisconsin Chiropractic Health  
bureau attended a one week review  
course at the lyceum at the Palmer  
school of Chiropractic at Davenport,  
Iowa, Aug. 25 to Sept. 1. He re-  
turned here Tuesday.

Directors of the Chiropractic  
Health bureau held their annual  
meeting on Tuesday, Aug. 27. Sev-  
eral thousand chiropractors attend-  
ed from the United States and Can-  
ada.

Chiropractors from this vicinity at-  
tending the course were Dr. J. Star,  
Seymour; Dr. A. A. Steinhart, Rhine-  
lander and Dr. Breithaupt, Water-  
town.

## TROOP 2 SCOUTS HAVE OUTING AT ALICIA PARK

Twenty valley council boy scouts  
of Troop 2 of the Methodist church  
attended the open meeting at Alicia  
park Tuesday evening. H. H. Brown  
scoutmaster, was in charge of the  
session. Dinner was prepared in the  
open by the youngsters and was fol-  
lowed by a program of games and  
stunts.

## POOR DENTISTRY IS EXPEN- SIVE AT ANY PRICE--

Why experiment or take any chances with unsatisfactory dental  
work when you can have your work done at the Union Dentists by  
Dentists of skill and reputation who have built the largest dental  
practice in the county right among your friends and acquaintances.  
We have among our patrons some of the very best people of the  
community. This is because of the high class satisfactory service  
we render at surprisingly moderate prices. In fact, our prices  
average from 20% to 50% lower than those asked by other dentists.

Come in today. Examination and consultation are free.

## Quartet Sings Here Tomorrow Night

The four boys who make up the Nordix Male quartet, which will sing  
at Lawrence Memorial chapel Thursday evening, all are clergymen's sons.  
The quartet comes to Appleton under the auspices of the Lutherans.

## WISEHAUPT HITS BULLSEYE IN 1ST OF LECTURES HERE

Business Analyst Wins Con-  
fidence by His Matter-of-  
fact Speech

Howard J. Wisehaupt, whose lec-  
tures on business methods here are  
sponsored by the Appleton Chamber  
of Commerce and The Appleton  
Post-Crescent, will continue his  
series of talks at the high school  
auditorium tonight with a discussion  
of Human Nature and Business  
Profits. Yesterday noon, at a joint  
meeting of Rotary, Lions and Ki-  
wanis clubs, he talked some about  
human nature in business and to-  
night he will tell how human na-  
ture and profits harmonize. The  
meeting begins at 8 o'clock.

Wisehaupt made an instantaneous  
hit at the Monday noon meeting of  
his candid way of talking about  
touchy things. He didn't mince  
words and last night he was even  
more candid, mentioning names and  
places.

The lectures are free but admis-  
sion is by tickets which can be ob-  
tained from the chamber of com-  
merce or from The Post-Crescent.  
Tickets have been distributed to res-  
idences and business places but more  
are available.

It is hoped that the attendance will  
increase each night as the interest  
in the lectures grow. It has been  
the history of his visits that every  
night more people are attracted by  
his matter-of-fact way of digging in-  
to community affairs, and capacity  
crowds are the rule at the last of  
his lectures.

## SCHNEIDER TO TALK AT BEAR CREEK MEETING

Congressman George J. Schneider  
and R. P. Ames, vice president of  
the Chicago Pure Milk association,  
will be speakers at a meeting of the  
Nichols' local of the State Coopera-  
tive Milk Marketing association at  
Nichols' Friday night. Gus Sell,  
county agent, also has been asked to  
attend the meeting and give a short  
address. R. C. Schultz is the secre-  
tary of the Nichols group.

## WATCH YOUR STOMACH

That's the best advice for you  
can't have health without your  
stomach is well. Stated another way,  
it means that dangerous to neglect  
any stomach trouble.

If your stomach is disordered from  
any cause, you'll begin to appreciate  
what good health really is when you  
have taken ZINSEP Compound for  
some time. Thousands of men and women,  
swallowing stomach ailments, cannot ex-  
press themselves so strongly in its favor.  
Most of whom for years were habitual  
sufferers of indigestion, such as  
acid, flatulence, stomach trouble, and  
the like, from which they received no  
special benefit.

ZINSEP Compound is not just a GI-  
estant, like most remedies, but a com-  
plete and well balanced stomach treat-  
ment, combining all the elements of an  
Antacid, Gas Eliminator, Carminative,  
Gastric Sedative, Internal Antiseptic and  
Gentle Laxative. In other words, it is  
prepared to correct and overcome the  
cause of the trouble, instead of merely  
easing temporarily the effect.

ZINSEP Compound is prescribed by  
physicians and endorsed and guaranteed  
by druggists everywhere. Buy a bottle  
today. Your money back if not satisfied.  
Sold and guaranteed by Schlicht  
Bros., and all other good druggists  
everywhere.

## NORDIX QUARTET SINGS CONCERT IN CHAPEL THURSDAY

Group of Singers Presents  
Program Under Auspices  
of Lutherans

The Nordix Male quartet, Minne-  
apolis coming to Appleton under the  
auspices of the Lutherans of Apple-  
ton, will sing at Lawrence Memorial  
chapel Thursday evening.

The four boys, formerly members  
of the St. Olaf choir, all are clergy-  
men's sons. Gunnar Guldseth, the  
lead tenor, comes from Minneapolis.  
The others are Edmund Thompson,  
bass, Colfax; Arvid Romstad, tenor,  
St. Paul, Minn.; and Con Nestanda,  
Lanesboro, Minn.

The program to be sung by the  
boys is:  
I  
Gloria ..... Mozart  
Aloamus Te ..... Palestrina  
Beautiful Savious .....  
Volga Boat Song .....  
Crusader's Hymn .....  
II  
Tenor Solos .....  
III  
Negro Melodies ..... Strickland  
Deep River ..... Burleigh  
Aftensang ..... Norw. Folk Melody

IV  
Mr. Clarence Nelson

V  
In All The Country Round ..... Macmillan  
The Day Grows Old ..... Manton  
Volga Boat Song .....  
Russian Folk Tune .....  
VI  
Close Harmony ..... Geoffrey O'Hara  
Bill's Billboard ..... Mac Arthur  
Rigoletto (travesty) ..... Verdi  
Te Deum ..... Sibelius

## COUNT 6,287 VEHICLES ON U. S. HIGHWAY 41

A total of 6,287 vehicles passed the  
Kimberly station on Highway 41 be-  
tween 6 o'clock Monday morning and  
11 o'clock Monday night according  
to a report from Wilbur Derus,  
Kaulauna, who made a traffic count  
at that point for the county high-  
way department. The report is sub-  
mitted to the state highway depart-  
ment.

Of the total number of machines  
4,380 bore Wisconsin licenses and  
1,268 bore licenses from other states.  
There were three horse drawn ve-  
hicles counted during the day. Two  
hundred and sixty five heavy trucks  
and 135 light trucks were counted  
and 36 motorcycles were counted  
also.

# FAMILY OF SEVEN OFTEN RIDES ON SINGLE MOTORCYCLE

More English People Injured  
by Cycles Than by Auto-  
mobiles

London.—(P)—The motorcycle, rather than the automobile, is getting most of the traffic scoldings in England.

Deadliest of British pleasure vehicles, it injures more people annually than all other classes combined, and safety first advocates who, if they were in the United States, they would be urging stern action against reckless automobile drivers, here use some of their strongest language on "the motor-cycle."

Actually the motorcycle, as a piece of mechanism, does not appear to be any more deadly than the automobile. But in England the family automobile half the time is not an automobile at all. It is a motorcycle. So the traffic problem here is largely a motorcycle problem.

In the United States there are more than 20,000,000 pleasure cars and only about 150,000 motorcycles. In Great Britain there are only 750,000 pleasure cars, but there are 700,000 motorcycles. In other words, about a third of all the 2,000,000 motorcycles, in the world are traveling highways in the British Isles.

British reluctance to pay the high horsepower tax on automobiles is one reason back of the multitude of motorcycles here. The tax-a-motorist here has to pay on a small second-hand car of inexpensive American make is about \$115 annually, but more sometimes, than the car itself would bring it sold "as is" in New York.

Naturally the Englishman, living on a moderate salary tries to avoid that sort of expense. If he can afford the smallest British type, of low power car, which is little larger than a wardrobe trunk, he buys it and tries to bear up under a \$40 a year tax. Otherwise he and his family ride on a motorcycle.

To an American the limited carrying capacity of a motorcycle would seem to be too much of a drawback, but here necessity breeds invention. On Sunday afternoons the highways all over England are full of family motorcycles, some of them carrying as high as seven passengers. Father usually drives, mother sits in the side car with the smaller children, and the other and more athletic perch wherever they can.

And they all seem to enjoy themselves just as much as Sunday motorists in the States.

# GOODMAN GIVING JONES HARD FIGHT

Champion Is One Down at  
End of First Nine  
Holes

Pebble Beach, Calif.—(P)—While the champion Bobby Jones was busy in a sensational battle trying to overcome the loss of the first three holes to Johnny Goodman, of Omaha, Neb., the first round of the National Amateur Golf championship today also witnessed the elimination of Gene Homans, of Englewood, N. J., co-medalist with Jones, Ray Coleman, California, sharp shooter, beat Homans 4 and 3. Jones was one down as they started the second round.

Jones missed the first green with his second shot and was a good 20 feet from the pin with his third, conceding the hole to Goodman after missing his putt.

Both drove to the edge of a trap to the right of the second fairway, the ball resting only three feet apart. The champion missed the green again with his second, got on his edge. Bobby ran his putt up to within four feet of the cup, but was stymied by Goodman and again conceded the hole.

Goodman ran down a long putt on the third hole for a birdie after a fine pitch to the green, and became three up when Bobby missed his own try for the birdie.

Jones won the fourth with a birdie three out and one hole to Goodman's lead. The champion put his second shot eight feet from the pin and holed out while the Nebraska was in a trap with his second and on in three, about four feet from the cup.

Both sent their tee shots on the 160 yard fifth close to the pin, Goodman being ten feet away and Jones about 15. Both barely missed tries for birdies and halved the hole, Goodman staying two up.

Jones won the sixth and was only one down. The champion reached the green easily with his second shot to the difficult 503 yard green on the ocean's edge. This clinched his birdie four as Goodman hit his second into a trap short of the green, came out across the green into another trap and took six.

Jones went two down again on the 220 yard seventh when his tee shot went to the edge of the Green and he took three putts for a four. Goodman getting par three.

Jones won the eighth and became only one down, but it was a struggle for both. Bobby and his rival both were in the sand short of the green. The champion barely got on with his third, while Goodman also came out weakly. Jones' putt half-stymied the Nebraska and his five, one over par, was good enough to win.

Jones got a good break on the 18th when his second shot struck a bank and rolled back to within six feet of the cup. Goodman, on the two, missed a 25 foot putt by inches. Bobby also missed the try for birdie by a narrow margin and they halved in fours.

Jones out 564 334 454—33 Goodman out 454 334 364—23. Cyril Tolley, Great Britain, defeated Eddie Hunt, New York, 7 and 5.

Charles B. Hunter, Tacoma, Wash., defeated T. A. Bourn, England, 5 and 4.

John E. Lehman, Gary, Ind., defeated John J. McHugh, San Francisco, 4 and 2.

# GIRLS TO PARADE "BUSIEST CORNER" CLAD IN PAJAMAS

Kenosha.—(P)—Clad only in pajamas, Amanda Bennett, 22, and Dorothy Yankus, 25, both Allen-A mill strikers, were to parade the "busiest corner," state and Madison-sts., Chicago, today.

The performance was to be the outgrowth of a wager made by the girls a little more than a month ago. They bet that the Allen-A company would accept terms proposed by the union for the settlement of the strike before the Graf Zeppelin completed its world flight.

The terms of the wager were contained in a letter carried by the Graf from Lakehurst to Lakehurst. The letter left Kenosha, Aug. 5, and was delivered there Sept. 3.

# RAIN IS NEEDED TO CURB FOREST FIRES

CONTINUED FROM PAGE 1.

Lincoln, Marinette, Oconto and Sawyer. Michigan fires were in Baraga, Houghton, Keweenaw, Marquette and Ontonagon-co.

Rough estimates placed the number of fire fighters in Wisconsin yesterday at near the 1,000 mark, but this number was greatly reduced today.

In Iron-co., 75 men brought a fire northeast of Mercer under control after it burned over 2 1/2 square miles, and curbed three small fires, near Winegar, northwest of Mercer, and northwest of Hoy.

Many fires were reported in Forest-co., the district warden reported five fires under control. None of them, he said, was very serious. Sixth, burning along the Pine river, endangered timber. Thirty men fought it.

Forty men curbed a fire on the Heilmann Lumber company property near Sunday, Lincoln-co. It burned over only five acres. Several thousand feet of logs were destroyed.

Apparent to be 20,000 acres of second growth and slashings in Sawyer-co. were burned in eight fires, all under control unless a high wind springs up.

Three fires in Florence-co. were under control. All were small. They were near Brule, in the Long Lake and the Lake Emery districts. About 35 men fought them.

About 100 men were engaged in fighting Lakewood fires today. Portable engine pumping engines were used. Late Tuesday night highway 32 near Lakewood was blocked.

In Bayfield-co., where 3,000 acres of scrub and cut-over land in the Miquah purchase area was burned over, all was reported quiet today.

In Ashland-co., a large crew succeeded in keeping fires from destroying buildings on the Wisconsin trust.

The Marinette fire, on the upper Peshigo river, was believed under control.

# SHIP COMPLETES SIX WEEKS' TRIP IN ARCTIC

Six weeks voyage of 8,000 miles in the Arctic Sea, the department of the interior supply boat Beothic was back in port today.

Aboard the vessel were four members of the Royal Canadian mounted police returning to civilization from patrolling their lonely beats in the far north: welfare workers among the Eskimos, and several scientists, including J. D. Soper, Canadian government naturalist, who brought out with him the first blue goose eggs ever seen by man. The ship delivered supplies at numerous isolated settlements. Two way radio communication was maintained throughout the voyage.

# SALESMAN DIES ON HIS FIRST LONG AUTO TRIP

Denmark.—(P)—His first extended automobile trip brought death to George L. Hogan, 55, a Milwaukee salesman. He was killed yesterday when his car, the first he had owned since the crash three miles north of here.

The car jumped a ditch and turned over twice in a field. Hogan was thrown out and suffered a broken neck, and a fractured skull. He was thought to have lived either on prospect or Murray-ave in Milwaukee.

# WIDOW OF ENDURANCE FLYER GETS REWARD

Cleveland.—(P)—Mrs. Dorothy Reid, widow of Thomas Reid, endurance flier killed in a crash here Saturday, arrived late last night from Downey, Calif., to receive \$4,000 in prize money today which her husband earned by his flight. Reid fell asleep and crashed after flying nearly 40 hours.

The couple were married one day before Reid came to Cleveland to undertake the flight. He was backed by the Emco Aircraft company, of Downey, which paid the award to his widow although his record will not be recognized. In addition she was given \$1,500 in purses won by fliers at the National Air Races, which closed here Monday. Reid's funeral will be held in Hoesic Falls, N. Y., next Sunday.

# BLAZE NEAR CHICAGO

Chicago.—(P)—Forest fires snapped and crackled today at the very door of one of the world's largest cities. An area of more than a mile and a half in the Cook-co forest preserve, near 107th-st and Archer-ave, was swept by fire which was brought under control Monday night after burning since Monday night.

A forester discovered the fire and sought to extinguish it without help. The task proved too much and flames soon were shooting among the forest preserve timber. All available foresters were ordered out. Ditches were dug and sand and wet blankets were used before the fire was brought under control.

# SEAPLANES TUNING UP FOR APPROACHING SCHNEIDER CONTEST

Races Are Scheduled to Be  
Flown Over English Waters  
Sept. 7

Cabhol, England.—(P)—This air station on the Solent has been echoing for weeks with the roar of seaplanes turning up for the Schneider cup contest.

The Schneider races, scheduled to be flown over waters near here September 7, although the Italians have requested a postponement, are drawing the swiftest sea birds of three nations—Great Britain, the United States and Italy.

Spectacular in flight is the leading British entry, the Supermarine S-6, which has attained a top speed estimated between 230 and 250 miles an hour with Flying Officer R. L. B. Atcherly at the controls. Its speed is difficult to estimate from the ground, as it moves so fast that observers lose the position.

Choice of the three fliers to man the British ships will be made August 31. All of the six pilots of the high speed flight from which the three will be selected are aviators of distinguished records.

Atcherly, a pilot of No. 29 fighter squadron, and early this summer won the King's cup air race.

Squadron Leader A. H. Orlebar joined the flying corps in 1916, flew with a bombing squadron and in Iraq, and was awarded the air force cross in 1921.

Flight Lieut. D. D'Arcy Greig was in France in 1918, with the Royal air force in Iraq, received the distinguished flying cross in 1921 for services in Mesopotamia and in 1922, flight here last year piloted his plane at 319.57 miles an hour.

Flight Lieut. G. H. Stainforth saw world war service and later served with the R. A. F. in Egypt.

Flying Officer H. R. D. Waghorn, a fighter pilot with No. 17 Squadron, has been an instructor at the central flying school.

Flying Officer T. H. Moon saw world war service as an engineering officer. He became a technical officer in the R. A. F. and has served in Egypt, Iraq and other parts of the middle east.

Another man whose interest in the international speed battle will be as keen as if he were plotting one of the bullet like monoplane is R. J. Mitchell, designer of the ships.

Mitchell joined the Supermarine aviation works in 1917 and three years later became chief engineer and designer of the concern. It was he who designed the Supermarine Sea Lion that won the Schneider cup in 1923, and the Supermarine Napier S-4 which broke the seaplane speed record in 1925.

The other two British planes built for the Schneider race were designed by H. P. Folland, whose Gloster-Napier sixes are exceptionally beautiful as well as speedy.

He designed the Gloster biplane which made the fastest lap in 1927. The Italian Schneider cup team requested England to postpone the race because of the death of the Italian aviator Motta.

# RAIN TORM HAMPERERS PLANES IN ARIZONA

Phoenix, Ariz.—(P)—A severe rain, wind and electrical storm which played havoc with airplane transportation, railroad schedules and automobile travel in Arizona abated today, leaving one passenger plane on the missing list and two others forced down.

Transcontinental Air Transport's Los Angeles-bound ship from Albuquerque was unaccounted for. Standard Airlines' plane from El Paso, en route to Los Angeles, spent the night in Phoenix, and a western air express transport, en route from the east to Los Angeles, was forced down at Holbrook with one motor out of commission.

A cloudburst on the Hassayampa Trail, 40 miles north of here, the most recent visitation of the storm, mounded 200 automobiles when it carried away a high bridge. This storm also delayed railway traffic when the approaches to the Santa Fe bridge were washed out near Whitman.

U. S. Highway No. 80, the main route across the state to the Pacific coast, was closed for repairs between Gila Bend and Mohawk.

Business houses in Florence were flooded and 15 inches of water covered the streets of the town. At Wellton trees fell across the highways. Telephone lines in many parts of the state were temporarily out or down.

Water poured into the huge reservoirs behind Roosevelt and Coolidge dams.

# CHARGE APPLETON MAN WAS RECKLESS DRIVER

Henry Brookhyser, Appleton, who figured in a collision on Depot-st., Kaukauna, with Andrew Miller, county motorcycle officer, pleaded guilty in municipal court before Judge Theodore Berg Wednesday morning of reckless driving and his trial was set for Saturday morning at 9 o'clock.

Brookhyser made a left turn onto Depot-st. and Miller, who was driving toward Appleton, crashed into his machine. Miller suffered slight bruises and his machine was slightly damaged.

# PHOTOGRAPHERS MEET IN OSHKOSH STUDIO

The Fox River Valley Photographers association will meet at 6 o'clock Friday evening at the Lyman studio at Oshkosh. A 6:30 dinner will be served at the Silver Grill and a business meeting will take place. Among those who have already made reservations from Appleton are W. T. Ross and Mr. and Mrs. Ed Harwood.

# British Planes Roar in Schneider Tests

The Supermarine S-6, shown in flight and on its truck, is England's leading entry for the Schneider cup races. Prominent among the pilots from whom will be chosen the British three-man team are Flight Lieut. D'Arcy Greig (upper left), Squadron Leader A. H. Orlebar (upper right), and Flying Officer R. L. B. Atcherly (below).

# CAREFUL DRIVERS TO BE REWARDED

Lower Rates Under State  
Law for Those Who Do Not  
Have Accidents

Hartford, Conn.—(P)—Caresing the pocketbook or spanking it has been conceded by experts to be a most potent means of rewarding or punishing good or bad deeds.

Robbitt B. Stockell, motor vehicle commissioner, had this in mind when he proposed to a 1929 legislative committee that the careful, inoffensive driver be "noticed" as much as the careless, habitually trouble making one.

The legislature enacted a law, said to be the first of its kind in the country, through which the Connecticut motorist who is "good" will be rewarded, via the pocketbook, and the "bad" will be punished via the same route.

The state gives official sanction, and provides an official basis, for a plan that has been used by insurance companies for many years—giving low, or basic liability rates to drivers who rarely or never get into trouble and raising the rates of those who figure too frequently in police or civil courts.

All but "perfect" drivers will have the basic rate. Those who make minor infractions of traffic laws will go into Class A, and their insurance rates will leap 10 per cent. Class B will hold the "many accident, many law-breaking" drivers, with rates 25 per cent above the basic. Class C—the "habitual offender and the drunken driver"—will be rated 50 per cent over the basic. Insurance companies will work out the rates. Mr. Stockell will provide the classification list.

# BIRTHS

A son was born Saturday to Mr. and Mrs. Francis McHugh, 801 S. Outagamie-st at St. Elizabeth hospital.

A daughter was born Saturday morning to Mr. and Mrs. Edward Keller, 737 S. Story-st, at St. Elizabeth hospital.

A daughter was born on Sunday morning to Mr. and Mrs. Edward Bleier, 1051 W. Loraine-st at St. Elizabeth hospital.

Born to Mr. and Mrs. Earl Gartz, 1420 N. Mead-st, a son on Sunday at St. Elizabeth hospital.

A son was born to Mr. and Mrs. Fred Schulz, route 1, Kaukauna Sunday at St. Elizabeth hospital.

A son was born Monday to Mr. and Mrs. John Roach, 802 S. Story-st at St. Elizabeth hospital.

A daughter was born to Mr. and Mrs. Wallace Gloudeemann, Little Chute, Monday at St. Elizabeth hospital.

A son was born Monday to Mr. and Mrs. E. A. Schmidt, 1325 N. Oneida-st at St. Elizabeth hospital.

A son was born Monday to Mr. and Mrs. Van Dinter, Little Chute at St. Elizabeth hospital.

A son was born Wednesday morning to Mr. and Mrs. Wilbur Lahrenz, Hortonville at St. Elizabeth hospital.

# ATTRIBUTE HER LIFE TO MOONSHINE STILL

Wausau.—(P)—To a moonshine drinker, John Austin, 66, attributes her life.

Lost in a swamp nine miles from here while picking berries, Mrs. Austin came upon the still and drank the water which it contained.

Mrs. Austin was lost 24 hours and was found by a posse of 50 men Monday. She was on the verge of collapse, was badly bruised and had suffered much from mosquito bites.

# FOUR MEN TRAPPED IN CALIFORNIA MINE

Stockton, Calif.—(P)—Tons of rock loosened in a cave-in on the 1,450 foot level of the Calaveras Copper company at Copacopero trapped five men today. An hour later, one miner was rescued, crushed badly but still alive.

# PERSONALS

Mrs. George Cusan, Kenosha, and R. J. White and family, Berry Lake, spent the weekend with Mrs. J. P. Gillespie. W. P. Elmer, Indianola, Neb., is spending a week at the Gillespie home.

Mrs. Harold Menning has returned from a two months' visit at Echo Lake resort.

Mr. and Mrs. Frank Bleck, 725 N. Mason-st, returned Tuesday from Racine where they spent the weekend. Miss Ella Wilda, Racine, returned to spend her vacation at the Bleck home.

Mr. and Mrs. Henry Melike and family spent the weekend at Shawano, Carter and Oconto Falls.

Mr. and Mrs. William Fisher and family spent Sunday at Waldo.

Mr. and Mrs. Winfield Reinemann have returned to Milwaukee after spending several days at the home of Mr. and Mrs. Frank C. Koch, W. Summer-st.

Roland Ehke, Appleton, and Leslie Popke, Chilton, left Tuesday morning for Milwaukee to enter Concordia college.

Miss Anita Ehke spent Sunday and Labor day at Chilton with relatives.

Mr. and Mrs. Otto Ehke and son, Karl, spent Labor day with relatives at Chilton.

Mr. and Mrs. Oscar Loeper and family returned Tuesday after spending the weekend with friends and relatives at Watertown, Burlington and Lake Geneva.

Mr. and Mrs. August Loerhke, West Allis, visited over the weekend with Mr. and Mrs. William Agen, W. Commercial-st.

Mr. and Mrs. John Luebben, S. Pierce-ave, returned home Tuesday after visiting with friends at Post Lake, Antigo.

Mr. and Mrs. William Lueders and Mr. and Mrs. M. E. Whitman spent Sunday and Monday at Waukegan at the home of Mr. and Mrs. Martin Lueders.

Joseph Bartol, Miss Margaret Simms, Waukegan, Ill., Earl Bartol, Oak Park, Ill., and Mr. and Mrs. Charles Robeson, Joliet, Ill., spent the weekend with Mrs. Albert Beltz, N. Green Bay-st.

Paul Konrath left Monday to make his home in Escanaba, Mich. His family will follow later.

Mr. and Mrs. Victor Vervey, Mr. and Mrs. Harvey Kuschel, Mr. and Mrs. Alfred Kohers and Julius Kuschel spent Sunday and Monday camping at Loon Lake.

Mrs. Ray Grunski, she returned from Milwaukee where she spent a week.

Miss Lorraine Veronica Horn, Milwaukee, is the guest of Miss Louise Pauly, 32 Sherman-pl.

Miss Gertrude Schultz, 923 W. Packard-st and Miss Veronica Lett, 531 N. State-st, left for Milwaukee where they will enter St. Mary hospital, training school for nurses.

Mr. and Mrs. Arthur Malzer spent Sunday at Clintonville with Mr. and Mrs. William Malzer.

Mrs. Rosella Kuse and Miss Edna Kuse left Sunday for Milwaukee for a two weeks' visit with Mrs. Otto Wadel.

Mrs. Henry Wolter, Mrs. Leo Loeselyng, Mrs. Charles Feuerstein, Mrs. Ray Feuerstein and Al Oestreich returned Saturday evening from a trip to Kenosha where they attended the funeral of their nephew, Nicholas Arent.

Mr. and Mrs. Robert Boersch, Seymour, Henry Krock, Melina, and Mr. and Mrs. Earl Hager and sons, Stevens Point, have returned to their homes after attending the wedding of Ethel Hager and Arthur Krock.

Mr. and Mrs. Edward Kunstman and son Billy and Mr. and Mrs. Fred Luick, son Herman and daughter Lydia returned Tuesday from Evansville, Ill., where they spent three days visiting with friends.

Myron Bleck returned Tuesday from a two week vacation in St. Louis, Mo., and other southern cities.

Arthur Dimick, water commissioner, returned Tuesday from a two week vacation in Cleveland, O.

# SAYS ENGLAND NEEDS BETTER DEBT TERMS

British Position Must Be  
Restated, Churchill De-  
clares

Vancouver, B. C.—(P)—Winston Churchill, former British Chancellor of the Exchequer, speaking here under the auspices of the National Council of Education, declared that the time had come for a restatement of the British position on the war debts in terms more favorable to Great Britain.

"We can no longer say that we are obtaining as much from Europe, including arrears, as the United States is receiving from us," he said.

He referred especially to the repudiated Russian debt of 600,000,000 pounds sterling which he stated France and Italy should be asked to agree was outside the "self denying limitations of the Balfour note."

Mr. Churchill regarded the debt as not impossible of collection if Russia renews the "garb of civilization" in the next ten or fifteen years.

Coupled with his statement on war debts, the former chancellor warned the British government that the outbreak in Palestine was "only a bloody foretaste" of what would happen in Egypt and India if the "protecting and guiding hand of Great Britain" were withdrawn. He had no doubt, he said, but that the dismissal of Lord Lloyd and the proposal of the labor government to clear the British garrison out of Cairo and Alexandria have been taken as a sign of weakness by the Arabs in Palestine.

# VILLAGE HEADS QUIT TO "PUT STOP TO GOSSIP"

Chicago.—(P)—Scandal which has had suburban Maywood buzzing for days was followed last night by the resignation of three officials of the village.

The men whose resignations were accepted at a meeting of the village trustees were John A. Carter, superintendent of public works; Allan Williams, clerk of the village court; and Dewitt Cleland, village attorney who also is an assistant attorney general of Illinois.

The charges were based on stories of two young women who occupied an apartment where drinking parties were declared to have been held, attended by several men officially connected with the village or Maywood. The three who resigned denied the charges but offered their resignations as Cleland said, "to stop gossip."

# ANOTHER LARGE CROWD HEARS BAND CONCERT

A fairly large crowd heard the concert by the 120th Field Artillery band in Pierce park Tuesday night, in spite of the fact that there was very little advance publicity.

The concert was composed largely of selections from popular light and comic operas, including The Prince of Pilsen, The Chocolate Soldier, The Firefly and the Royal Chef. Spirited band numbers were played as encores.

Announcement was made by Director Mumm that the Chocolate Soldier number was played at the request of a group of New London people.

# NAB 2 MEN, 1 WOMAN AFTER LIQUOR RAID

Berlin.—(P)—Two men and a woman were taken under \$200 and \$100 bail respectively when arraigned before Court Commissioner Fred Enbelschreht here yesterday following a Sunday night raid on a farm near Princeton. They will appear for preliminary hearing Sept. 10.

They gave their names as James Odell, Albert Bosteder and Magdalen Smith.

Sheriff Smith and Deputies broke into the house and found the three upstairs. Two bedrooms had been converted into drinking rooms and a third contained a bar. No liquor was found. Two slot machines were confiscated.

# BOY PAROLED AFTER ASSAULTING MOTHER

A 17-year-old youth, arrested Tuesday by Officers Carl Radtke and Walter Hendricks, on charges of assaulting his mother was sentenced to six months in jail by Judge Theodore Berg in municipal court Wednesday morning. Sentence was suspended, however, and the youth was placed on parole to Police Chief George T. Prim for six months. The complaint against the boy was signed by his mother.

# BUILDING PERMITS

One building permit was issued by John Wolland, building inspector on Tuesday. It was granted to Herman Winters, 114 E. Brewster-st, addition to garage, cost \$50.

# THIS JUDGE HAS HIS OWN MAXIMS ABOUT ALIMONY

Milwaukee.—(P)—Circuit Judge Gustave Gehrs has his own maxims on alimony. One of them: No woman who runs to Waukegan and marries after knowing her husband but a few hours should ask for alimony.

And by that maxim Agnes Stewart, 35, Milwaukee, gets no alimony. She appeared in court today and Judge Gehrs ruled she did not deserve it.

Yesterday she sued for divorce, alleging that her husband was guilty of cruel and inhuman treatment when he kicked her out of bed on their wedding night.

According to testimony, Frank Stewart, 38,

## BADGER LAWMAKERS GET LOTS DONE IN THEIR LONG SESSION

But Income Tax and Gas Tax  
Was Left Pretty Much Up  
in the Air

**Madison — (AP) —** The hard-fighting, record-breaking 1929 session of the Wisconsin legislature, despite its reputation for killing time and wasting effort, leaves behind a record of notable achievement.

During its eight months of shadow boxing, oratory and parliamentary maneuvering, it found time to act upon a measure of importance to public welfare, and the more efficient administration of government.

A legislative enactment which aroused most interest among the people of the state was the one repealing the state dry law. This measure was passed in response to the mandate of the people, as expressed in the April referendum election.

Most of the important governmental changes were in accord with recommendation made by Governor Kohler, despite the fact that the lower house of the legislature was controlled by the opposition faction.

**NEW ROAD BOARD**  
Among these changes are the creation of a full-time, three-man, salaried highway commission, the creation of a state budget administered by a budget director who is responsible to the governor, the consolidation of a few governmental divisions, and the creation of a state board to administer all the trust funds of the state.

The consolidation movement did not go as far as its friends originally planned, merely combining into one department the dairy and food commission, the department of agriculture and the department of markets. Creation of a bureau of personnel to replace the civil service commission, and a bureau of purchases to do all the buying for the state's institutions, completes the list of business changes which the legislature carried out, in line with Governor Kohler's recommendations.

The outstanding negative achievement of the session was its failure to increase the gasoline tax. More than two dozen proposals were advanced to add to the fuel tax, but none met the approval of the legislature. The field was split four ways, into those who wanted no increase, those who wanted the increase for through roads, those who desired it for local roads, and the ones who wanted to replace the personal property tax on autos by increased gasoline taxes. Although there were enough who favored increased fuel taxes to put over some sort of measure, they were never able to agree. So the proposal died.

**INCOME TAX**  
On the question of the income tax, the two houses failed to follow the guidance of the governor. He proposed a slight increase in the deductions, which would have reduced the state's annual revenue about \$850,000. In place of his measure, the legislature passed a bill which increases the income tax to be paid by persons of large incomes, and retains the increased reductions of the administration bill.

The bitterest and hardest battle of the session came over the issue of taxation of public utilities and their ownership by the state. It resulted in a compromise. A batch of bills, increasing the amount of tax which utilities pay, authorizing the state to enter the business of generating and distributing electric energy, were passed by the assembly.

On the Conservative senate, all were killed, and a compromise taxation measure produced, which cut in half the amount of additional tax required of the utilities. This compromise was accepted by the assembly, and signed by the governor.

Legislators did not forget to remember their own needs. A new salary schedule, calling for \$100 a month for two years, in place of the \$500 salary which was formerly paid for the two year term, was passed and approved by Kohler. The question at issue now is whether the new salaries can be paid to members of the session which voted the increase.

In the field of labor legislation, the outstanding measure is the "yellow dog contract" law. This makes void any contract in which an employee agrees he will not join a labor union, or in which a farmer agrees he will not become a member of a cooperative marketing organization.

Social legislation received its share in the passage of the Children's Code, and a measure calling for construction of a \$300,000 hospital for crippled children on the campus of the University of Wisconsin. The Code, backed by various welfare groups in the state, revises and codifies the laws relating to delinquent and unfortunate children.

The greatest fiasco of the session was the proposed investigation of campaign expenditures made by all parties and factions in every election since 1924. This committee, which was to report to the 1929 legislature, was deadlocked so long over the question of who would be chairman, that no investigation was possible before adjournment. The inquiry will be conducted later, beginning Oct. 22.

**INVESTIGATE JUDGE**  
An extended investigation of the official conduct of Circuit Judge E. B. Belden, Racine, was made by the assembly's judiciary committee, on the basis of charges filed against the judge by representatives of organ-

## Producer Realizes Aim Of Becoming Millionaire

BY DENING SETMOOR

New York — Half a dozen years ago, when Jed Harris was just another Broadway press agent, without a nickel and without a job, he used to declaim to his cronies, over cups of restaurant coffee at 2 a. m., that by the time he was 29 he would have made a million dollars as theatrical producer—and that then he would retire.

Jed Harris is 29. He has made his million, and then some, in the theater. And he is retiring to London, where on Cheney Walk, facing the Thames, he has bought a home.

The millions—and they are several—gleaned by this boy producer in three seasons are his returns from four bell-ringing hits: "Broadway," "Coquette," "The Royal Family" and "The Front Page."

But Harris' phenomenal success has surfeited him with the theater instead of whetting his appetite for greater triumphs. He may, he says, produce a few plays in London and then send them, if they suit him, to New York. Or he may not produce at all. Anyway he insists he's through with Broadway.

**BROADWAY'S MYSTERY BOY**  
A moody youth, Harris has always been a rather an enigma to his colleagues.

The story of Jacob Horowitz, the Newark N. J. boy who changed his name to Jed Harris, worked his way through three years at Yale by waiting table and playing poker, and first breasted Broadway as a "fifth assistant press agent for the Shuberts, is one that Harris never recounted himself.

But while he was press agent for Richard Herndon he went one day to a print shop on business, and, encountering an office boy, assailed the lad's ears for two hours with the boast that he would soon be a millionaire.

Two years or so ago, when he had his first million in the bank, he went back down to Wooster-st, hunted out that office boy, and said: "I told you so!"

**FAME ELUDED HIM ONCE**  
One of Broadway's Jed Harris myths is that he never produced a failure; and it isn't particularly to Harris' discredit that the story isn't so.

His first production, A. A. Milne's "The Romantic Age" done with a few hardly borrowed dollars in the autumn of 1925, was such a flop that Harris had to go back to press agenting. His subsequent ones—"Love 'Em and Leave 'Em," by John V. A. Weaver; "Weak Sisters," and "Spreadeagle," were no great shakes at the box office, although Harris

used labor at Kenosha. The committee, in its report, recommended that Belden resign, and that the board of bar commissioners commence disbarment proceedings against him. Thus far, the judge has not resigned, nor have the commissioners begun any action against him.

Not one of Governor Kohler's vetoes was overridden by the two houses. A bill by Assemblyman Mauthe, to allow high school graduates over 21 to enroll in the University without becoming a candidate for a degree, received the required two-thirds majority in the assembly, but failed in the senate.

Among the vetoed measures was one requiring every Wisconsin man or woman who fishes to pay a dollar resident fishing license fee. Backed by the conservation commission and various sportsman's leagues, the measure passed both houses. It was vetoed by Gov. Kohler, and his veto sustained.

To compensate the conservation commission for the loss of revenue which it expected from the fish license, the legislature voted a property tax of a twentieth of a mill to go for forestry purposes. This was approved by the governor, and is expected to raise about \$300,000 annually.

Three big park bills fell before the veto axe. They were Northern Lakes, Seven Pines and Kettle Moraine. In each the veto was sustained.

## RADIO IMPULSES FROM ANTARCTIC BLOWS HORN

Los Angeles — (AP) — Commander Richard Evelyn Byrd started a radio impulse from his antarctic camp in Little America that blew an automobile horn and drew curtains from an enlarged picture of the explorer at the National Radio exposition here last night.

The feat was performed by pre-arrangement with Byrd.

The radio impulse from Byrd's camp was picked up by station KFIH of the Radio Corporation of America in San Francisco and relayed by wireless to station KSE in Torrance, 20 miles from Los Angeles. From Torrance the impulse traveled by wire to the radio exposition. A crowd estimated at 10,000 stood in silence as the impulse threw a switch which set the horn sounding, and drew the curtains from Byrd's picture.

In a radiogram, addressed to G. Harold Porter, vice president of the Radio Corporation of America, Byrd said:

"I thank you for the opportunity to send greetings and good wishes to the National Radio exposition. Without radio many of our operations would have been impossible. During the winter months it is doubtful that all the navies and all the power of the world would reach us if we needed assistance, and yet the radio has reached us daily."

**A BUSINESS MATTER**  
MORITZ: Dad, what are morals?

ABE: Well, suppose you are in business and a client pays you \$3,000 instead of \$2,500. It is a matter of morals whether you pay him back half the difference or not.—Die Musketiere, Vienna.

Due to patrons being misinformed by Buss Depot we wish to advise that our busses are operating daily between Neenah, Appleton and Green Bay. For further information call Wisconsin Michigan Power Company.

## YACHT CLUB TO PLAN FOR AUTUMN MONTHS

The monthly meeting of the Appleton Yacht club will be held in the club house on S. Pierce-ave. at 7:30 Thursday evening. Plans for the approaching fall months and regular business matters will be discussed.

**KEEPING THEM SOBER**

MAN FROM BOSTON: Reading maketh a full man.  
SECOND DITTO: Is that why they are padlocking all the book stores? — Judge.

## JUDGING HERBERT HOOVER

Herbert Hoover has been president exactly six months today. It is a short time in which to appraise either his personal merits or his policies, although certain definite tendencies are clearly indicated. The natural disposition is to judge a man in public office, including even the president, by political standards; in other words, to attempt to decide whether his acts and behavior are popular or unpopular. The attitude of partisans and critics is influenced to no little extent by the political effect they desire to create. The actual worth and soundness of what the president does are not always taken into account.

It is so with President Hoover as it has been with his predecessors. There are some who profess to believe that he has weakened his popularity by the first half year of his administration, and on the other hand it is contended with equal positiveness that he has strengthened himself. Perhaps it is a close question and it is of very little importance at this time. Mr. Hoover's real record and his real standing with the American people will not be fixed for at least two years and possibly even longer. He has thus far had the opportunity only to approach the major problems which confront the government, but he is moving toward their solution in a manner that ought to inspire public confidence. He has addressed himself to this task with characteristic vigor and resourcefulness. He has shown himself competent to handle conceited and obstreperous politicians. In the matter of farm relief, he imposed his will absolutely upon congress after it did all it could to kick over the traces. He has appointed a farm board which could not very well be improved upon, and he has started a comprehensive survey of prohibition in order to ascertain the best course the nation should pursue in handling the liquor problem. He is making his influence felt on the side of speedy waterway development, and he has entered upon negotiations with a new Labor government of England for naval disarmament in a manner that promises to produce important and concrete results. His foreign policy has been beyond criticism of even his opponents. He has undertaken a long list of administrative changes and reforms.

We think the country is still disposed to judge the presidency on its true functions rather than upon the controversy over prohibition. If prohibition is eliminated, Mr. Hoover's record of today is constructive, distinctive and most encouraging. He has lived up to a reputation which had so much to do with bringing about his election. Prohibition appears to be less disturbing than it was before Mr. Hoover went into office. Enforcement methods have been improved and the country appears to have settled down to a willingness to give the administration full opportunities in this field. On the whole President Hoover has made a favorable beginning as the nation's chief executive. The country, too, is undeniably prosperous and optimistic.

## MORE PRESTIGE FOR BRITAIN

One thing is clear as a result of the dramatic sessions of The Hague conference to liquidate the problems of war. It is that the labor government of Great Britain has immensely enhanced its prestige in the field of foreign affairs. The determination and success with which Philip Snowden, chancellor of the exchequer, forced his demands for a larger participation in reparations payments have been received with universal acclaim throughout England. In contrast with the wishy-washy and mysterious foreign policy of the Baldwin government, the energy and directness of the MacDonald ministry, both in dealing with post-war questions and naval disarmament, have been decidedly refreshing. One cannot

blame the British government for its position at The Hague so long as it did not wreck the Young plan. This it has preserved, and as a matter of fact had no intention of discarding. Details are to be worked out at a later session, probably in October. German consent is a formality.

Although this conference has been described as one for final liquidation of war problems, it cannot of course cover so much ground. There are any number of differences and grievances yet to be adjusted and some of them will require years. The disrupting and controversial effects of the war and of the Versailles treaty will be felt for decades. There are many wrongs yet to be righted, many equities yet to be realized. But a final settlement of reparations means immediate withdrawal of allied troops from Germany, a reduction in future payments to be made by Germany and substitution of moral for mortgage indebtedness. It means elimination of the chief bone of material contention. It is a great step toward ultimate reconciliation on a just and permanent basis of the principals in the world war. It also makes for the financial stability of Europe as has nothing else since the war.

## THE PALESTINE MANDATE

It is a fortunate thing for the world that the responsibility for preserving life and order in Palestine during the present crisis falls upon Great Britain. Not only are British interests in the Orient greater than those of any Western power, but her understanding of its social and political life and her ability to deal with its racial and other peculiarities is greater even than that of France, who also has had much experience with the Orient, particularly in Africa and the near East. The conflict between Arab and Jew that in the absence of protective measures by a strong nation would result in flagrant persecution of the latter, is being rapidly brought under control by British forces.

Religious prejudices in the Holy Land are deep seated and at times virulent. It is difficult to keep them in check and no native government could be entrusted to suppress them. There is no more murderous or treacherous fanaticism than that of Mohammedanism when it is aroused. It hurls its fury indiscriminately and the objects of its attack are spared nothing. It requires an iron hand to prevent religious wars and clashes in those Oriental countries which lack the capacity for self-government.

Turkey itself has just emerged from that condition and has proved itself more worthy of international confidence than ever before, but throughout Northern Africa and on the Persian Gulf and beyond India there are large regions of the world which can only be civilized and made safe for commerce and development, along with progressive, social and economic improvement, under the guidance of Western powers.

Palestine, since the time of Christ, has been a hotbed of religious, political and economic warfare. It has been subjected to tribute and exploitation without end by kings and emperors and adventurers for centuries. The twentieth century finds it in a scarcely more settled state than during the crusades. It remains crude, medieval, sterile. Every so often feeling between Moslem and Christian, between Jew and Arab, between Eastern and Western cult, is fanned into flame. France has had to deal with it, so have other nations. This time it is Great Britain and she is doing the job with customary fearlessness and thoroughness. In this respect she is performing an international service, for she is helping to make an ugly and untutored part of the world safe for religion, commerce and travel, as well as for democracy.

What is said to be the world's largest ship will be launched in England. It is to be 730 feet in length and is designed to carry 100 passengers. It is thought that the air liner will make a journey to India in three and one-half days.

Phosphorescent suits for policemen on night traffic duty have been recommended to the Paris Prefecture by a municipal councillor.

A French criminal feigned dumbness and insanity for 15 years to avoid a prison sentence.

Leaves are unnecessary to the Aeginetia blossom, a purple parasite which thrives on other plants.

Of all the earthquakes on record, the most disastrous occurred in 1556, in China, when 830,000 people were killed.

More deadly drugs per head of population are being taken today than ever before in the world's history.

No white bread will be available in Soviet Russia for the next two years, it is said.

London is now regarded as the center of the stamp collecting world.

Nearly 7,000 persons are employed in Holland in making wooden shoes.

## Seen And Heard In New York

**BY RICHARD MASSOCK**  
New York—The old English sporting nobility that sponsored the art of fisticuffs in its rough and ready tavern days has a modern counterpart. Three squares of high finance head the list of New York's boxing patrons. They are Anthony J. Drexel Biddle, Edward H. Hutton and Walter U. Chrysler. Only slightly less active is Walter Camp, Jr., son of the football authority.

A scout at Madison Square Garden reports that each of these men owns, or has owned, at least one boxer. That is to say, the patron holds the boxer's contract and enters him in the ring much as racing people run their horses.

Rivalry is keen among them and there is much "kidding" when they get together. "Tony" Biddle's hope is said to be Rene De Vos, the middleweight. Hutton is supposed to have Joe Pavlik, the heavyweight. Chrysler once backed Knute Hansen, but not since Hansen's debacle against Kayo Christner. Since then, the scout reports, the only offer made for Hansen has been a plate of corned beef and cabbage from Billy LaHite of "The Tavern" to Billy Gibson, Hansen's manager.

The Manhattan squares' rivalry extends to other possessions. For instance, William F. Carey, the railroad builder who succeeded Tex Rickard at the Garden, has a \$16,000 remote control radio set of which he is proud. The more envious among his friends now are looking about for something finer.

The chivalrous tilting days of Ivanhoe may yet be revived with gloved gladiators of rival money barons fighting in the public arena under their masters' colors.

## COINCIDENCE

A curious coincidence in boko and play titles this season is "Blow the Man Down," from an old sea chantey.

Thomas W. Broadhurst, brother of George Broadhurst, the playwright, wrote the novel, "Kate Parsons," a prominent Greenwich Villager, wrote the play. Neither knows the other, although Arthur Hopkins, who is producing the play, knows them both.

The central character of the novel is a sailor's sweetheart who is shanghaied by a drunken Swede and achieves respectability at sea among the men of a tea-clipper who knew her true character ashore. It is the first novel by Broadhurst, who is 71 years old and a retired theater manager.

The play likewise is the first Miss Parsons has written. Its principal character is a captain, played by Walter Huston, but the story itself has been kept secret pending the premiere.

In each instance, of course, the dialog is salty.

## HUMAN BILLBOARD

"Have you," inquired a raptor, "heard the story of the chorine who was tried to make Broadway for six years and ended up on the 'Hollywood Revue' sign at the Astor?"

Whether or not there's such a story, the 26 girls who stand in two rows on the huge sign work only 15 minutes out of every hour from 8 to 11. And for exposing themselves to the elements, and the eyes of Broadway, 60 minutes nightly they receive \$15, which is more than most chorus girls get.

## Today's Anniversary

**FRANCE TURNS REPUBLIC**  
On Sept. 4, 1870, the third Republic was declared in France. Rarely has the bubble of power been so suddenly pricked as in Imperial France of that year.

After a series of defeats suffered by Napoleon, in the Franco-German war, the Corps Legislatif declared the empire, and his descendants forever excluded from the throne and created a Government of National Defense.

France was proclaimed a republic and a period of stress and disorder ensued. An armistice with Prussia, 1871, was followed by the meeting of the First National Assembly of the Third Republic at Bordeaux.

A preliminary treaty of peace with Germany was signed at Versailles and ratified by the assembly. France ceded Alsace, together with parts of Lorraine, to Germany and agreed to pay an indemnity of 5,000,000,000 francs.

A violent outbreak of the Commune, who feared the assembly was hostile to the republic, convulsed France in the spring of 1871, but was suppressed.

On Aug. 31, M. Thiers, who had been elected Chief of the Executive by the assembly in February, was granted the title of president of the republic.

## LOOKING BACKWARD

**TEN YEARS AGO**  
Wednesday, Sept. 3, 1919  
The "round table" conference between capital and labor was to be held at the White House between October 5 and 10, it was announced that day.

John Ellenbecker, Greenville, had begun work on a new ship, which he expected to have completed in time to fill with the present crop.

Claude Stark, son of Mr. and Mrs. Ernest Stark, 1193 10th avenue, arrived home after receiving his discharge from Great Lakes.

William Allen White of Emporia, Kas., was to be in the city the next night to give a lecture. Miss Helen Clark, Neenah, and Arthur Ritger, Appleton were to be married September 10 at the home of the bride's mother.

Otto A. Hansen and Katherine Farrell, Arthur O. Krueger and Mathilda Liehe, Appleton, applied for marriage licenses at the office of the city clerk that morning.

Leo Hegner entertained thirty friends at cards and games at his home on route 3 the previous Friday.

## TWENTY-FIVE YEARS AGO

Wednesday, Sept. 7, 1904  
The people of the Fourth district were to dedicate the new manual training addition to their school at 8 o'clock the next morning.

Marriage licenses were issued that day to W. F. Miller, Appleton, and Alvina Farm, Center; Alfred Agrell and Ella Tock, Appleton.

J. C. Ryan and Norbert Roemer walked to Green Bay the previous Monday.

C. F. Smith was a Milwaukee visitor that day. Miss Anna Kahler was visiting with Milwaukee friends.

Miss Mary Goode returned that day from a three-week visit at Milwaukee, where she was the guest of Mr. and Mrs. Lawrence Goode.

John Easer, Jr., accompanied E. S. Easer to North Dakota the previous day to remain during the coming winter.

F. J. Harwood and family had moved to the city from their summer home at Lochrystr.

Two German youths recently wagered they would pull a furniture van from Walsum to Mannheim, walking backwards and using their teeth only for hauling.

Some tablets containing items of news have been discovered during excavations at Ostia, near Rome. These would seem to be the first ancestors of our modern newspapers.

In Gotha, Germany, bachelors of 20 and over, with an income of more than \$750 a year, are forced to pay a tax of about \$2.50 a month as long as they remain single.

According to the manager of a big London hotel, German visitors to England are the best spenders, eating and drinking more than their closest rivals, the Americans.

WORDS OF LEARNED LENGTH AND THUNDERING SOUND.

"In arguing, to the parson own'd his skill."

For 'e'en the vanquished he could argue still;

While words of learned length and thundering sound

Amaz'd the gazing rustics rang'd around;

And still they gaz'd, and still the wonder grew

That one small head could carry all he knew."

—Goldsmith in "The Deserted Village."

Heartburn, weak ankles, too rich blood and lowered resistance are popular ideas or concepts and they probably convey clear and definite meaning to those who use them, but I confess I did not grasp the significance of "heartburn" until I had engaged in medical practice several years, and as for "weak ankles," I dived on me only four or five years ago, that this is what doctors recognize under the name of pronated feet. I have not yet discovered what too rich blood may be, and the lowered resistance hypothesis seems so very remote that I make no bones about declaring there is no such thing and challenging anyone who maintains there is to bring forward scientific evidence to support the belief.

When a layman complains of heartburn, seems to me he is playing parson on me. That's the way the parson won his arguments. What the layman is trying to tell me is that he is subject to regurgitation of normally acid gastric juice or chyme into the distal or cardiac portion of his esophagus or, else, regurgitation of hyperacid material—but instead of saying so in simple words that a plain doctor can understand the layman attempts to mislead me into examining his heart to see why it burns.

It is just so in the case of pronated feet. Believe it or not, for years that term "weak ankles" so frightened me that I scarcely knew what to do for patients who came under my observation for such trouble. It rattled me—I wondered why medical teachers had never taught me anything about such a common ailment. And I generally dismissed the luckless patient with a prescription for a good tonic—which is something a doctor gives when he can't collect his fee yet hopes to collect his fee nevertheless. It was after 10 or more years of practice that I discovered what "weak ankles" were, and I hold a grudge against the lalty yet, for such unfair dealing.

Now that I have become sophisticated it is the easiest thing in the world to take care of heartburn and weak ankles. For the former five or ten grains of prepared chalk (otherwise called calcium carbonate) two or three times a day will generally suffice. Put the chalk in, not on, the stomach.

For weak ankles, banishment of the improper shoes, a number of hours of exercise, play or work barefoot each day, and in children prevent temporary retention dressing to keep the feet in corrected position, will seldom fail to bring relief.

Of course I knew more or less about these remedial measures long

before I knew what heartburn and weak ankles meant, but I ask you, of what use is such knowledge to anyone when he can find no occasion to apply it?

People are always cavilling at the cryptic terms doctors use. Yet people are constantly complaining to doctors that they have "indigestion," "too rich blood," "blood pressure," "weak nerves," "auto-intoxication," "acid-ity," "rheumatism," "neuritis" and what not. Worse still these very people who spring the imposing terms resent the mystification the terms produce in the medical mind.

**QUESTIONS AND ANSWERS**  
Mystery of the Infra Red

A mail order concern offers an outfit generating infra-red rays, and guarantees that this will grow hair when worn on the head a short time each day. (H. O. D.)

Answer—In the first place, anybody that guarantees anything will grow hair is a faker. Aside from that, infra-red rays are merely heat rays, and you can get the same rays from a hot water bottle, a flaxseed poultice, or your radiant heater or the sun.

Would the use of mascara harm the eyes in any way? (P. P.)

Answer—Not if you are careful to keep it out of the eyes.

Alum in Honey

Is alum injurious to health? It is necessary to use a teaspoonful of alum to the quart of honey in making clover honey. Would this quantity of alum make the use of the honey dangerous? (S. F. L.)

Answer—No dangerous, but rather injurious to health.

Corn on The Cob

Kindly tell what the nourishment in corn eaten on the cob amounts to. (W. F. S.)

Answer—Sweet corn on the cob yields 25 calories to the ounce. The butter usually eaten with it is likely to give more nourishment than the corn, the corn without butter is no more tempting than butter without corn.

**Digestion and Nutrition**

(1) What quantity of liquids or semisolid foods does the average stomach hold? (2) How long does a glass of milk remain in the stomach before it passes on south? (3) One dietitian maintains that there is practically no nourishment in the whites of eggs, and another nut insists that the yolks contain but few calories. What is the truth about this? (E. C. O'Y.)

Answer—(1) A quart of more or liquid or from two to three pounds will be comfortably taken by the stomach. (2) A glass of water remains in the stomach only 10 or 15 minutes, but milk must curdle and be partly digested there, so it remains 1 1/2 to 2 hours. (3) Egg yolk is nearly seven times as nourishing as egg white, in calories. Egg white yields only 250 calories to the pound. A whole egg yields an average of 75 calories.

**HERE'S AN OFFER TO THE PARK BOARD**

Editor Post-Crescent—We must congratulate the mayor and the committee on the appointment of the Park Board. I do not know all the men who compose that board but I will say these men have used the best of judgment in

the expenditure of the money at their disposal. They have shown great business acumen. They have made a little go far. In a few years Appleton will have a park system second to none in cities of this size.

I have traveled through 27 out of the 48 states in our Union during the past three years. I have taken particular interest in how civic undertakings were managed.

As I said before, I have taken particular notice of the park systems and their management. I have learned, as much as possible relative to the management of their systems.

I believe the most beautiful little park I ever saw, so far as a tree life is concerned, is in Rochester, N. Y., the center of the nursery industry in United States.

Mr. Eastman of Kodak fame, has purchased a large tract of waste land on Lake Erie, near the city. He is spending millions of his money in improving and beautifying it to make a most beautiful spot. He says he will make it the most beautiful city park in the world. It will be for the benefit of the citizens of Rochester and the surrounding area. He is providing an endowment fund for its maintenance. The little park is already endowed.

They have a number of beautiful parks now surrounding the entire city and strange to say the manner they have been conducted, they are self supporting with an increment. This increment is yearly adding new tracts to be developed with very little if any expense to the city.

The park system owns and operates all amusements, the dancing floor, boats and other forms of amusement. Everything is supervised by the park board, and under strict police supervision by the city. Every sort of amusement is clean and wholesome and the people who enjoy these amusements are paying for them at a very small cost.

The next parking system I investigated was at Salt Lake City, Utah. The city owns and operates all its parks through the city council. Their parks are on the same basis as at Minneapolis, Minn. My wife and I went out to Salt Lake park one afternoon. This place is entirely surrounded by water from 3 to 6 feet deep. I took a dip while there and enjoyed it. The city got all returns from the bathing facilities.

The Mormons are good, clean, religious, law-abiding citizens. They maintain the strictest order in all forms of amusement. I was particularly interested in the conduct of the dance floor. The floor is large, accommodating about 3,000 people at one time. After the lights were turned on an orchestra of 50 pieces appeared on the scene. The young people began to assemble for clean, wholesome amusement. About 1,500 couples were on the floor at night. The floor was not too crowded. That was all they would admit. I conversed with the manager relative to the conduct of these dances on such a large scale. He has several helpers scattered around watching the dancers. He said the income from the amusements and concessions maintains the whole system without expense to the city and they are adding more land to this system through the same channels.

I have investigated many others, but these few are sufficient to illustrate my point.

Our park board is planning beautiful parks. They are doing excellent work. The citizens no doubt know by this time I am particularly interested in our young people, I love them. Having no children, and having sufficient competence to sustain me, I plan on devoting my life and some of my money toward promoting the welfare of our young people, to assist in every possible way, to assist the people to solve their young people's problems in the right present day manner.

I shall do all I can to help direct and uplift the other fellow's child. It is just as natural for our young people to enjoy a good dance as it is to eat a good meal. And many of them would rather dance than eat. When I was their age there was not a dance in vogue one day I could not execute. Our programs consisted of 24 numbers and no two dances were alike, each different. The wait was the only one appearing twice on the program. This kind of dancing was helpful in developing grace and poise. I enjoyed the privilege of dancing immensely.

ly. No night was too long for me. As I look back over my life I would not have missed that innocent pleasure for anything. I am too far in years now and too heavy to stand the gas, but I love to see the young people enjoy it as I did when their age.

It seems to me, citizens, we could make an investment in behalf of our young people, promoting their welfare and uplift in the interest of their precious souls. We have Waverly Beach, Terrace Gardens, Rain-bow Gardens and Cinderella near our borders. They all seem to be making it go. They must operate at a profit or they would not exist. Men in that game don't work for nothing. If they don't make it with the dance floor they must make it some other way.

Why can't this city do as Minneapolis and Salt Lake City are doing? They can. All that is needed would be a spring board, polished wooden dance floor in the pavilion at Florence park. It can be used for other purposes. It is not hard to prepare a good floor for the dance after it is used for something else.

I understand the park board plans on polishing that cement floor for this purpose. How many of the park board are real dancers or have been? A stone floor is no kind of a floor to dance on. An hour or two of dancing on such a floor gives a person up. The next day they feel like an old horse that has traveled on a cement road all day. No, let us have a good floor.

I am going to make a proposition to the park board. Will you accept it? You give me the money with which to lay that floor as I think from experience it should be laid. Give me the general management of affairs connected with it. I will guarantee to have the floor in operation for one season at my own expense. After that it will maintain itself. I think I will lose money in the attempt and believe the end of the season I will return every cent advanced for the floor. Will you take me up on this proposition? I am game. I shall select a man in this city whom I know by experience can conduct

wholesome, enjoyable dances. He knows how to put him in main assembly of the floor. I will select one or two most excellent women to act as matrons to assist this man and maintain order and decency on the floor. I am sure I will have the cooperation of our capable Chief and his officers, to maintain order and strict supervision outside within the park limits. If any immoral conduct takes place it will not be within the confines of this amusement place.

This conduct of affairs will assure the fathers and mothers that their children, no matter how young nor how old, are being protected from vice and enjoying wholesome amusement under strict supervision. I will arrange with Prof. Mumm to furnish the music at a nominal fee.

Will you accept my offer? I am there in the interest of a dandy good time for our young people.

Respectfully submitted,

DAVID S. RUNNELS.

# BAR GROUP WANTS RADIO DEALT WITH ON SEPARATE PLAN

## Will Oppose Creation of Federal Commission on Communications

BY ROBERT MACK  
Copyright, 1929, by Cons. Press

Washington.—Opposing outright the creation of a federal commission on communication on the ground that radio should be dealt with as a separate entity at this time, the standing committee on radio law of the American Bar association will recommend to its parent body that the present laws governing radio virtually be re-written.

In its report, based on nearly a year's investigation, the committee emphasizes the far-reaching importance, both domestically and internationally of radio communications and the necessity for the enactment of laws that will help, rather than hinder, the orderly development of the art. It runs rough shod over many of the provisions of the radio act of 1927, and recommends the outright repeal of no less than four of its sections and urges the re-writing of a dozen others.

The report will be presented to the annual meeting of the association at Memphis next month, with the recommendation that its provisions be adopted and brought to the attention of congress. It is a text book on radio law and was drafted with the idea of informing lawyers throughout the country in this new field of jurisprudence. Louis G. Caldwell, former general counsel of the federal radio commission and recognized as one of the outstanding authorities on the legal aspects of radio is chairman of the committee.

### REFLECTS VIEWS

In most of its aspects, the report reflects the general views of Mr. Caldwell, which several times have been expressed before committees of congress. It recommends the complete repeal of the Davis equalization amendment of the radio act, providing for the equal distribution of broadcasting facilities among the states, based on population; repeal of the anti-monopoly provisions contained in the radio law forbidding the merging of wire and wireless companies and a general overhauling of sundry other provisions.

Urging the elimination, forthwith, of the anti-monopoly provisions of the act, the committee states they are a "constant threat to the foreign communications system of the United States." One of the committee's riders that any company finally adjudged guilty by a federal court of monopoly; or attempting to monopolize the control of the manufacture or sale of radio, shall be refused licenses for radio channels. This clause, the report makes clear, was aimed by certain members of congress at the Radio Corporation of America, without the realization of the consequences. The RCA is the predominant factor in the international radio communications field. It also is engaged in radio manufacturing on an unapproached scale. Civil proceedings are pending against the RCA for alleged monopoly in the cross-licensing of radio receiving set patents and the lower courts have held that the particular clause requiring the licenses of the RCA to equip the receiving sets manufactured with tubes made by RCA is in violation of the Clayton act. The case, after appeal, is still in the final process of litigation.

### LENGTHY DISCUSSION

After a lengthy discussion of the case, the report says that if, in the final analysis, the RCA is held to have been "finally adjudged guilty" that "then almost the entire wireless foreign communications system of the United States will be rendered inoperative overnight." It points out that the RCA maintains communication

# GRACE LA MONTAGNE IS GRANTED DIVORCE

Reno, Nev.—(AP)—Grace Argo La Montagne has been granted a divorce here from Bernard V. La Montagne of New York, ex-polo player and former society favorite who served a sentence in Atlanta federal prison for violating the prohibition law.

Mrs. Montagne charged her husband with desertion and cruelty. She said that he wrote to her that it would be better for them to live separate. They were married in New York, Dec. 27, 1926.

# TWO GIRLS DROWNED IN LAKE MICHIGAN

Escanaba, Mich.—(AP)—Two girls, daughters of prominent Escanaba families, were drowned in Lake Michigan Tuesday afternoon five miles south of here.

They were Elizabeth Layne, 13, daughter of Dr. and Mrs. A. L. Layne, and Eleanor Matthews, 12, daughter of Atty. and Mrs. J. M. Matthews.

Witnesses said the Layne girl, who was not a good swimmer, got beyond her depth when the Matthews girl swam to her rescue, she was pulled down.

Both bodies were recovered.

tion with 30 foreign countries and that the 66 channels thus employed would be "thrown back into the international grab bag open to registration by other nations."

Moreover, the RCA also conducts a large proportion of the ship-to-shore and ship-to-ship communication on vessels, through a subsidiary and through another subsidiary, the National Broadcasting company. It maintains the largest broadcasting network of the nation. All these activities are threatened with extinction by the anti-monopoly provision, says the report.

In the realm of broadcasting the committee advocates the abolition of the "zone system" of radio administration as well as repeal of the Davis equalization amendment. The equalization provision, it states, "runs counter to well-established engineering principles" and is "distinctly wasteful and unsound," while the zone system impedes the orderly regulation of radio and restricts appointments of members of the commission.

The committee urges postponement of the creation of a communications commission because "radio regulation is not yet at such a stage where it can be safely assimilated to regulation of wire communication because of radio's many special problems and the necessity for the undivided attention of the licensing authority until these problems are more nearly solved."

# LINK ECKENER WITH MORE NEW VENTURES

## Commander's Name Is Suggested With Organization of Dirigible Lines

Akron, O.—(AP)—Dr. Hugo Eckener, commander of the globe circling Graf Zeppelin, was the center here today of a number of reports intimating organization of trans-oceanic dirigible lines at conferences with representatives of New York banking houses and President F. W. Litchfield and other officers of the Goodyear Zeppelin Corporation.

Dr. Eckener, a guest for two days at the Litchfield home, has spent his time with officials of the company and inspecting the Goodyear plant and hangar.

Reports here and in Wall Street, according to the New York Times, were that the banking houses, Lehman Brothers and G. M. Murphy and company had become interested in operation of dirigibles across the Pacific and Atlantic oceans.

Dr. Eckener, at a reception in his honor last night, asserted that development of lighter-than-air navigation had been assured by the performance of the Graf Zeppelin. In an address at the national air races in Cleveland Monday he forecast establishment of a route from California to Honolulu as the most probable initial use of Zeppelin lines, and extension of service between the United States and Europe, and later to South America, as the logical path of development of their use.

Dr. Eckener leaves by train for New York tonight, to sail Saturday for Germany.

# SUSPECTED "FIREBUG" TO BE UNDER SCRUTINY

William Neuenfeldt, Harriman-st. who is suspected by local police of being the "firebug" who set off fires in Appleton in the last two months, is to be held under observation for the next two weeks. Neuenfeldt was arrested Monday night by Sergeant John Duval and Officer Carl Radtke after they found that he fitted the description of a man who Sunday night set fire to a garage at the home of John D. Fenske, corner of Morrison and Randall-sts. Neuenfeldt has acted in an irrational manner since his arrest, admitting and denying that he set the fires.

# POSTPONE MEETING OF POOR COMMITTEE

The county poor committee has postponed the meeting scheduled for Wednesday afternoon to act on applications for old age pensions as there are only a few applications. These will be considered at the meeting next week when the committee hears applications for mothers' pensions.

## Fight Grass Fire

## 150 Attend Meeting At Elm Grove

THE national convention of the Missionary Association of Catholic Women took place Monday at Elm Grove with about 150 delegates and visitors in attendance. Mrs. F. J. Rooney, president of the branch of the Elm Grove, acted as delegate to the convention. A national which preceded the convention was attended by about 127 women.

The convention opened Monday morning with a solemn high mass which was celebrated by Most Rev. Joseph J. O'Connell, bishop of the diocese, assisted by the Rev. George Regentus, as co-celebrant and the Rev. John Herlihy as co-celebrant. The Rev. John Herlihy acted as master of ceremonies. The Rev. Camillus Becken, O. M. Cap. of Appleton who acted as master of ceremonies, presided at the mass. The mass was held at the auditorium where a display of vestments and altar linens was arranged for inspection. The Rev. A. Gierhard, spiritual advisor, presided at the meeting, and the speakers were the Rev. Patrick Dooley and the Rev. A. Kambovski, Techny, Ill.

At the election of officers, the old officers were re-elected. They are: Joseph Goeckel, president; Miss Anna Cassel, vice president; Miss Anna Murphy, treasurer; and Miss Clara Kretlow, secretary.

## SET DATE FOR M. E. RALLY DAY

A general rally day for Sunday school and church members will be held at the Methodist church on Sunday, Sept. 15. An attempt will be made to bring every family on the church roll to the 11 o'clock service on that day.

The committee making preparations for the rally day service includes: E. H. Eckert, Frank Zahrt, Mrs. Harriet Nicholson and Fred Trezise. C. O. Davis is head of the committee in charge of the Sunday school service.

In the evening on Sept. 15 the annual reception for Lawrence freshmen will be held.

## PARTIES

A number of friends and neighbors surprised Mr. and Mrs. Martin Bonkers, Little Chute, Sunday evening on the occasion of their wedding anniversary. The party was presented with a most clammy. The guests included Mr. and Mrs. Peter Hyden, Mr. and Mrs. Peter Blaser, Mr. and Mrs. William Wyvenberg, Mr. and Mrs. Albert Vandenboom, Mr. and Mrs. H. Vandenboom, Mr. and Mrs. Lewis Svanen, Mr. and Mrs. Henry Ver Baten, Mr. and Mrs. John Van Sponer, Jr., Mr. and Mrs. E. E. Eron, Sr. and Mrs. J. J. Jansen, Mr. and Mrs. Nick De Gulin, Mr. and Mrs. Rudy Vander Putten, Mr. and Mrs. Peter Vandenboom, Mr. and Mrs. Joseph Dreesen, Mr. and Mrs. Harry Vander Wyte, Mr. and Mrs. John Pehnings, Mr. and Mrs. Henry Jansen, Mr. and Mrs. Walter Van Eperon, Mr. and Mrs. Otto Mouthe, Mr. and Mrs. George Hermesen, Adriaan Wydeven, Mr. and Mrs. Arth Strick, Mr. and Mrs. John Van Grinsvin, Mr. and Mrs. Peter Van Eperon, Mr. and Mrs. Adam Nickodem, Mr. and Mrs. Jack Hermesen, Mr. and Mrs. Henry Coonck, Mr. and Mrs. Mark Hermesen, Mr. and Mrs. Mark Reynebau, Mr. and Mrs. Arnold Joosten, Mr. and Mrs. C. Wynboorn, Mr. and Mrs. Martin Jansen, Peter Biersteker, Cornelius Jansen, Peter Sperrings, Mr. and Mrs. Henry Geurden, Mr. and Mrs. John Efta.

## BY ANNEBELLE WORTHINGTON

The swagger jumper dress in novelty and plain sheer woolen is a practical choice for sports to finish out vacation season, for classroom, for business woman and for travel.

It's an outfit that can be worn from morning until dinner for general day time occasions.

The smart woman always includes several in her daytime wardrobe.

Style No. 2883 is most attractive for golf in almond green silk crepe.

"With the jumper made of wool jersey in soft orchid shade with the skirt of purple flat silk crepe is very smart."

Then again it can be completely disguised and worn for more dressy occasions by selecting flowered chiffon with plain chiffon used for applied trimming bands.

Printed silk crepe in red and white is jaunty and very serviceable.

It also adapts itself beautifully to the soft crepe satins and is well liked in soft colors and with the skirt of purple flat silk crepe is very smart.

Featherweight tweed in violet-mauve shade, tan angora wool jersey, rich wine red canton crepe and tomato red crepe de chine other charming combinations.

It is simple to make and the small cost will be a revelation.

Pattern price 15 cents. Be sure to fill in copy of pattern. Address: Pattern Department, The Large Fashion Magazine is 15 cents, but only 10 cents when ordered with a pattern.

## CHURCH SOCIETIES

The Womens Missionary society of Emmanuel Evangelical church will meet at 2:30 Thursday afternoon at the church. Mrs. Lawrence Voss and Mrs. Gordon Schulze will be in charge of the devotional and Mrs. J. P. Nienstedt will submit a report on the state convention at Lomira. Mrs. W. F. Berg will give a reading. The refreshment committee includes Mrs. Voss, Mrs. Berg, Mrs. Erwin Saiberlich, Mrs. Carl Bauernfiend, Mrs. Schulze, Mrs. William Krueger, Mrs. Ernest Schroeder, and Mrs. J. Godfrey.

## The Ladies Aid society of St. Joseph church met Tuesday afternoon at the parish hall. Regular business was discussed and cards were played. Fifteen members were present.

An outdoor meeting of the Ladies' Aid society of Mount Olive Lutheran church will be held at 2:30 Thursday afternoon at Pierce park if the weather permits. In case of rain the meeting will be held in the church parlors. The committee in charge of arrangements includes Mrs. Henry Jahnke, Mrs. H. Kuentz, Mrs. A. Knoke, Mrs. A. Plamen, Mrs. H. Priebe, Mrs. E. Peters, Mrs. C. Rader, Mrs. E. Ring, Mrs. H. Schuman, and Miss Lucy Schulz.

## The Ladies Aid society of St. Paul Lutheran church will meet at 2 o'clock Thursday afternoon at the parish hall. The business session will be followed by a social hour. Hostesses include Mrs. Herman Schulze, Mrs. Herman Teske, Mrs. William Strey, Mrs. Henry Sager, Mrs. Otto Schulz, Mrs. Henry Spieker, Mrs. William Semrow, and Mrs. Arthur Schroeder.

An invitation to attend the Fox River zone rally at Mayville October 13 was accepted at the meeting of the Young People's society of St. Paul church Tuesday evening. At the business session, Raymond Nehls gave a partial report on the play which was given last week. Miss Leona Lemberg spoke on the life of Frederick Winslow, and 92nd 41.

## Lodges Plan Excursion To Mooseheart

Loyal Order of Moose lodges of the Fox River district will sponsor a two-day excursion trip Sept. 14 and 15 to Mooseheart, Ill., the home and school for widows and orphans of the Moose.

The excursion will be run on the Chicago and Northwestern road. The train will be made up at Green Bay and will leave Appleton at 1:30 Saturday morning, Sept. 14. It will make stops at Neenah, Oshkosh, Fond du Lac and West Bend after which it will be run through to Mooseheart. Those wishing to do so may spend Saturday in Chicago and continue to Mooseheart by special train Sunday morning. On the return trip the special train will leave Mooseheart at 4:30 Sunday afternoon and will stop in Chicago for supper. Tickets are to be purchased from the local committee and a substantial reduction in price will be made.

The tickets will be in the form of coupons which, upon presentation, will entitle the holder to a round trip ticket from Appleton to Mooseheart, hotel accommodations at the La Salle in Chicago or the Aurora in Aurora, depending on whether the purchaser spends Saturday night in Chicago or Aurora, and luncheon at the Aurora hotel on Sunday. As Mooseheart is but a few miles from Aurora, the train will be run to Aurora for luncheon Sunday. The excursion is open to the public. More than 200 persons made the trip last year. The local committee includes: V. J. Whelan, George Walt, Jr., Fred H. Zuehlke, L. P. Larson, and Fred H. Foreman, from whom the coupon tickets may be purchased.

There will be a picnic with the Fox River valley legion next Sunday at Green Bay for all Moose in the district.

## LODGE NEWS

Members of Knights of Columbus will meet at 8 o'clock Thursday night at Catholic home. Nomination and election of officers will take place and a report on the national convention held at Milwaukee recently will be given. Refreshments will be served after the business meeting.

Knights of Pythias will hold their opening meeting for the fall season at 8 o'clock Thursday evening at Catholic hall. Important committees will be appointed and regular business will be transacted.

## Catholic Knights of Wisconsin met Tuesday night at St. Joseph hall. Routine business was discussed. Twenty members were present. The pilot, had completed but four of the

cussion on the topic followed. Fifteen members were present.

Mrs. E. J. Peterson led the devotional at the meeting of the Womens Union of First Baptist church Tuesday afternoon at the church. The first chapter of the study book, From Jerusalem to Jerusalem, was discussed by Mrs. S. Smolk. Mrs. R. C. Clark was the hostess.

The Ladies Aid society of First Reformed church will meet at 2 o'clock Thursday afternoon at the home of Mrs. Carl Wickesberg, Kernan-ave. A business and social meeting will take place.

Work for the coming year will be planned at the meeting of the Womens Missionary society of First Reformed church at 7:30 Thursday evening at the parsonage. Other important business will be transacted at this time.

## CARD PARTIES

The Ladies Aid society of St. Joseph church will hold an open card party at 2:30 Thursday afternoon at the parish hall. Schafkopf and plumpack will be played. Mrs. John Stier is chairman of the committee.

## POOR MEALS JADE THE APPETITE

Use a Little Sugar to Make Essential Foods More Delicious

Medical and scientific authorities are beginning to call upon American cooks to make our foods more appetizing. One noted scientist says that the fine art of cookery is declining. In an era that is threatening to become cookless, hasty preparation, poor cooking technique, and other necessities of present-day living result in bland, unappetizing meals that do not tempt us. More flavor and better flavor are called for, he says. Foods should be palatable as well as nutritious. He then emphasizes the value of sugar as a condimental food.

As a flavor, he recommends a dash of sugar on our cereals, sliced fruits, in our vegetables as they are being cooked, on our dish of bran, or even in a milk shake to encourage growing children and adults to drink more milk. He points out that this dash of sugar may help to overcome an indifferent appetite, and thus indirectly lead to a better diet.

This is the dietary need of the modern age—flavor. Help the children and adults in your family to eat varied, balanced foods, by the judicious use of proper amounts of sugar. The sugar way is the happy way. The Sugar Institute.

## Married

J. Alden Behnke, son of Mr. and Mrs. H. J. Behnke, whose marriage to Miss Helen Anne Duncan, Kenosha, took place Sunday night at Kenosha, is a graduate of the University of Wisconsin and Harvard university. Mrs. Behnke was graduated from Lawrence college in 1927. They will make their home in Boston, Mass.

## CLUB MEETINGS

The R. E. Bridge club met Tuesday night at the home of Miss Martha Luckel, Eighth-st. Prizes were won by Miss Beatrice Robles and Miss Irene Radtke. The next meeting will be in two weeks at the home of Miss Robles.

There will be a meeting of the board of directors of the Appleton Woman's club at 3 o'clock Thursday afternoon at the club rooms. Every member is urged to attend as important business will be discussed.

Members of the Five Hundred club were entertained Tuesday night at the home of Mrs. Chet Heinrich, W. Brewster-st. Eight members were present. Prizes at cards were won by Mrs. Fred Piette and Mrs. Clarence Day. The next meeting will be next Tuesday at the home of Mrs. F. W. Breuer, 725 W. Franklin-st.

## WEDDINGS

The marriage of Miss Helen Anne Duncan, daughter of Mr. and Mrs. George Duncan, Kenosha, and J. Alden Behnke, son of Mr. and Mrs. H. J. Behnke, 315 E. Eldorado-st., took place at 6:30 Sunday evening at the home of the bride's parents in Kenosha. The Rev. George Cady of the Congregational church performed the ceremony. A wedding dinner was served at 7:30 at the Hotel Dayton to members of the immediate families. Mr. and Mrs. H. J. Behnke, Appleton, parents of the bride, graduate of Lawrence college of the groom, attended. The bride is a class of 1927, and since that time has been director of education at the Knapp College of Nursing in Santa Barbara, Cal. She is a member of Zeta Tau Alpha sorority. Mr. Behnke was graduated from the University of Wisconsin and Harvard university, and is a member of Sigma Phi Epsilon fraternity. He is connected with the college department of the Macmillan company, publishers. Mr. and Mrs. Behnke left Appleton by auto Tuesday for New York, and will be at home after October 1 in Boston, Mass.

plumpack will be played. Mrs. John Stier is chairman of the committee.

Group No. 9 of St. Therese church will sponsor an open card party at 8 o'clock Wednesday evening at the parish hall. Schafkopf, bridge, plumpack, and dice will be played. Mrs. John Adrians and Mrs. Nick Herres will be in charge.

Work for the coming year will be planned at the meeting of the Womens Missionary society of First Reformed church at 7:30 Thursday evening at the parsonage. Other important business will be transacted at this time.

## The Story of Sue

by MARGERY HALE

© 1929 BY NEA SERVICE, INC.

CHAPTER X  
SUE opened the intervening door a little wider and walked into the room as the two girls turned to leave. There was a breathless little gasp, an exchange of startled glances and one of them ventured a timid "hello."

Sue felt her lips opening and heard her voice answering, but she was glad that the girls didn't talk. So her face showed, everything, did it, she pondered. She would learn to adjust a mask, too. That was one thing her first day in the business world had taught her.

She walked to the bank for her father, forgetting her promise to meet Jimmy and Grace. Her father wasn't quite ready and while she waited Sybil Lester came down the stairs into the waiting room, and sat down on the long oaken bench to wait, too. She did not notice Sue and Sue watched her, wondering if she would ever speak to her. She admitted the girl was beautiful in a cool, superior manner. She had the assurance of those who are born with silver spoons in their mouths and have nothing to do but learn how to use them.

Mr. Merryman came pretty soon, and Sybil nodded to him, "I wish that you would call at my window every morning about ten o'clock," she said. "I always get so hungry just at that time. It will be perfectly all right. I've made all arrangements, and been told I could use you for just a few minutes."

Sue drew in her breath. So the older girl had noticed her and recognized her, she decided. Then she noticed the weary, baffled look in her father's eyes. It was an apology for not having climbed higher in the world of men and finances, a tired smile because she must not think he cared.

"Don't worry about what she says! Some day she's going to be sorry! Some day we're going to have everything. She repeated the words quickly. "She's a high-spirited girl who doesn't know what courtesy is. I could shake her till her teeth dropped out. Now let's go home."

"I hope you live to see your air-castles turn to brick and mortar," Mr. Merryman answered.

"Of course, I will. And you'll live in them too. And oh, by the way, Dad, I have a date with the next to handsomest young man in the office." She did not add that another girl had been asked first or that Martin Clinger had no part in her plans, anyway, as she talked on about office routine until they were nearly home. In front of the Metcalf home, Grace and Jimmy were still standing.

"I walked home with Dad," she explained. "But tomorrow night I'll remember."

"We thought that perhaps Jack Thornton was driving you, or you were working overtime. People do it sometimes, just at first, when the boss is young and handsome," Grace answered lightly.

"I haven't the kind of a boss who works overtime himself. He's been gone from the office a long time but he's working on the Slade case. If Sarah Slade is found within the next two days she'll get \$100,000."

"Well, well, it must be great to be chasing an heiress," Jimmy answered. "Come on, I'm going your way, Sue. I'll be around about eight, Grace."

## SOCIAL UNION SETS DATE FOR ANNUAL PARTY

The date for the annual all-church party, which this year will celebrate the fourth anniversary of the dedication of the Methodist church, was set for Tuesday, Oct. 22, by members of the Social Union at their meeting at the church Tuesday afternoon.

The annual bazaar will be held Dec. 3 and 4, and plans were made for a series of Vanishing luncheons to be given by members of the Social Union at their homes. The group voted to lend their support to the general rally day activities of the church on Sept. 15.

With only \$2,000 of the \$30,000 organ debt still unpaid, the members decided to make an attempt to clear the debt by Jan. 1 and to hold an organization early in the spring. Women of the September group, of which Mrs. J. H. Griffiths is head, were hostesses at the Tuesday meeting.

On a hot summer morning the task of rolling and cutting cookies becomes wearisome, so why not make drop cookies?

As an accompaniment for iced tea or coffee with an ice-cream mouse, cookies seem more suitable than cake. They are easier to handle at informal affairs and have a firmness of texture that contrasts well with a beverage.

## SISTER MARY'S KITCHEN

Plain drop cookies perhaps are more desirable for children, but those with nuts and raisins will be liked by grown-ups and impart a rather festive air to any occasion. Chocolate drop cookies will be liked by grown-ups and impart quite so good with iced tea or coffee.

Vanilla ice cream and orange ice are particularly good with chocolate cookies.

HERB'S DELICATE CONFECTION The little drop cookies made with egg whites are delicate confections. Nuts, coconut or candied fruits are added as the cook prefers. Keep in mind that a slower oven is needed for the cookies made with the whites of eggs than for other varieties.

Bran or rolled oats often are used with white flour to make drop cookies. A small amount of white flour is used to keep the cookies from crumbling after baking. Almost any cookie

rule can be turned into a drop cookie if less flour is used. Only enough flour is needed to make the dough of "drop" consistency.

Since cookies keep much better than cake they can be made in large quantities and stored to use as wanted. A stone covered jar or tin covered box will keep cookies either moist or crisp as one prefers them.

## CHOCOLATE DROP COOKIES

Two cups granulated sugar, 3 cups flour, 2 teaspoons baking powder, 1/2 cup bitter chocolate, 1/2 cup butter, 3 eggs, 2 teaspoons vanilla, 1/2 teaspoon salt.

Melt chocolate over hot water. Add sugar, 3/4 cup sifted flour, baking powder and salt. Add to first mixture. Beat eggs, butter and vanilla well together. Slowly add first mixture to this, beating well. Drop on greased and floured cookie sheet and bake in a moderate oven for twelve minutes. 375 degrees F. is the temperature if a thermometer is used.

rule can be turned into a drop cookie if less flour is used. Only enough flour is needed to make the dough of "drop" consistency.

## The Tynmites

By Hal Cochran

THE Tynmites buzzed right along within their auto. Naught went wrong. They still were very tickled that they owned the small machine. It carried four of them just right. Each was a happy Tynmite. Said Coppy, "This is wonderful land, My, what a pretty scene."

Just then the auto swerved to right and gave the whole bunch quite a fright, "Look out," cried Coppy. "Drive with care, or we'll be on the ground. You drive like you were scared to death. Quit making us all catch our breath!" The little auto skidded then, and almost turned around.

This time Coppy raised a din. Said he, "I simply won't stay in this car if you are going to drive. It isn't fun this way. When driving you should watch the road and also look out for your land. Instead of being serious, you seem to think it's play!"

Poor Coppy stopped the car real quick, and said, "I still think I am slow, but as you all seem nervous, I will let brave Scouty drive. He thinks that he's so good. We'll see! I'll bet he's not as good as me. When he gets through I will be glad if I am still alive."

So Scouty promptly took his place. A big broad smile spread across his face. "I'll show you now that I can drive and drive real good," said he. "You will not worry, as I steer, 'cause there'll be not a thing to fear. In just about a minute you'll feel safe as safe can be."

Just as the wheels began to spin, wee Coppy cried: "Hey, look! Out in the road. I see a great big bull. He's heading for us now. Step on the gas. This is no play. We'll have to try and get away. If we are lucky we can leave him far behind, so—how."

(The Tynmites' auto does a funny thing in the next story.)

## CHURCH TO BEGIN REGULAR SERVICE

First English Lutheran church will begin its regular schedule of services next Sunday. Church services which opened at 9 o'clock in July and August will begin at 10:30 Sunday. The Sunday school and adult Bible class will meet at 9 o'clock. The various organizations will resume their regular meetings. The Ladies Aid society will hold its first meeting Thursday afternoon, and the Sunday school teachers will meet at 7 o'clock each Thursday evening. The catechetical classes will begin at 10:15 instead of 9:15 in the mornings, according to the Rev. R. E. Ziese, pastor.

## S. S. TEACHERS PLAN FALL WORK

Sunday school teachers of Mount Olive church met in the church parlors following the regular Bible school period, to discuss plans for the fall months. Starting Sunday classes will open at 9:10 instead of 8:10 in the morning. Church services also will be changed, and will open at 10:15 instead of 9:15 in the mornings, according to the Rev. R. E. Ziese, pastor.

## THURSDAY and FRIDAY Close-Out SALE

Balance of Spring C-O-A-T-S

Due to lack of space we are closing out our entire stock of coats. When they are gone we will discontinue our coat line entirely.

COLORS: Tan, Black, Green, Brown

SIZES: 14 to 40

\$10

DRESSES

A limited number of summer dresses. Just the thing to finish up the summer. Values to \$18.75 —

## PLENTY OF MONEY SEEN AT FAIRS BY VETERAN PITCHMAN

Wall Street Isn't Getting All  
Loose Funds, Says Doc  
Weller

BY LEMUEL F. PARTON  
Copyright 1929 by Cons. Press  
New York—(Doc George F.) Weller,  
widely known "pitchman" is back  
from the interior with cheerful news  
about the doings around the county  
fairs, carnivals, conventions and  
expositions throughout the country.  
In spite of the loose money of  
the country is being funneled into  
Wall Street, Mr. Weller observes  
plenty of easy and "lucrative" coin,  
ready for a play in the "grind  
store."

Mr. Weller used to be a "whistle  
worker." And he has "made a  
pitcher," as his profession has it, in  
almost everything from medicine  
shows to terrapin derbies. Just  
now, he is in town stocking up with  
a supply of oriental soap, for the big  
Canadian exposition, now under way  
at Toronto, at the Mid-town hotel,  
neverable hostelry of show folk,  
where Mr. Weller is stopping, there  
are other pitchmen, renewing their  
stocks, or attending to other week-  
end errands. Shrewd observers, with  
an organization of their own for  
keeping track of things in their line,  
they find, that while some districts  
have suffered from the drought, the  
country, as a whole, is in a spending  
mood, and that it still has a whole  
lot to spend.

Of the 3,000 fairs scheduled for  
the fall and summer season, there  
are still about 200 big fairs to be  
held. Milwaukee, Chicago, Terre  
Haute, Philadelphia and New York  
are the principal headquarters for  
carnival supplies, and the pitchmen  
report that all these cities are ac-  
cording a good season's business.

**STRONG FOR WATER**  
At Coney Island, this year, the  
public showed a tendency to shun  
the rides and stunt contrivances, and  
to go in strong for bathing. Pitch-  
men also suffered, and several ven-  
erable venerable gags failed to draw  
for the first time. Mr. Weller and  
his associates attribute this to the  
hot weather, and say that, even with  
the automobiles and radio to play with,  
the public is just as fond of trinkets  
and catchpenny shows, as it ever  
was.

"But, at that," added Mr. Weller,  
"a pitchman has to watch his step.  
A line that goes big one season may  
be a flop the next. I met George  
Eberle the other day, who has  
several grind stores in Ohio and he  
told me he was cleaning up on a  
cheap, patent check protector. Can  
you beat that? A carnival crowd  
buying stocks and collecting divi-  
dends and writing checks in the  
country than there ever were be-  
fore, and that he went out for some  
line that would figure in with this  
idea. He found the check thing  
already going in Michigan. He said  
it was a pushover from the day he  
began putting it out."

"You get a lot of pitchmen to-  
gether and they can come nearer  
telling you what's going on the coun-  
try than almost any other lot of  
men. The cops call us peddlers and  
give us the run whenever they think  
they can get away with it, but  
here isn't any other body of men  
who keeps a closer check on busi-  
ness conditions than we do. Through  
our association, we keep each other  
informed and, naturally, most of us  
keep moving around, so we get a  
picture of the whole country."

"The boys report quite a few peo-  
ple out of work around the big  
owns, but they say that, in spite of  
all the squawking about the farm-  
ers, there is still a lot of gelt in  
the old buckskin sack and that the  
armers aren't kicking much."

Mr. Weller gave a discussion of  
the various merchandise of the pitch-  
men disclosed several new and sur-  
prising fancies on the part of the  
public. For instance, now that the  
young reparations plan has come  
afely through all its troubles, the  
opulence is turning its attention to  
the Mexican jumping bean.

"The jumping bean is just com-  
ing into its own," said Mr. Weller,  
"this is undoubtedly the biggest  
can year we have had. I have  
always thought that this line had  
real possibilities, but it never  
quite came through until this year.  
Judge (like) Phelps, one of the best  
itchmen I know, making a break-  
ist pitch a few weeks ago, down in  
Pennsylvania, hung a bean bag on  
a newspaper article about the  
mayor of Boston sending beans down  
the mayor of New York by aro-  
lane. He read to the crowd from  
his article and then showed out his  
beans, with a talk about beans that  
"aved under own power, etc., and  
on't have to be carried in an aro-  
lane. It went over big."

Mr. Weller also indicated that  
merica was becoming flea con-  
scious with rising and intense inter-  
est in flea circuses.

"But," he added, "there's a lot of  
verhead" this trained flea busi-  
ness, and I never liked that line  
much myself."

**INDBERGH AND WIFE  
LAND IN NEW YORK**  
Hicksville, N. Y.—(49)—Colonel  
Mrs. Charles A. Lindbergh land-  
here after a flight from Cleveland  
here they attended the national air  
set. They made the trip in a bi-  
ane they had borrowed a week ago  
from the Long Island Aviation Coun-  
cil club.

**UEBEC PROVINCE HAS  
SURPLUS OF \$4,000,000**  
Montreal—(49)—A surplus of \$4,-  
1,796 is shown in the annual finan-  
cial report of the Province of Que-  
bec for the year ended June 30, 1929.  
Ordinary receipts are shown at \$39,-  
5,283 with ordinary expenditures at  
\$34,487.

## THREE MORE BILLS GET GOVERNOR'S APPROVAL

Madison—(49)—Three minor bills  
have been signed by Governor Koh-  
ler.

One is the biennial appropriation  
to the attorney general; another  
makes several amendments to a  
technical nature to the workman's  
compensation law to clarify it and  
facilitate its administration; a third  
rearranges certain sections of the  
property tax law.

## BIG DROP IS SEEN IN CANADIAN WHEAT CROP THIS SEASON

Estimate Yield Will Be 66  
Per Cent of Average of  
Last 10 Years

BY J. C. ROYLE  
Copyright, 1929, by Cons. Press  
Montreal—Sixty-six per cent of  
the average of the last 10 years is the  
estimated yield of Canadian wheat  
this year, according to wide returns  
carefully analyzed today. This is a  
drop of 22 per cent from the last  
government estimate.

The drop has come largely in the  
prairie provinces. In Manitoba on  
June 30 the estimate was 91 per  
cent. Today it is 71. Saskatchewan  
estimates dropped from 89 to 65 and  
those of Alberta from 84 to 66.

Acres in the western provinces in-  
creased this year in all grains ex-  
cept oats, with wheat plantings to-  
talling 24,297,118 acres, barley 5,-  
114,208, rye 922,217 and flax 373,415.  
Oats acreage dropped 455,250 acres  
to 7,731,937.

The drop in wheat yield undoubt-  
edly means that the western grain  
growing provinces of the Dominion  
will have a lessened purchasing  
power despite the comparatively  
large amount of wheat which farm-  
ers still have to sell from the 1928  
crop that has been carried over  
awaiting higher prices. In fact the  
damage to the western crops has al-  
ready been felt in some industries  
the products of which are normally  
in great demand in the west at this  
time of year.

But the full force of the develop-  
ment will not exhibit itself until later  
in the autumn and winter. Not-  
withstanding these facts, the lead-  
ing financiers of the country believe  
that the wonderful progress which  
Canada has been making in recent  
years will continue without any seri-  
ous check. They say that the gloom  
picture in the west is well counter-  
acted by the highly successful season  
the farmers of eastern Canada  
have had.

While perhaps the eastern Canada  
farmers are more conservative and  
grow crops with a smaller cash  
value than those of the western part  
of the country, their fields comprise  
about 60 per cent of the total oc-  
cupied farms of the country. In  
sharp contrast to the last three  
years, there is every prospect that  
they will have a substantial harvest  
in all grains except oats and, more-  
over, that their produce will sell at  
high prices.

With respect to fall wheat, the  
average yield in Canada is estimated  
at 26.6 bushels an acre as compared  
with 24.5 last year, and from the  
area planted to this grain, 320,563  
acres a crop of 34,476,000 bushels is  
expected. Ontario is the chief fall  
wheat growing province and is ex-  
pected to produce 21,500,000 bushels  
this year.

Canada seems to have established  
firmly its supremacy in wheat ex-  
ports to Japan. In 1924 this country  
sent barely half as much wheat to  
Japanese ports as the United States.  
Last year, however, the situation  
was reversed and Canadian ship-  
ments were double those of Ameri-  
can exporters. The present situation  
and the improvement in flour milling  
technique by the Japanese millers  
are responsible for the increase in  
Canadian wheat imports, according to  
Japanese milling company execu-  
tives.

# School Days Are Just Around the Corner

Smart in School

little fashions that  
know their lessons well

Schooltime . . . nearer and nearer it  
draws. Every day finds many smart  
young people in, choosing their clothes

# Neenah And Menasha News

## MAYOR PROPOSES ORGANIZATION TO BOOST MENASHA

### Council Orders Street Improvement to Help Industrial Concern

Menasha—According to the city treasurer's report submitted at the monthly meeting of the common council Tuesday evening the general fund had a deficit of \$5,030.20 on Aug. 31. Other deficits were: Industrial board, \$1,822.50; park and recreation, \$10,891.25. The funds having balances on Aug. 31 were: Water and light, \$10,152.56; board of education, \$2,857.77; library board, \$2,641.80; cemetery fund, \$4,878.88. The monthly report of the commissioner of poor showed an expenditure of \$64.70.

The vocational school budget for the coming year was read and referred to the finance committee. Joseph Reimer assistant engineer at the municipal utility plant, tendered his resignation and J. H. Kuester, superintendent of water and light distribution was instructed to select his successor from a list of applicants. A discussion of a new sewer on Seventh-st between Milwaukee and Racine-sts was closed when the city clerk was instructed to advertise for bids returnable on Tuesday, Sept. 17.

The reading of a petition to close part of a street running out to Brighton beach and the exchanging of certain property to effect this change precipitated a discussion and many inquiries as to whether it would affect the Menasha municipal bathing beach. Alderman Coyle said the strip of land wanted was worth something and he saw no reason for turning it over without compensation. Upon motion of Alderman Kelly the petition was held over for a report of the committee of the whole.

A bill for labor performed on a sewer by Mr. Dickinson amounting to approximately \$30 which had been running for some time was ordered paid upon motion of Alderman Oshkosh.

The rules were amended by the E. H. Metternich of the Marathon Paper Mills company who appeared before the council in the interest of the improvement of River-st, which is in a deplorable condition owing to heavy traffic being diverted over it during the building of the new Tayco-st bridge.

Mr. Metternich informed the alderman of the plans of his company in the way of enlarging its plant, construction work having already commenced on a new concrete and brick building with 15,000 feet of floor surface and the necessity of having the street improved. The expansion program of his company meant additional families for Menasha, he said. The aldermen were of one accord and that was to comply with the wishes of the company.

The city clerk was instructed to advertise for bids for the construction of a concrete pavement on River-st from Washington-st to the George A. Whiting Paper mill plant, the bids to be returnable at 7:30 Tuesday evening, Sept. 17. The engineer was instructed to prepare plans and specifications and to get street lines.

The contract for widening the pavement on Ahnape-st at the plant of George Banta Publishing company was awarded to the Joseph H. Harold Construction company, the lowest bidder for \$2,150. Other bids were submitted by F. A. Kasel company and Joseph Schneider company. The chairman McCall called attention to the need of a chamber of commerce or industrial commission. He made the statement that Menasha has had no new industries for the last 15 years and it appeared to him as if something ought to be done.

Mayor Held informed him that he had been working along that line for some time, but to the pressure of private business had been delayed in bringing it before the council. It is not a club but pertains to the betterment of industries, he said. The plan is to select a committee composed of one member each of the service clubs, Rotary and Kiwanis, possibly a member of the common council and members of other clubs that might be deemed desirable to look after all matters usually referred to a chamber of commerce. With the aid of such a committee the mayor saw no reason why Menasha should not have a population of 14,000 by 1932.

Coyle said he noticed by press reports that Appleton and Oshkosh were endeavoring to secure the re-routing of certain highways from Calumet-co into Appleton and introduced a resolution to the effect that any change of the present routing would be a detriment to the residents of Winnebago-co, which was adopted.

An ordinance was passed regulating the operation of motor boats in the city of Menasha aimed at doing away with unnecessary noise. The ordinance carries with it a fine of not less than \$3 nor more than \$100.

A resolution was adopted extending a vote of thanks to Neenah for the fire protection furnished the Third ward of Menasha by that city during the construction of the new Tayco-st bridge. Provision for furnishing water and sewers for several new residence about to be built was made. It was decided not to remove the lights at each end of the railroad bridge across the government canal as a matter of safety to pedestrians.

**REPORTS STOLEN CAR**  
Neenah—A Ford touring car owned by Harold Spiegel of Tigerton, parked in front of his rooming place at 112 Harrison-st, was stolen Tuesday night.

**Ford Touring, Good running order. Good Tires, \$25. Park Auto Shop.**

## SOCIAL ITEMS AT MENASHA

Miss Leone Pinkoske, daughter of Mr. and Mrs. August Pinkoske of Clintonville, and Leo Sodolski of Menasha were married at 8 o'clock Monday morning at St. John church. The ceremony was performed by the Rev. W. E. Polaczky. The attendants were Miss Eleanor Zensel of Shawano and John Sodolski, brother of the bridegroom. The wedding breakfast was held at the home of the bridegroom. Mr. and Mrs. Sodolski have gone to Niagara Falls on a wedding trip.

The Ladies Auxiliary of the Germania society will give a card party Wednesday evening, Sept. 4, at Menasha auditorium on Chute-st. Schafkopf, whist and bridge will be played.

Lady bowlers will hold a meeting at Henry Recreation alleys Thursday evening for the purpose of organizing a ladies bowling league. The meeting will start at 7:30.

The employees of Menasha Dry-goods company spent Sunday and Monday at W. H. Reynolds' cottage at Clark Lake, Door-co. They were chaperoned by Mr. and Mrs. Reynolds. Mr. Reynolds is their employer.

Miss Rose O. Pawlowski, daughter of Mr. and Mrs. Casimir Pawlowski, 541 Fifth-st, Menasha, and Harvey A. Roebke, Oshkosh, were married at 5 o'clock Monday morning at Oshkosh. The bridesmaid was Miss Agnes Pawlowski, sister of the bride, and the best man Bernard Ebber of Oshkosh. The ceremony at Oshkosh was followed by a wedding breakfast at the home of the bride's parents at Menasha. Mr. and Mrs. Roebke will reside at Oshkosh and will go to housekeeping at once at 241 Oak-st.

## MAKES PLANS FOR HIGH SCHOOL BAND PRACTICE

Menasha—L. E. Kraft, director of Menasha high school band, has issued a call to all students wishing to join the band this year. The first meeting will be held in the band room at 3 o'clock Thursday afternoon.

There will be only one group started this year so pupils are urged to get started now. Several instruments owned by the high school are available, but as many can be purchased to purchase their own instruments.

The board of education and the city superintendent have under advisement the purchase of several new instruments in order to provide for a more perfect band.

## MENASHA PERSONALS

Menasha—Mr. and Mrs. Jack Klefer have returned to Milwaukee after a visit with Mr. and Mrs. Phil Leonhardt, 315 Broad-st.

Miss Emma Grassel has returned from a visit with Milwaukee relatives.

Anton Dietler of Cadot is a guest of Menasha friends.

Mr. and Mrs. Jacob Rhiner are home from Rice Lake, where they attended the Barron-co fair.

Mr. and Mrs. William Smith of Chicago, who have been visiting Menasha friends, returned home Tuesday.

Mr. and Mrs. Andrew Crushinska and Miss Martha, Peter and Leland Crushinska of Royalton, spent Sunday and Monday at the home of Mr. and Mrs. John Crushinska.

Mr. and Mrs. H. Sherman and Mr. and Mrs. Nathan Calder have returned from an automobile trip to Canada.

W. O. Allen, local station agent of the Chicago, Milwaukee, St. Paul & Pacific railway company, and Mrs. Allen will leave Thursday on a 10-day trip to Denver, Colo., where they will be guests of relatives of Mrs. Allen. They will return about the middle of the month.

A son was born Monday to Mr. and Mrs. James Baldwin, Jr.

## FIRE DAMAGES CHUTE IN STRANGE WAREHOUSE

Menasha—The chute of the paper baler of the John Strang Paper company warehouse caught fire about 5 o'clock Tuesday afternoon and flames were coming out of the upper story windows when it was observed. The fire department was called and soon had the flames under control. The chute was damaged from one end to the other, windows were broken by the heat and quite a little damage was done by smoke and water. The origin of the fire is unknown.

## REMOVE BRACES FROM BRIDGE AT MENASHA

Menasha—W. H. Guenther, construction engineer of the new Tayco-st bridge, started removing the temporary braces Wednesday under the Mill-st bridge which was placed there by the state highway commission a year ago in order to make the structure safe for detour traffic. The bridge will be placed in its original condition. The work is being done by one of the derricks used on the Tayco-st bridge and was towed in position above the government dam by a local launch.

## NEENAH-MENASHA NINE TO MEET CRYSTAL FALLS

Neenah—The Neenah-Menasha baseball team has arranged for a game to be played next Sunday afternoon with the Crystal Falls team at Crystal Falls. The game with Two Rivers, which was to have been played next Sunday has been postponed as the Two Rivers team has not as yet completed its season and has to play Sunday with the Sheboygan team. A series of games with Two Rivers has been arranged to be played later.

## BOWLERS PLAN FOR OPENING OF SEASON

### Keglers to Begin Rolling on Tuesday, Sept. 10; Form League

Neenah—The city bowling league met Tuesday evening at the Neenah alleys to organize for the winter season and to arrange for opening of the season Tuesday evening, Sept. 10. Twelve teams have signed up for the league, the Bergstrom Paper company, First National Bank, No. 1, First National Bank, No. 2, Queen Candles, Jersid Knits, Neenah Paper company, Austin Fuels, Sawyer Paper company, Zuehlke Music company, Stange Bros., Craig Motor company, Fada Radios.

The tournament will extend over a period of 33 weeks. Committees on schedule and prizes will meet within the next few evenings to make their arrangements. It was decided to this year roll on one pair of alleys instead of across the entire building as has been the rule heretofore. The association took steps to affiliate with the American Bowling association. The league will bow under handicap regulations with a scratch of 190. Prizes will be given to teams, individual and for number of games played.

The city association, Hardwood Products and other leagues are to meet later to arrange for the season events.

## NEENAH PERSONALS

Neenah—Charles Grogan of Chicago, is visiting at the home of his brother, E. F. Grogan.

Frank Dumbuck and family have returned from a week's visit with relatives in Chicago.

Paul Mantz has returned from Monroe where he spent the summer.

Mr. and Mrs. Fred Ehler have returned from Milwaukee, where they have been spending the last few days with relatives.

Charles Moynstry of Detroit, is visiting his parents here for the week.

Harold Thornton has returned to Wabeno where he is engaged as engaged as athletic coach in the high school.

Harvey Woeckert has returned to Chicago after spending a few days with his parents, Mr. and Mrs. William Woeckert.

Mike Karas has leased the building at 115 E. Wisconsin-ave, for his shoe shine parlors.

Mr. and Mrs. L. A. Warner, Paul Stumpf and Mrs. W. A. Jones of Nashville, Tenn., who have been visiting at the home of Mr. and Mrs. L. T. Jourdain, have left for their homes.

Mr. and Mrs. Herman Eberlein of California, are visiting at the homes of Mr. and Mrs. Charles and Mr. and Mrs. August Eberlein.

Mr. and Mrs. Louis Bublitz and son, Mark, have returned from a visit with relatives at Minneapolis.

Mr. and Mrs. Arthur Barnes and son, Tod, have returned from Minneapolis where they have been spending the last few days with relatives.

George Henery and Harry Neubauer have returned from Chicago where they have been spending the last few days.

Adelbert Gerhardt of Red Wing, Minn., who has been visiting his parents, Mr. and Mrs. William A. Gerhardt, has returned to his home.

## WIECKERT RETAINS ANGER GUN TROPHY

Neenah—Harold E. Wieckert of Neenah, successfully defended the Anger trophy and took possession of the Trades and Labor council cup. The latter cup was up for their first time and Mr. Wieckert is the first man to possess it. The trophy will be a challenge award to be won three successive times for permanent possession. Mr. Wieckert retained the Anger cup with a score of 93 out of a possible 100 shots. His score in the other shoot was 83 in a similar number of shots. The Trades and Labor cup will be shot for annually on Labor Day.

## FINED \$25 BECAUSE HE DIDN'T HAVE LICENSE

Neenah—Joseph Winniger, formerly of Neenah, now manager of the Oshkosh Rex theater, paid a fine Tuesday of \$25 and costs after pleading guilty to a complaint charging him with operating his theatre without a city license. It was explained that the license had been due for issue July 1, but that the Rex manager had delayed obtaining it, informing the city authorities there was a probability the theatre would go under a new ownership.

## 135 BATHERS USE CITY BEACH LAST SUNDAY

Menasha—That the municipal bathing beach between Waverly and Brighton beach is popular is shown by the number of bathers from Fox river valley cities that gathered there daily. The number of bathers Sunday was 135 and Tuesday 114, according to Henry Sheerin, caretaker.

## TWIN CITY DEATHS

WILLIAM BOELTER  
Menasha—William, infant son of Mr. and Mrs. Paul Boelter, 121 River-st, died Monday afternoon. Funeral services were held Tuesday afternoon with burial at Oak Hill cemetery.

## NEENAH SOCIETY

Neenah—Invitations have been issued by Mr. and Mrs. L. M. Palmer for the observance of the fiftieth anniversary of their marriage which will occur on Sept. 28. A dinner will be served at noon at the home after which a reception will be held.

Immanuel Lutheran church Ladies Aid society met Wednesday afternoon at the church club room.

A reception and dance has been arranged by the Pythian Sisters to be given Friday evening at Casino hall, for Mrs. Ada Schmutz who has been elected Grand chief of the state organization. A program has been arranged for the occasion and invitations have been issued to the Sheboygan, Oshkosh, Manitowoc, Green Bay, Berlin, Waupun, Waupaca, Stoughton chapters. A special invitation has also been issued to the grand officers, Knights of Pythias, wives and lady friends and the sisters and their husbands and gentleman friends have been urged to be present.

Eagle Auxiliary will hold a card party Thursday afternoon at the aerie hall. This will be the first party of the tournament which will extend through the months of September and October, the first game to be played the latter part of October during a bazaar where the ladies have arranged for Schafkopf, bridge and whist will be played during the tournament.

Betty Rebekah lodge will on Friday evening celebrate the twentieth anniversary of its organization here. A committee has arranged a special program for the occasion which will be followed by initiation of a class of candidates. An effort is being made to have as many charter members as possible present at the celebration.

Winnebago Chapter of DeMolay will meet Wednesday evening at its hall at Menasha. The chapter has resumed its weekly meetings after the summer vacation. Plans for the winter activities will be talked over at this meeting. Several dancing parties, billiard and card tournaments will be among the entertainment features.

## DEMAND THAT CESS POOLS BE FILLED IN

Neenah—Dumping grounds and cess pools about the city will be discussed Wednesday evening at the monthly meeting of the city council. The board of health met Tuesday evening and viewed the several locations and will recommend that they be filled and notice given that no more dumping of garbage be allowed therein. One especially, the old stone quarry on Fairview-ave, the First Ward, is dangerously unhealthy as it is filled with stagnant water and people living in the vicinity have dumped in garbage for years so that the stench is insufferable.

## FOOTBALL PRACTICE STARTS NEXT WEEK

Neenah—Football aspirants at the high school will be called to register soon after the opening of school Monday by Coach Ole Jorgenson. Coach Jorgenson will be assisted this year by Clarence Bredendiek, former high school and normal school football and basketball star who has taken a position as instructor of auto mechanics at the new high school. There will be plenty of material for a team this year.

## BARNES WINS TITLE AS CADDY CHAMPION

Neenah—Tod Barnes is the champion caddy at Neenah-Menasha golf course insofar as playing is concerned. A championship tournament was conducted last week on the grounds for all caddies. Barnes defeated Roman Hauser in match play, 4 and 3. Hauser was awarded second prize and Ira Clough secured third.

## TAKE CANDY AND GUM FROM FILLING STATION

Neenah—The Dixie filling station on Winnebago-ave, was broken into Tuesday evening and a small quantity of gum and candy was taken. Entrance was gained through a window which was broken by the intruders, thought to be children. The money in the till was un molested.

## RECOMMEND SEWERS TO COMMON COUNCIL

Neenah—The board of public works met Tuesday evening to discuss sewers. The board will recommend to the council Wednesday evening the placing of a sewer on Park-st between Higgins-ave and S. Commercial-st and on Whitlow-st between Van and Meyer-sts.

## No More Gas In Stomach and Bowels

If you wish to be permanently relieved of gas in stomach and bowels, take Basolene's Gas Tablets, which are prepared especially for stomach gas and all the bad effects resulting from it.

That empty, gnawing feeling at the pit of the stomach that disappears that anxious, nervous feeling with heart palpitation will vanish, and you will again be able to take a deep breath without discomfort.

That drowsy, sleepy feeling after dinner will be replaced by a desire for alertness.

Your limbs, arms and fingers will no longer feel cold and "go to sleep" from interfering with the circulation. Get the genuine, in the yellow package, at any good drug store. Price 50c.

Always on Hand at SCHLINTZ BROS CO.

## PRESENT MARKET IS LUSTIEST OF KIND IN HISTORY

### Buoyancy is Comparable to Levitating Powers of Zep-pelin

BY LEMUEL F. PARTON  
Copyright, 1929, by Cass. Press  
New York—As the white wings clean up the ticker tape from the Graf Zeppelin's celebration, Wall Street gets a chance to do a bit of off-street figuring on this still rising and rampant bull market.

It has narrowed down to a blue chip market. It is, without precedent or exception the biggest and the lustiest market of this kind in the history of the country. In duration, intensity, volume and range, it has beaten them all, including the flood-tide of 1919 when war profits converged in a wave of surplus money never known before.

The blue chips are on a few leaders, which seemed to have attained a buoyancy comparable to the levitating powers of the Graf Zeppelin. Wall Street may well celebrate the coming of the Graf, as they are paired in the world's longest sustained flight. But the former white chip battalion is also buying blue chips, one at a time, and playing the leaders—shooting small money at a big mark. This leaves long, fallow stretches on the big board, with nothing much happening in between.

So far as the lower priced stocks are concerned, most of the play is in the curb and over the counter markets.

## MONEY STAYS IN STOCKS

When the federal reserve board cracks the whip, as it is wont to do from time to time, it apparently has the effect of stampeding the small money to the presumably more secure anchorage of the high priced stocks, rather than driving it out of the market. Since the last rise in the rediscount rate, the amateur speculators have shown preference for say five shares of a \$500 stock, rather than 25 shares of a \$100 stock. Psychologically speaking there seems to be a deep and persistent conviction among the amateur speculators that safety lies in market leaders.

This correspondent has made a few inquiries among somewhat inexperienced players who are shoving small bits into this big, rough table stakes session. He finds a persistent and deeply grounded belief that split-ups are impending in all the leaders. Some of these financiers disclaim the naivets shown by the small boy who bought a bottle of wizard oil from a Barker, on the assurance that if he would apply it to his dog's tail, which had just been cut off by a handcar, the oil would grow a new dog on the tail.

The numerous big mergers of the last year which to quote variety,

## BATHERS RUSH TO CITY BEACH IN HOT SPELL

Neenah—The present hot spell has brought bathers back to the bath house after a lull in the attendance. The season at the municipal bathing beach has been the largest of any so far since the place was built. Up to the present time the total attendance has been more than 50,000 people. Although generally at this time of the year the water has been weedy and unfit for bathing, the water at present is as clear as at any time during the summer. The present hot weather continuing, the place will be kept open later than usual.

## MADISON WOMAN TALKS AT MEETING OF NURSES

Neenah—Miss Ada Elredge of Madison, was the principal speaker Wednesday afternoon at a meeting of the Sixth District Nurses' association at Theda Clark nurses' home. The meeting was conducted by Miss Julia Sorenson of the hospital staff. Reports were given of the international meeting last month at Montreal.

## KMOX CLAIMS RECORD ON "ROBIN" BROADCAST

St. Louis—(AP)—KMOX believes that it, too, set an endurance record during the record-breaking flight of the "St. Louis Robin."

The station had been on the air 166 and one-half consecutive hours when it signed off at 1 o'clock the morning after the night the fliers landed. Broadcasting was conducted from a temporary studio at Lambert-St. Louis field, scene of the flight.

the Broadway weekly, apparently will be stopped by nothing short of halitosis, men to have spread the idea that the entire business and economic establishment of the country is being re-cut and re-shaped into new patterns, and that there is sure to be a high bid for even the smallest segment of the new picture puzzle. This is particularly true with regard to utilities. Investors see a swift progress toward something like a national realization of the super-power plan, with a financial integration quite as inevitable and necessary as the physical integration—and they propose to profit thereby.

Of course the Morgan name in the utility field has done a lot to hearten up this particular sector. This onlooker has observed that when most of the white chip players have been smoked out of a taro game or roulette game, the few die-hard players will invariably start following the play of the one or two men who may be winning. This is notoriously true at Monte Carlo, where a player, gathering in one or two big bets is instantly followed in his play by a horde of others. Sometimes it works and sometimes it doesn't.

The Canadian fur dealers are not asleep when it comes to the style factor. They are anticipating the re-

## STYLE TO BOOST DEMAND FOR FUR, WRITER PREDICTS

### Product Will Be Used Chiefly to Trim Coats and Dresses

BY J. C. ROYLE  
Copyright, 1929, by Cass. Press  
Montreal—Style trends in women's clothes are such today that representatives of the Canadian fur trade expressed the confident belief that fur prices would show an advance this fall. Earlier in the season, a price decline was predicted by wholesalers but this was before it became evident that furs would be required in such volume to trim coats, suits, gowns and hats. It is also believed that the trend in cured furs will result in a firm price for pelts to the fur farmers and trappers of the dominion.

Prices have not advanced materially as yet. One large dealer here predicted to the writer that an advance would not be long delayed; others equally in touch with the trade believe there will be no change until cold weather.

The Canadian catch was practically normal in the winter of 1928-29 and it is furs from this catch which are now coming into Montreal from the far distant trading posts along Hudson Bay and in the MacKenzie valley.

The one locality where the catch was small was along the north shore of the St. Lawrence river. Throughout Ontario and from thence northward reports and shipments alike indicate normal activity. Ermine is plentiful although red foxes are a little short of normal requirements and may show strong price levels in consequence. A steady demand is being evidenced for beaver, wolf, lynx, badger and other furs used for trimming purposes.

## DECEMBER CATCH IMPORTANT

A factor which will have a decided effect on the cost of fur garments in the late winter in the United States will be the volume of the furs caught in December. This will give a good indication of the 1929-30 catch although the furs themselves will not come on the market in the present season. The manager of a large wholesaler house in Montreal told the writer today.

"I am almost persuaded that the fashion in automobiles has a great deal to do with the fashion in clothes. We find that instead of so many fur coats being sold, the main demand is now for cloth coats with fur trimming. Perhaps we would be justified in attributing this to the widespread use of closed automobiles in the winter time. Many women do not find it necessary or attractive to wear their fur coats in a car and in consequence get a cloth coat for that purpose, but the latter must be fur trimmed of course."

The Canadian fur dealers are not asleep when it comes to the style factor. They are anticipating the re-

## AUDIOMETER SHOWS HIGH DEAFNESS COST

Chester, Mass.—(AP)—The use of an audiometer in the Williams school here revealed that 54 children, whose total of repeated grades was 156 years, had defective hearing. As it costs \$60 a year for a child's education here, the total cost of retardation for which deafness was at least partially responsible was \$9,360.

While experts do not assert that impaired hearing is the only cause of failure to progress normally in school, studies at Rochester, N. Y., have revealed that hard of hearing children repeat grades three times as often as do children from all other causes.

Apparently the 34 cases of impaired hearing had not hitherto been suspected, even by the children themselves.

The audiometer can test 40 children at a time. The receiver is put first on the right ear and then on the left. In upper grades a whole roomful can be tested accurately in 15 minutes. More time is needed for smaller children.

The tests showed the ease with which children hearing may be improved.

Last year an audiometer showed 151 of the 1,907 school children with defective hearing, nearly one in each dozen. An ear specialist gave the children advice. Many of them were at school again this year and took a second test. The result was a two-thirds improvement.

Wax in ears was found to interfere with the hearing of 37. Need of attention to tonsils and adenoids was the cause of trouble in 77.

requirements of the new fashions with the result that the whole trend of the business is now changing and becoming more systemized.

Retail sales throughout Canada to American tourists so far this year have exceeded in volume the sales of furs to Americans during the whole of 1928.

The city boasts a number of retail fur establishments which have continental affiliations and are regarded as among the leaders in the world's trade. Active heads of these institutions declared today that they have no complaints to make, that business has been good and prospects were encouraging.

The Canadian dealers are keeping in close touch with the production of various types of furs in the United States. It is no news to them that the muskrat catch of Louisiana in the last season exceeded the 5,000,000 pelts mark and that the value of the Louisiana fur catch was \$3,526,740. The Canadian furs are sorting and offering their furs in accordance with the trends, shown by the United States production, even though the American catch includes animals not raised or trapped in the dominion.

## Just A View!

In that new Home of your Own!

Imagine what a breakfast feast you could have in a cozy, new home, where the atmosphere seems to soothe and tantalize the appetite! Such homes as this are offered every day in the Classified Advertising Columns in this newspaper. Turn to the Classified Section and shop through the ads listed under "Homes For Sale." Oftentimes homes are advertised for \$500 down and balance like rent. Occasionally a friend of ours buys a classy little home—just the kind that you have wanted—would you be surprised if The Post-Crescent told you that this home was bought through a Classified Ad at a down payment of \$500? The best advice a newspaper can offer home seekers is to shop through the Classified Ads as the lady of the house shops the department store ads for bargains.

## WISCONSIN MAN TO HELP FARM BOARD LOCATE MARKETS

Asher Hobson Is Appointed  
Advisor to Federal Com-  
mission

BY RUBY A. BLACK  
(Washington Correspondent of Post-  
Crescent)

Washington—A man trained in agricultural economics by the University of Wisconsin went on the job last week to advise the new Federal Farm Board in ways of finding foreign markets for surplus agricultural farm products.

Asher Hobson did his graduate work in agricultural economics at the University of Wisconsin from 1912 to 1916, taking his master's degree and practically completing his work for his Ph. D. degree there.

For the last dozen years he has represented the United States at the International Institute of Agriculture in Rome and in Geneva, Switzerland. He was to have gone to the University of California to do research work in the Giannini Foundation on foreign markets for agricultural products, but he was granted leave of absence to serve as an adviser to the Federal Farm Board. He will remain here one to three months helping organize a foreign marketing information service.

"I am just an adviser to advisers," Mr. Hobson explained, stating that Dean Edwin F. Gay of Harvard University and Dr. Alonzo Taylor of the University of California are members of an advisory committee on international aspects of the farm board's work, and that they asked him to come to Washington to help establish the foreign marketing information service.

The greatest problem before the farm board is that of finding profitable markets for surplus agricultural products, such as wheat and cotton, of which more is produced than can be consumed in this country. The obvious outlet for these surpluses is in foreign countries where there are insufficient supplies of such products.

Mr. Hobson, as a specialist in the international aspects of agriculture, was called to help solve this problem. The first step is the organization of an information service to gather and disseminate information on foreign markets for products of the American farm. He is established in an office at the Bureau of Agricultural Economics, United States Department of Agriculture, and is more anxious to work than to talk about his work.

One of Wisconsin's favorite products, ice cream, is constantly growing in popularity, according to the Bureau of Agricultural Economics, United States Department of Agriculture. The average American 2.90 gallons of ice cream last year as against 2.85 in 1927, and his quota last year was three times that of 1910.

The bureau estimates that \$48,048,000 gallons of ice cream were eaten in the United States last year, with the last half of the year showing the greater increase.

**INCREASE CONSISTENT**  
In the first quarter of 1928, people ate 4.3 per cent more ice cream than in the first quarter of 1927; in the second quarter they ate 1.3 per cent more than in the second quarter of 1927; in the third quarter they ate 7.2 per cent more than in the third quarter of the previous year; and in the fourth quarter they ate 4.4 per cent more than in the last three months of 1927.

Jerome F. Franklin is to keep his job as postmaster at Eland, Shawano county, Wis., despite the fact that the Eland postoffice has been relegated to the fourth class from the third class. In the fourth class, the appointment of the postmaster is made by the Postoffice Department, not by the President with the advice and consent of the Senate.

Wisconsin men who have recently accepted appointments in the army

## LIFE'S ODDITIES

By George Clark

"Had we better let her have them, Emil? It's a pretty long list, but she says her pap's working again."

reserve corps include Henry Anton Piszczek of Beaver Dam, captain, Infantry reserves; Max John Rosolack of Eau Claire second lieutenant, Infantry; and Irwin Edward Reichenauer of Milwaukee, second lieutenant, Cavalry reserves.

The Lake Geneva postoffice is to have new quarters after the first of next year. The Postoffice Department has accepted the proposal of Maurice J. Slater to lease new quarters on the east side of Broad street, between Geneva and Main streets, for a term of 10 years beginning Jan. 1, 1930.

**MAY GET NEW SERVICE**  
A federal grading service on tobacco may be established in Wisconsin as a result of successful operation of such services by the Bureau of Agricultural Economics, United States Department of Agriculture, in South Carolina.

The service was inaugurated there on July 30, and in the first month of operation has grown greatly in popularity among the tobacco growers

and brought expressions of approval on the part of large commercial tobacco purchasing agents, field representatives of the agriculture department say. Approximately a hundred thousand pounds of tobacco have been graded each week.

The department will now establish such services at one market in North Carolina, three in Virginia, two in Kentucky, and one in Tennessee. Eventually one may be established for the benefit of the Wisconsin tobacco growers.

Minnesota had a lower death rate than Wisconsin last year. The census bureau announces that in Minnesota the death rate for 1928 was 854.3 per 100,000 of population as against 919.1 in 1927, while it was 1,076.5 in Wisconsin in 1928 and 1,013.3 in 1927.

**HIE:** Darling, don't tell anybody we are engaged just yet.  
**SHE:** Only Lily. She always said I would never find a fool to marry me. —Der Lustige Sachse, Leipzig.

## WISHAUPT OFF TO FIERY START AS HE TALKS TO 200 MEN

If Business Is Punk It's Because Merchants Make It Punk, Speaker Says

Retail businessmen are the laziest, most unproductive bosses in business today; they are afraid to advertise; they fail in efforts to improve their business; 95 per cent of the retail grocers are broke and don't know it because the wholesalers are continuing to carry them; 76 per cent are making no money at all only 10 per cent are making any money above a living. That is the opinion of Howard J. Wischaupt, Cleveland, O., business analyst, who addressed a joint meeting of luncheon club members Tuesday noon at the Conway hotel.

Two much golf was blamed for some retailers' troubles. They let their business run down and when the bills come in they go play golf to forget them and there are more the next time. Finally the business no longer exists. And if they aren't golfing they are fishing, or something else, he said.

Wischaupt picked a hot day to make his debut before Appleton businessmen and he indicated it would be hotter, maybe not as far as the thermometer is concerned, but as far

as straight forward reasons for business slump and failure are concerned.

Using plenty of captives that aren't often heard in public talks, Wischaupt made a few remarks that while addressed to the business men in general, no doubt will rest heavily with many of them. They bear plenty of thought.

Too many business men are afflicted with "settles," Wischaupt declared a disease that makes the backbone become a wishbone and makes the retailer want to squat every time he seen a chair.

Retailers stand around and complain about business, the speaker said, complain that it's bad when anyone who walks into the store can easily see that it is. Such cases he called "store halitosis," everyone can smell that business is bad except the person who is supposed to know. The retailers should quit being pessimists and become "activists."

Wischaupt said he is a great believer in psychology of business, especially in psychology of business being good. If retailers get the idea business is bad it will be bad, he said and the retailer will be out of business in six months.

Retailers continually "bellyache" about the inroads of the chain store and mergers, according to Mr. Wischaupt, when if they stopped to consider their own business and put it on an efficient business basis, they'd have no time to worry.

While business men stand around and complain about business being poor, representatives of outside concerns come into the city and open

## LITTLE JOE THE MAN AT THE DEPOT POUCHES A HOLE IN YOUR TICKET SO YOU CAN PASS THROUGH TRY AND DO IT

stores to take the business while the local merchant takes things easy.

Twenty-eight per cent of the merchants in Appleton will be failures and out of business in five years the speaker warned. If they don't come to life and start taking an interest in business.

Wischaupt will conduct a business institute at the high school the remainder of the week. He closed his address Tuesday noon by reminding his audience he intended to get "darn mean," about conditions in the city and he would cuss and discuss the city and its retailers.

## LOCAL BOY TEACHES SCHOOL IN ARIZONA

Wade Letts, son of Mr. and Mrs. Frank Letts, route 4, Appleton, Monday morning started his duties as auto mechanics and mathematics teacher in the Winslow high school at Winslow, Ariz. Letts completed the four year course at Oshkosh Normal school last spring. In 1925 he graduated from Appleton high school. He started his trip for Winslow alone a week ago Monday, and traveled by auto.

## DETROIT LEADS CITIES IN DEPARTMENT SALES

Detroit—Figures from more than 50 of the principal cities of the United States and Canada so far this year show Detroit department stores leading all others in the percentage of increase in sales over the same period of 1928. Detroit's percentage was 11.8 with Toronto, its nearest competitor, second in the list with an increase of 10.2 per cent.

# Lawrence College Gridders Begin Practice Sept. 16

## VIKINGS TO PLAY SEVEN GAMES; OPEN WITH OSHKOSH PEDS

Battle Marquette University's Golden Avalanche at Milwaukee on Oct. 5

LAWRENCE college gridders will report to Coach Clarence H. Rasmussen for their initial workout of the 1929 season on Monday, Sept. 16, according to letters sent by the Viking Mentor last week.

About 30 gridders, all of whom received two weeks' practice last spring are expected to report.

The Viking mentor just now is making his annual assault on the fish on Canada river, along with Freddie Miller, 1923 Notre Dame captain and several other friends. He just finished his annual summer's work at his boys' camp at Woodruff where he also had a couple Lawrence gridders keeping them out of mischief.

With practice beginning on the sixteenth Rasmussen has just two weeks to get his grid squad ready for the opening game on Sept. 28, at Oshkosh. Oshkosh teachers will be the opponent on that afternoon. Last

Here's the schedule:  
Sept. 28  
Lawrence at Oshkosh Normal.  
Oct. 5  
Lawrence at Marquette.  
Oct. 12  
Lawrence at Northwestern (Watertown).  
Oct. 19  
Beloit at Appleton.  
Oct. 26  
Carroll at Waukesha.  
Nov. 2  
Hamline at Appleton.  
Nov. 9  
Ripon at Appleton.

year the reds beat Lawrence on a touchdown resulting from a fumbled punt.

The following Saturday, Oct. 5, will be the first big game of the season and finds the Vikings down at Milwaukee battling Coach Frank Murray's golden avalanche.

A game that will give most of the regulars a bit of rest follows the Milwaukee battle. On Oct. 12 the Vikings also will be away from home meeting Northwestern college at Watertown.

The first game at Appleton will be on Oct. 19 and will show Beloit at Whitling field. Last season the Beloiters beat the Vikings in the last minute of play and the Lawrence crew had lead throughout.

Rasmussen again will take his team on the road on Oct. 26, this time to Waukesha to meet the Carroll Pioneers. None of the Vikings will ever forget that memorable tussle with the Pioneers last fall with a snow and rainstorm blowing over the heights of the athletic field. The game ended in a 0-0 tie.

Two games at home will wind up the Viking season. Hamline college of St. Paul will bring its red clad warriors back to Lawrence for the first time in many years to play the Vikings Nov. 2, and on the following Saturday there will be another red invasion at Ripon comes to town. The game probably will be the annual Viking homecoming game.

## PRO GOLF ASSOCIATION SCORES AMATEUR EXPENSE

Boston (AP)—The professional Golf Association of New England has entered a controversy between the Massachusetts Golf association and its parent organization, the United States Golf association, over the payment of expense money to amateurs in team matches, with an attack on "sham amateurism."

Officials at the annual professional meeting voted a resolution condemning expense money for amateurs and declaring that "unless a golfer can pay his own way he should give up amateur competition and turn professional."

The state amateur association recently declared its intention of paying its golfers' expenses in coming sectional team matches, and has received the preliminary support of some other state associations. The United States Golf association has threatened to withdraw the amateur standing of any players so aided financially.

## MODEST JOE THINKS HIS CUBS ARE "IN"

Chicago (AP)—Manager Joe McCarthy has broken his silence regarding his Cubs chances of winning the National league pennant. He thinks they are "in."

"I don't think there is any doubt about us mixing with those Athletics in the world series now," McCarthy admitted after studying the past months record and the future schedule.

"The Labor day games are over and we are out in front by 12 1-2 games. The boys came back in great style after the Pittsburgh slump and now have won four games in a row. That proves they have championship mettle, and I think I can safely say we are in."

## HACKBERT WINS JUNIOR BUTTE DES MORTS TITLE

Paul Hackbert, Jr., won the junior championship at Butte des Morts golf grounds Tuesday when he overhauled Carson Harwood, 16, up. Hackbert beat Tom McKenney, 3 and 1 in the second round of play, and Richard Joyce one up in the first round.

## Major Leaders Now Seek To Win 100 Games; Macks, Cubs Have Pennants Won

George Earnshaw Wins 20th Game With A's Beat Yankees, 10 and 2

BY WILLIAM J. CHIPMAN  
A. P. Sports Writer

WITH the two pennant races settled beyond the doubts of even the most hopeful Pirate and Yankee supporters, the Cubs and the Athletics now turn to a pursuit of the mathematical certainty through the stretch. The chase should not be long.

A survey of the standing of the clubs shows that the Cubs need 16 victories and the Athletics eleven to assure another Chicago-Philadelphia world's series even in the face of a possible clean sweep by the runner up clubs. The Mackmen have twenty-three more games to play and the Braves twenty-seven.

## SAINTS BEAT BLUES AND CUT DOWN LEAD

A. A. Race May Become Toss Up if Kelley's Team Wins Three More Games

BY PAUL R. MICKELSON  
Associated Press Sports Writer

Chicago (AP)—"Bubbles" Hargrave and his still ambitious St. Paul clan must be reading Pirate books.

Anyway, they started their final home series against the league leading Kansas City Blues yesterday in a much the same fashion. The Pirates did against the pace setting Cubs, in the National league last week. They smashed the Blues, 13 to 2, in the opener, and cut their lead in the American association flag right to nine and one-half games.

If the Saints can win the next three games from the league leaders, the race may assume more interest. Only one other game was played in the Hickey-loop yesterday but it was one of the best spillers of the season and was between Minneapolis and St. Paul. Behind 6 to 9, the Brewers came into the ninth inning and before they were extinguished they scored four runs to take the lead. But the bat of pinch hitter Griffin saved the Millers. With one man on base and two out, he lashed out a homer and the game was over and in the bag for Minneapolis, 11 to 10. Eddie Pick featured the Brewer attack with a homer, triple, double and a single in five trips to the plate.

## LOU YOUNG TO CHANGE STYLE OF GRID PLAY

Philadelphia (AP)—Pennsylvania will have something a bit out of the ordinary to offer California, when the Golden Bears of the west come east this fall to battle the Quakers in one of the biggest intersectional duels of the year on Franklin Field.

For several years now, curiously headed Lou Young, crafty head coach of Penn's uniformly fine eleven, has gone farther than any other football leader in the east in the development of deception in his running attack.

Now Lou is going in for more strength along with his deception and a wider variety of plays and of offensive weapons. And the strangest part of it all is that Penn is looking upon one of California's neighbors on the coast, the powerful Stanford array, for the model of attack Young believes best suited to dispose of California.

## WOMEN'S MEDAL PLAY MEET NATIONAL AFFAIR

Chicago (AP)—The women's west-coast medal play championship at Flossmoor next week promises to be the equivalent of a national championship for women.

Many of the ranking players of the east and west have already entered the tournament which will be over 72 holes of medal play for four days, starting Monday.

Mrs. Leona Pressler of Los Angeles, twice women's western; Mrs. Gregg Lufur of Los Angeles, runner-up in the women's western at Cleveland last week, and a large number of western stars have entered. The east will be represented by Helen Hicks, Maureen Orcutt, Helen Payson, while Virginia Van Wie will head Chicago's large entry.

## DID YOU KNOW THAT—

GEORGE BUSH of the Cubs calls his overhand fast ball his "whizzer." He has a side-arm fast ball, too, which he calls the "teaser." He speaks with a southern drawl, and when he was at Wichita Falls, Tex., he says, "Ah must have worked every other day there." Nineteen years ago the Athletics battled a Chicago team in a world series. There were stirring pitchers' battles in that series, and there may be some more. Newell Banks, the checker champion, says he has spent five times as much time studying the Bible as he has playing checkers. He says the Bible taught him that Newton's law of gravitation was all wet. He would take three or four days.

Lord Charles Hope, British amateur, took an eight on a hole in 1920 and failed to qualify. They asked him how he could possibly have taken an eight. He replied, "Easy enough, my dear man."

ty-three more games to play and the Braves twenty-seven.

Since a defeat for a second-place team also counts toward the victories needed by the leaders, neither of the coming champions should require more than ten days or two weeks at the most to settle the argument. It is the first time in many years that both races have been in line for such early decision in the same season.

Neither Connie Mack nor Joe McCarthy is disturbed greatly over the question of winning 100 games. Both would like to do it. And both still may, but each puts the winnings of the pennant far above any mere race after records.

When George Earnshaw finally appeared his twentieth victory at Philadelphia yesterday by 10 to 2, with the Yankees on the receiving end, he placed his team just fourteen and one-half games to the good.

With nothing whatever at stake, the Red Sox and the Senators played a spirited game at Boston, with the Senators on top by 10 to 5 at the finish. The victory gave the Washington clan the edge in the series by two games to one, with one more decision to be reached today.

All of the National league clubs spent the day recuperating from the effects of an active holiday. The Cubs and the Cardinals had intended to go into St. Louis to play off a postponement, but an inspection of attendance figures at recent games led Sam Breadon to decide in favor of a double-header today.

## KAWS GET FOUR HITS AND LOSE TO DARBOY

Independent Basebatters Defeat Member of Little Fox League

Holding the Kaukauna club of the Little Fox league to four hits Darboy baseball team won another game Monday afternoon 5 and 3. The Darboy squad garnered eight safe wallops.

Simon did the tossing for Darboy with LeMay on the receiving end while VanderZanden pitched for the Kaukauna club and S. Wildenberg caught.

## Short Sports

### REPORT STAR SIGNED UP

Bernard Walters, pitching star of the University of Tennessee, is said to have signed an agreement with the Pittsburgh Pirates recently. It is understood he is to join the National league club next summer.

### HIS HANDS HARD

Jimmy Smith, the noted bowler has an "iron mite," which is a term denoting hardened hands. He has bowled an average of five games daily for the 20 years and never has been troubled with sores on his fingers.

### SIX RACES IN A ROW

Jockey Johnny Callahan won six races in a row during the last two days of the spring meeting at Aqueduct in 1925.

### WEISMAN MAY QUIT

Freddie T. Herman J. Weisman of the Eastern league is to retire at the end of this season. It is announced. The magnates already are casting about for a successor.

### LEFT-HANDED GOES UP

Pit'er Chue. Galerla, southpaw, hired an airplane when the Wichita Falls club of the Texas league sent him to the Springfield Midgets. After making the trip 13 pitched a six-hit victory for Springfield.

### GOLFERS' EARNINGS

The earnings of professional golfers sometimes run high. Johnny Farrell and Gene Sarazen, once caddies together in Westchester, both had more than \$100,000 of their golf earnings invested before they reached 25.

### OLYMPIAD IN 1930

Hamilton, Ont., is planning an Imperial Olympiad in 1930. Various athletic representatives of Great Britain and dominions will be entered.

### VETERAN OF DIAMOND

Jerry Donovan, who has been playing and following baseball since he was a boy, is 86 now, but he works every day at Shibe park, Philadelphia. He is as active as a man of 50.

## EDDIE KOTAL SIGNS CONTRACT TO PLAY WITH BAY PACKERS

Former Lawrence Flash Now Rated One of Best Halfs in Pro Football

Green Bay—Eddie Kotal will start his fifth season as a member of the Green Bay Packers next Sunday when Capt. Lambeau gives his gridiron hirelings their first workout in the opening game with Portsmouth, O., on Sept. 15.

His contract was turned in to Capt. Lambeau today.

Kotal joined the Green Bay eleven in the closing stages of the 1928 schedule. He made the first trip east with the Packers, cutting quite a figure in the game against Pottsville.

The team so lately managed by Donnie Bush, is struggling with friction over the first base position. That is one little difference. The infielders on the Pittsburgh team say that Sheely is the best man the Pirates ever had to receive the throws at first sack. They feel that his skill in that regard has never been sur-

passed in the league, and they rate him above George Kelly of the Cincinnati outfit.

But because Paul Waner once played first base out in California there has been a yen to get him at first sack for Pittsburgh because Sheely was slow getting around the bases. Once there was a California expert who said that Paul as a first baseman always should play right field. The kid can play first, but his height is against him and he is not so expert in handling thrown balls as others.

Sheely baited well some of the time and then again he didn't hit. So the Pirates put Grantham back on first and he's not a first baseman, never pretended to be one, and never will be. He can play at the job, but not well enough for a championship team. Yet Pittsburgh has stuck to him through thick and thin because he was a good hitter.

Another thing about the Pirates. They have played their very best ball at home against western teams. Their performance against eastern nines on the home ground has been ordinary. In fact they have won but thirteen games from this contingent. The western half of the National league collectively is thought to be better than the eastern half and the Pirates have won 19 games from this sector.

Another trouble for Donnie Bush grew from the fact that Petty as a pitcher did not do so well as expected. His total record shows eight victories and eight defeats. Bush was looking forward to at least fifteen winning games from him this year and a very small number of defeats.

Petty had been with Bush in Indianapolis and the little manager boasting more than once that all Petty needed to be a great pitcher was to be with a winning team. Bush thought he had it fixed for him, but his "find" had been so long with Brooklyn that he got into the fifty-fifty habit and couldn't win for Pittsburgh with his Brooklyn lassitude.

garden management insisted that weekly boxing shows should interrupt the Ringling brothers-Earnum and Eddy circus.

"My business means too much to me," Ringling said, "for me to allow it to be mixed with prizefights. Money? Money is hardly important enough for that."

William Carey, now manager of the new Garden, said:

"If that's his story, we'll stick to it."

Jersey City, N. J. — Arthur De Kuy, New York, knocked out Joe Boynton, Texas (3).

New York — Pete Nebo, Tampa, Fla., and Sid Terris, New York, drew (10).

## SHIOCTON WINS FROM WAUPACA BALL TOSSESS

The Pioneer squad is now composed of 19 players: Hubbard, Bloodgood, Perry, Minick, Molenda, Kern, Lawler, Young, Libberg, Cahoon, Darlington, Woodin, Baker, Bowdoin, Blood, Hill, Dunn, Nash and Kotal.

## LEAGUE STANDINGS

W. L. Pct.

Waupaca 15 2 .889

Dale 9 8 .529

Readfield 9 8 .529

Greenville 7 11 .389

Shiocton 7 11 .389

Fremont 5 13 .278

It doesn't make much difference any more, so perhaps that is why Waupaca baseball team took a busy trimming Sunday afternoon from league game at Waupaca. The score was Shiocton 12, Waupaca 9. However, the Potato Diggers are so far out in front that the trimming will have little or no effect on league standings. It was the second time this season that Waupaca has been beaten. Greenville having once turned the trick.

In other league games Readfield beat Dale 8 and 6 and Greenville humbled Fremont 6 and 4.

Only two more games are left on the league schedule.

## GRIFFITH SIGNS TO MEET GERMAN HEAVY

New York (AP)—A ten round bout between Tuffy Griffith, of Sioux City, Ia., and Dr. Ludwig Haymann, German heavyweight champion, will open the indoor season at Madison Square Garden on Sept. 12.

## ALEX IN HIS PRIME

Glover Cleveland Alexander, recently sent home by the Cards' management for infractions of the training rules, fanned 241 men during the season of 1915. He won 31 games that year for the Phils.

Loughran's contract to write a series of articles is only good while he holds his title. To renounce the title would mean the loss of a tidy sum of money. Rather than throw money away he will hold onto the title as long as he can.

To get back to those seeking his 175 pound title, Jack Kearns is claiming it for Mickey Walker and the chances are that Mickey will meet Leo Lomski in a return go with Chicago.

The fans of the northwest would like to endow Lomski with the title. Leo was a big card around his home city. Joe Levy of Seattle wants to show Lomski in a titular go with

## Pilots Pirates

Jewel Ens, above, coach and former infielder, was named manager of the Pittsburgh National league team the other day following the designation of Donnie Bush, aggressive little manager who led the Pirates to one pennant in his three years of stewardship. President Barney Dreyfuss indicated that Ens would continue to lead the team next year if the Pirates made a good showing for the balance of the season.

## Explaining In Part Why Bush Quit As Buc Manager

BY JOHN R. FOSTER  
Copyright, 1929.

NEW YORK—When all is said and done, Chicago and Pittsburgh stand out clearly as the class of the National league. And at the moment the Pirates have the Cubs on the run.

But while the Pirates can win games from the league leaders it nevertheless is a fact that Chicago could mark time for a fortnight before any club could overtake it in the pennant race. At that the Cubs, like all teams that think they have a championship in sight, are impatiently straining to gather it in quickly.

The team so lately managed by Donnie Bush, is struggling with friction over the first base position. That is one little difference. The infielders on the Pittsburgh team say that Sheely is the best man the Pirates ever had to receive the throws at first sack. They feel that his skill in that regard has never been sur-

## JONES AND HOMAN TIE AS MEDALISTS AT PEBBLE BEACH

Match Play for Amateur Championship of Country Begins Wednesday

BY ALAN J. GOULD  
Associated Press Sports Editor

Pebble Beach, Calif. (AP)—The boys have come out of the qualifying trenches, a trifle buffeted, and it's a man-to-man battle from now on for the amateur golf championship of the United States.

Led from the wind-blown hazards of Pebble Beach by Bobby Jones, Gene Homans, who tied for medals honors with totals of 145, one over par, in the 36-hole qualifying skirmish, the 31 survivors were paired for the elimination match play today. Two 18 hole rounds faced the reduced field of title contestants which by nightfall will be abruptly paired to a select eight for the quarter finals tomorrow over the 36-hole route.

Although outplayed first by a college boy from the University of California at Los Angeles, Gibson Dunlop, on the opening day of the qualifying competition, and then held to even terms after 36 holes by another collegian, Eugene V. Homans of Princeton, Bobby Jones began the main struggle for the defense of his crown without any shift in the odds in his favor. The champion drew the young Omaha star, Johnny Goodman, who qualified with 157, for his first round opponent.

With the prospect that he would be called on in the afternoon to battle the long-driving California entry Phillips Finlay, hero yesterday of a dramatic comeback as the qualifying round has ever witnessed.

The far west yielded medal honors to the east and south but captured a majority of the 32 qualifying places for the first time in the tournament's history to celebrate its first coming to the Pacific coast. The surviving list included 17 far westerners, of which California contributed 11, Oregon 5, including two of the foremost contenders in Moe and Willing, and Washington one. The east had six, the midwest four, and Great Britain three of the remainder. With one each to carry the banner of the southwest and south. But the lone Dixie entry happens to be Robert Tyre Jones, Jr., of Atlanta, Georgia, the winner four times in the last five years.

He explained that his decision resulted from an "ethical issue," based on his belief that "circuses and prizefights are on different planes." The break came when the new

# EMPLOYERS FOUND TO BE IN FAVOR OF FIVE-DAY WEEK

Industrialists and Bankers Find Shorter Week Increases Production

BY LEMUEL F. PARTON  
Copyright, 1929, by Cons. Press  
New York—President William

Green of the American Federation of Labor, reviewing the progress toward the five-day week, in his annual Labor Day address, might find some new and surprising sanctions for a doctrine which brought nothing but denunciation a few years ago, if he sat in the councils of New York bankers and industrialists to day. He would find powerful hidden hands shepherding labor in its millennial drive.

"Time factors and consumption" phrases the new industrial concentration on ways and means of lengthening the hours and obligations of the consumer, with an incidental but inevitable shortening of the hours of production.

Inventive, technical and managerial brains are being concentrated on the production of goods which may be sold on the installment plan and used during non-working hours. The radio and automobile have led the way to these vast, fallow fields where the collective leisure has a tremendous negotiable value, now being tabbed for the statisticians as a new wilderness for machine technique to conquer. The rolling stone of surplus capital can gather moss only if it is kept moving.

**HELPS PROGRESS**  
This definite new program of big business is facilitating progress toward shorter working days and shorter working weeks perhaps more swiftly than the most militant efforts of organized labor during the pre-Ford era. This correspondent, in his holiday ramblings, found that resort and hotel keepers in surprising numbers were lining up behind the five-day week. Their Utopia would, perhaps, be a four-hour day and a one-day week, with everybody visiting summer resorts in their remaining leisure hours, but lacking this, they are for less work and more play, whenever and however it may be obtained.

"The Saturday half-day holiday has been worth millions to our business," said the owner and manager of one Long Island Beach resort. "While we get here, for the most part, the more highly paid business executives and their families, we would not get them if the offices and factories were not closed during the afternoon, and there are many less expensive resorts which are flourishing with the week-end patronage of well-paid artisans and mechanics. I know one of these resorts which struggled along for years and was just about ready for the sheriff, when, with higher wages and more leisure, the workers began to swarm over here Saturdays and Sundays. Frankly, we in our business are not so much in the future as cash possibly be attained without slowing down production."

**SHOWS RESULT**  
"Through a friend in the contracting business in New York, I happened to see some figures the other day which showed that in spite of the continual lessening of working hours, per week in the building trades the rate of cubic feet of building construction per man is greater than it has ever been before. It is a production can thus be not only maintained but accelerated, while working hours are being cut. I see no reason why we can't go on endlessly in raising the standard of living and really establishing a new economic era."

Economists here say that a vast surplus of capital, more daring and mobile than it used to be, accounts for the progress toward the five-day week. It can quickly pioneer new lines, stimulate new desires and jack up the standard of living overnight, with consuming time becoming economically quite as important as high wages. They note that Russia, under-capitalized, with a much less effective technical establishment, is experiencing a decline in production under the seven-hour day. Henry Ford, however, increasing his production 30 per cent and boosting his output 6,000 cars a week, retains the five-day week, but uses his machinery full time. The conclusion is that plants and machinery will get none of the benefits of the drive for leisure. They will be kept working, with more crews on shorter shifts.

There is but one disquieting note. Will the home become a sweatshop, where the tired mother has to sit up until 3 o'clock in the morning while father and the children take turns running the car around the block, so the family won't get behind in its consuming?

## TALENTED GOOSE

London—A bright light of the goose world is Jimmy, a goose owned by a South Essex miner. Leaping through a hoop, washing his face, toe dancing and jumping over his owner's arm are some of the tricks he boasts of. He partakes of his meals sitting in a high chair at the table and his manners are said to be perfect. He also stands at attention and salutes whenever the National Anthem is played.

# KANSAN'S SERUM AIDS MALTA FEVER VICTIMS

Kansas City, Mo.—A serum to treat Malta fever, a disease recently prevalent in several mid-western and eastern states, has been developed by Dr. Fred E. Angle of the University of Kansas medical school.

His bacterial vaccine, made from cultures of "brucella abortus," the germ believed to cause the affliction, is being studied by Dr. H. E. Hasseltine of the United States public health service in Washington.

While his serum does not always cure patients, Dr. Angle points out that in numerous instances it has brought decidedly beneficial results.

## LACK OF HARMONY IS NOTED AMONG FEDERAL BANKERS

Rediscount Policy Mixup Is Brought to Light in New York Circular

BY CHARLES F. SPEARE  
Copyright, 1929, by Cons. Press.

New York—Another evidence of the lack of harmony among members of the federal reserve board as well as with directors of the regional banks in the system over the rediscount policy is contained today in the September circular of the National City bank of New York.

The president of this bank, Charles E. Mitchell, is a director of the federal reserve bank of New York. It was he who early took an aggressive stand for a 6 per cent rediscount rate which the federal reserve board turned down repeatedly until Aug. 9, when the country was surprised to read that the application for a higher rate had been granted. In its September review of the money market the National City bank's circular states: "It is true that earlier in the year this bank strongly argued an increase in the rediscount rate to 6 per cent as a measure for bringing bank rates more nearly in line with prevailing open market rates."

**DISCUSSES CHANGE**  
It discusses the effect of the rate change and also the policy of reducing the buying price for bills and concludes with the statement that zone may question the effectiveness of contradictory measures of this sort (raising the discount rate on the one hand and dropping the rate on bills on the other) particularly in the light of what has happened since their adoption.

Based on an analysis on the further statement in the National City circular to the effect that "thus far it must be admitted that the tangible results of the recent federal reserve rate action have not been impressive. A study of the trend of the money market and of federal reserve items of acceptances, bills discounted and purchased and government securities, as well as that of brokers' loans, fully verifies the conclusion made by this institution. On Aug. 7 the item of bills bought in the open market by the federal reserve banks was \$79,153,000. The following week, when the new buying rate first went into effect, it jumped to about \$113,000,000."

**JUMPS AGAIN**  
A week later it was \$132,137,000 and last week \$156,514,000. In four weeks the increase was \$77,400,000. At the same time the federal reserve bank sold government securities to the extent of \$12,300,000 with decreases each week following measures that were supposed to ease the credit situation. In the four weeks the borrowing of the banks of the federal reserve were reduced \$91,000,000 this may be credited to the new policy.

Next take the question of the effect of the "contradictory policy" of the federal reserve as a lending money factor, and apply it to call loans. The rate on these loans on August 9 was 8 per cent. On August 14 it was 7 per cent and held there until Aug. 27. For the next week the rate has been 9 per cent.

Brokers' loans declined \$65,000,000 as a result of the sweeping break in stock prices on Aug. 9 but since then has increased \$265,000,000 with a total increase of \$933,000,000 from the low point of the summer last June.

## LITTLE EFFECT

Finally the effect of the rediscount policy of the federal reserve on the speculation in stocks has been nil for after declining an average of 15 points in the August break, industrials have moved up an average of over 40 points and rails have advanced an average of nearly 20 points.

Another complication that has developed has to do with the Bank of England which is affected by the low rate for sterling on which New York banks today engaged over \$1,000,000 gold for import. This naturally reopened the question of whether London will be able much longer to continue with a 5 1/2 per cent rediscount rate while losing gold to New York, Paris and Berlin.

# L'FOLLETTE WILL PUSH MEASURE FOR INDIAN HOSPITAL

Wisconsin Senator Also Would Give Red Men Better Education

BY RUBY A. BLACK  
Washington Correspondent of the Post-Crescent

Washington—Senator Robert M. La Follette Jr. of Madison, Wis., will introduce a bill soon authorizing the establishment of a tuberculosis hospital for Indians in Wisconsin.

He is also studying the problem of providing better facilities for vocational training of Indians in Wisconsin, and better medical supervision and health education for the Indians. As a member of the Senate Indian Affairs Committee investigating the Indian problem, Senator La Follette has been devoting considerable thought to arriving at a solution to the problems revealed by the hearings held in Wisconsin recently.

"Of course," Senator La Follette said, "the chief problem is economic, and not very much can be done by the federal government to bring about immediate amelioration of the Indians' poor economic condition. But we can provide vocational training schools so that the Indian children now growing up can learn to earn their living in competition with the whites. We can provide more and better doctors and nurses to take care of the Indian's health and teach them to take care of themselves."

We can provide hospital facilities for those who have tuberculosis. We can adapt the schools to their training more completely than we are now doing.

## HEALTH CHIEF PROBLEM

"The chief problem of the Indians are the health and education problems, and the federal government should correct the serious conditions found in the investigation."

Senator La Follette approves in general of the Indian Bureau plan to have Indian children go to public schools wherever possible. This plan, however, does not take care of vocational training for the Indian boy and girl to help them become economically independent. Senator La Follette suggests that it might be well for the government Indian schools to be converted, where possible, into vocational training schools, and the elementary and grade school training provided in the public schools. The Indian children, he points out, cannot all go to Milwaukee.

# Your Question And Its Answer

J.A. Panneck, D.C.  
Palmer Chiropractor

QUESTION: As I was reading the Appleton Post-Crescent, I noticed that you answer health questions. I have a boy who is going to be three years old and he can neither sit up, creep or walk. What would you suggest to do — Mrs. J. M. S.

ANSWER: It is difficult for the average layman to understand how correction of abnormalities in the spine is effective in correcting physical disorders in remote parts of the body. This is because every part of the body is reached by tiny nerve filaments which emanate from the brain and spinal cord. Most of these make their exit through the spinal foramina and are subject to pressure when the spinal segments are slightly out of alignment. When such pressure exists disorder develops in the part supplied by the nerve. The Chiropractor, by locating the spinal abnormality and correcting it, releases the pressure which has caused the disorder and it is thus that results are obtained. It is common knowledge to the Chiropractor that gastric disorders, kidney disorders, heart disorders and many other diseases to which the human body is subject are corrected through spinal adjustments, yet it is quite natural that this should seem strange to one who is not familiar with Chiropractic premise.

Therefore, I suggest that you take your boy to a competent Chiropractor for a spinal analysis, or examination.

QUESTION: Do you think my liver is bad because I frequently bring up mouthfuls of water and tastes bitter? — M. J. P.

ANSWER: What you are complaining of is pyrosis, the Greek meaning of which is burning. Pyrosis is due to acid dyspepsia which causes a sour eructation which is a burning sensation in the esophagus and stomach. Your Chiropractor will relieve this condition for you in a very short time. He deals with the Cause.

waukee, Madison, and other industrial centers where vocational training is available in the public schools.

Some Indian families are so poor that it is difficult to keep the children in public schools, because the parents are unable to provide clothing and sanitary conditions in their homes which will keep the Indian children free from communicable diseases. Some opposition to placing Indian children in public schools has developed in Wisconsin because of the poor health of the Indian children.

## WOULD PROVIDE HOSPITAL

Senator La Follette believes that the first thing the federal government should do for the Wisconsin Indians is to provide a tuberculosis hospital and larger appropriations so that more doctors and nurses can be employed, with larger salaries for the medical officers so that better ones can be obtained for the Indians.

The next step is the provision of better educational facilities, including adequate vocational training, and he is working on solutions for that problem.

He is hopeful that the Indian Bureau will be able to convince the Director of the Budget that appropriations for a tuberculosis hospital in Wisconsin should be included in the appropriation bill for the Interior Department for the next fiscal year, but if the budget does not approve the appropriation, he plans to fight for the passage of a special bill authorizing the establishment of the hospital in Wisconsin.

Representative George J. Schneider of Appleton has already introduced a bill in the House of Representatives to authorize the appropriation of \$125,000 to buy land and build and equip an Indian hospital in Forest county. Cottages for a physician and nurses and other employees would also be included. The Schneider bill was referred to the House of Representatives Committee on Indian Affairs, which will not be organized for business until the regular session begins on Dec. 2.

**MUD FOR FUEL**  
Berlin—Mud which lies in the bed of the River Emscher is now being transformed into fuel by a German concern that discovered the process. Thousands of tons of this mud fuel have been ordered by an electricity works on the Rhine as a substitute for coal.

# LEGION SPONSORS 2 DAY CELEBRATION AT RUSTIC RESORT

**Hundreds Gather at Clover Leaf Lakes to Take Part in Program**

Special to Post-Crescent—Hundreds of people attended the annual American Legion Labor Day celebration held at the Rustic Resort, Clover Leaf lakes, on Sunday and Monday. The program opened Sunday morning and closed late Monday evening. Music on both afternoons and evenings was furnished by the Embarras community orchestra.

Entertainment for both days consisted of motor boat races, canoe races, swimming contests, boxing matches, tug-of-war, and special free acts.

On both Sunday and Monday evenings fireworks were displayed on the lake. Music for dancing on Sunday evening was furnished by G. Horst's Rainbow Orchestra of Appleton and on Monday evening by Billy Marquardt's orchestra of Sheboygan.

Many of the guests were from the Milwaukee area. Mr. and Mrs. William MacDonald, who have spent the past week as the guests of Mr. and Mrs. Julius Spearbraker and Mrs. Julia MacDonald, in this city left Tuesday morning for Minneapolis where they will spend a few days before returning to their home in Chicago.

Mr. and Mrs. B. Halpapp, Milwaukee, spent Labor Day with the latter's parents, Mr. and Mrs. William Meizer in this city.

Little Ellsbury who has spent the past eight months in Madison and Chicago returned to this city on Tuesday where he will spend some time at the home of his parents, Mr. and Mrs. William Ellsbury.

Mr. and Mrs. John Bohman and daughter De Vera and Matt Dahm, Jr., returned to this city on Monday evening after spending the weekend and Labor Day at the home of Mr. and Mrs. George Monte, Iron Mountain, Mich.

Dr. William Meggers left Monday evening for Chicago where he will transact business for a number of days before leaving for his home in Washington, D. C. William Meggers, Jr., will leave this city the middle part of the week for Chicago where he will meet his father and accompany him.

The Misses Marcella and Myra Meliks left for Marinette, Wis., where they will teach in the public schools of that city the ensuing year.

Mrs. Bernice Loberg has returned to Scandinavia where she will teach this year.

Miss Kathleen Stanley has accepted a position in the Manawa high school where she will have charge of the English and commercial work.

# NEW LONDON PERSONALS

Special to Post-Crescent—New London—Mr. and Mrs. Clifford Dean entertained a number of relatives over the weekend. Among them were Mr. and Mrs. John Ratliff and family and Mrs. Clara Stanley of Clark, S. D. The party is spending a week with the Dean family at their home in New London.

Mr. and Mrs. Harry Kunsach and baby of Fond du Lac and Mr. and Mrs. Henry Houk and son Philip of the same city were dinner guests at the home of Mr. and Mrs. Matt Nesbitt on Monday.

Miss Dorothy Stern, Miss Myrtle Wilkie, Miss Emma Newman, Miss Julia Hoffman, Miss Irma Reuter, Miss Grace Laib, Mrs. Freda Vanderveer and son Bobby have returned from a weekend outing at Island Lake.

Mr. and Mrs. Leo Reel, former residents of this city and now of Green Bay have announced the birth of a daughter, Barbara Anne, on August 30.

Mr. and Mrs. Martin Kublaski announced the birth of their son, George Albert, born on Sept. 1, at the Community hospital.

# MANY AT BEAR CREEK HOME COMING EVENT

Special to Post-Crescent—Bear Creek—The Bear Creek home coming on Labor Day was a success. With ideal weather prevailing, large crowds attended each day. The Nicholson band furnished music for the occasion. The attractions on the grounds proved interesting. Winners in the Old Time Fiddlers' contest were Charles Stroud of the village, Albert Steyer of Sugar Bush and Frank Meyer of Suring.

# CHURCH AT CICERO TO CONFIRM ELEVEN

**To Conduct Special Services at St. John Church Sunday Morning**

Black Creek—Eleven children will be confirmed at 10 o'clock next Sunday morning at St. John church in town of Cicero. Examination was held last Sunday.

Those in the class are Albert Grunwaldt, Harvey Marckes, Walter Plantkoff, Frieda Gosse, Marian Mueller, Marian Schultz, Hilda Haefel, Verona Wussow, Loraine and Loretta Lorenz and Lilly Court. The Rev. Becker is officiating.

Service will be held at 9:45 at St. John church in the village and Sunday school at 9:45, on the morning of Sept. 8.

Mr. and Mrs. W. M. Ellett and daughter of Erie, Ill., were slightly injured Tuesday morning north of Briarton on Highway 47 when their car tipped over. They will be detained here for three days while their car is being repaired.

There will be no services or Sunday school at the Methodist church next Sunday because of the annual church conference at Green Bay.

Black Creek was defeated on the local diamond Monday by Murphy's Corners. The score was 12 and 3. "Bub" Shaw was the pitcher and Louis Pohlman and Ervin Rohloff the catchers.

The local team won the game at New London Sunday. The score was 9 and 6.

Mr. and Mrs. Albert Hinz and children, Mr. and Mrs. Herman Dwoyer, Milwaukee; Mr. and Mrs. Arthur Dieble, Wausau, were entertained by Mr. and Mrs. E. P. Strassburger Sunday and Monday.

Mrs. Ervin Kiesner, Mrs. Emily Pett, Mrs. Minnie and Miss Emma Bandal of Milwaukee, were guests over Sunday of Mr. and Mrs. Fred Stumpf.

Mr. and Mrs. G. H. Peters entertained the following relatives at luncheon and dinner Sunday: Mr. and Mrs. John Kuhn and children; Mr. and Mrs. William Unsworth, Mr. and Mrs. Carl Bucholz and children; Mr. and Mrs. Herman Bucholz and children; Mr. and Mrs. Findie, man, Mr. and Mrs. Patzold, Miss Norma Kuhn and Henry Berger of Kiel.

Mr. and Mrs. Ralph Homrigh and children and Mr. and Mrs. Harry Eligner and children of Milwaukee, were weekend-end guests at the homes of George Sassman and John Homrigh.

# TWO CHILDREN HURT IN AUTO COLLISION

Special to Post-Crescent—New London—While backing out of his yard in Lebanon to take his three children to school on Tuesday morning, John Fitzgerald, a farmer, backed into a truck on the road. Though Mr. Fitzgerald stated that he was running in second gear, the impact was such that three little Jack, his son, out of the car. The child struck the ground head foremost causing concussion. Little Rose Mary was caught on the windshield and a cut in her nose required several stitches. The other child Jean, was uninjured.

# CONTRACT FOR WALL STILL IS UNSIGNED

Special to Post-Crescent—New London—A representative of the Flour Construction company of Oshkosh was in the city on Tuesday in an endeavor to meet the mayor and council members for the formal signing of the contract for the erection of a retaining wall between St. John's place and Memorial park, along the north bank of the Wolf river. Due to the absence of Mr. Wendlandt, the contract was not signed. Material and equipment is being brought into the city.

# SCHOOLS AT HILBERT OPEN FOR FALL TERM

**Teachers Arrive on Labor Day to Outline Preliminary Plans**

Hilbert—The Hilbert high school, St. Mary's Catholic parochial school and St. Peter's Lutheran parochial school opened for the fall term on Tuesday, Sept. 3. The teachers for the high school arrived Saturday and Labor Day.

Anton Baer, son Aloysius and daughter Delphine, and Dorothy King motored to Holy Hill Sunday, and were accompanied home by Mrs. Baer who had spent the past week at Milwaukee and Holy Hill.

Mrs. Margaret Nilles returned home from Kaukauna Saturday after spending the past week at the home of her daughter. She was accompanied home by Mr. and Mrs. Nick Britton.

Miss Emma Wiesseckel has accepted a position at St. Elizabeth hospital at Appleton Monday.

Mr. and Mrs. Math Nilles, Jr., of this place and Miss Esther Schwarz of Chilton returned home Saturday night from Akron, Ohio. While there they were accompanied by Mrs. John Hirsch and son Kenneth, and Laurence Nilles to New York state and Canada for a trip. They also visited Niagara Falls.

Math Nilles, Sr., returned home Monday evening from a few days trip to Wisconsin Rapids where he visited relatives. He accompanied his son Joseph Nilles and family of Green Bay on the trip.

Jerome Behnke returned home Sunday from Kaukauna, having been employed at the Alex. Wolf home during the summer months.

Mr. and Mrs. Andrew Gehl entertained at their home Sunday and Labor Day, Mr. and Mrs. Norbert Weber and son of Sheboygan and Mr. and Mrs. Anton Braun and family of Kohler. The latter two accompanied by Mr. and Mrs. Gehl, drove to Milwaukee Sunday to visit at the home of the latter's daughter, Mr. and Mrs. Ervin Zimmermann.

An extra gang consisting of 150 men are now being employed on the Chicago, Milwaukee, St. Paul and Pacific railroad, laying new ties from here to Menasha. They have put in two tracks at Sherwood for the gang's boarding cars.

The following relatives were entertained at the home of Mr. and Mrs. Adolph Behnke Sunday: Mrs. Emil Dunkle, Mr. and Mrs. Henry Barre of Oshkosh, Mrs. Gretchen Behnke and son Elmer of New Holstein; Mrs. Mike Lauer of Dundas; Mr. and Mrs. Adolph Kasper of here; Mr. and Mrs. Franz of Milwaukee; and Mrs. Ray Menne of Sheboygan accompanied by Mrs. William Franzen and son Theodore of here spent a few days vacation at Catawaba visiting Mr. and Mrs. Herman Behrend, returning home Monday evening.

Mr. and Mrs. Ray Laughlin, Mr. and Mrs. Emil Vollmer, Mrs. Antoinette Schaffer, and Paul Venz of Milwaukee, and Mrs. Bert Johnson of Green Bay were guests at the home of Dean and Mrs. F. A. Holtz Sunday and Labor Day. Mrs. Holtz accompanied the former to Milwaukee Monday evening for a few days visit.

Miss Loretta Dohr and Andrew Dickrell motored to Elkhart Lake Sunday to join the latter's parents on a trip to Random Lake and Waubesa and vicinity.

Theodore Guebert returned Saturday from a week's vacation at his home at Oak Park, Ill. Mr. Guebert will again have charge of St. Peter's Lutheran parochial school this year.

Mrs. F. E. Dehne and son Rodney arrived here Friday from Cazenovia accompanied by Lois Dehne who had spent her vacation with her grandparents there. They visited with Dr. and Mrs. G. R. Stauff until Sunday afternoon when they left for Baraboo.

Mr. and Mrs. Edgar Weisling and family, Mrs. Casper Weisling of Milwaukee were guests at the Mrs. Mary Diederich home on Labor Day.

# MILDRED SAGER WEDS FRANCIS GRISWOLD

Special to Post-Crescent—New London—The wedding of Miss Mildred Sager, daughter of Mr. and Mrs. William Sager, E. Cook-st, and Francis Griswold, son of Mrs. Ida Griswold, took place at 8 o'clock Monday evening at the Methodist parsonage. The attendants were Mr. and Mrs. Arnold Mech of Clintonville, whose marriage took place a week ago. Only the immediate families of the young people were present. Mr. and Mrs. Griswold were graduated with the 1928 class of New London high school. They will make their home in the city.

# NYLES MANLEY GIVES PARTY FOR FRIENDS

Shiloh—The following young people were among those entertained by Nyles Manley at his home near Shilohville at a lawn party Friday evening: The Misses Evelyn Rousseau, Evelyn McCully, Arla Valentin, Kathryn Thorp, Mary Thompson, Phil and Herbert Palmer, Robert and Charles Middleton, Percy Braatz, Charles De Long, Lawrence Gilroy, Gordon Ombolt of Shiloh, Misses Alice Palmer and Vivian Mann of New London and Tim Main of Stephenville.

# LITTLE CHUTE PAIR AT CHICAGO WEDDING

Special to Post-Crescent—Little Chute—The marriage of Joseph Kostka of Chicago, formerly of this village, and Miss Frances Staszowski of Chicago took place Saturday morning at St. Paul's church in Chicago. After a trip to Wisconsin Mr. and Mrs. Kostka will reside in Chicago. Mr. and Mrs. Paul Kostka of this village attended the wedding.

Mr. and Mrs. Harry Carroll and children and Miss Cella Murphy of Chicago and Conlon Hecht of Milwaukee were guests for a few days of Mr. and Mrs. Michael Molitor.

Mr. and Mrs. Frank Gloudeemann of Beaver were guests here Sunday of relatives.

Louis Vandenberg of Milwaukee spent Sunday and Monday at the home of his parents, Mr. and Mrs. George Vandenberg.

# WILL HOLD MISSION FESTIVAL AT DALE

**German and English Services to Be Held by Visiting Pastors**

Dale—The Lutheran church will hold its annual mission festival next Sunday, Sept. 8. In the morning at 9:30 a German service will be held. The Rev. G. A. Dettmann, of Appleton will preach and at 2:30 the Rev. R. Lederer of Green Bay will deliver an English sermon. Cafeteria dinner will be served by the ladies of the congregation.

There will be no services next Sunday at the Reformed church here as the Rev. V. Grohseusch will attend a conference in Iowa.

Misses Irma and Ada Oelke have returned from an extended tour in the cities visited were: York, Gettysburg, Valley Forge and Philadelphia, Penn.; Washington, D. C.; Annapolis, Md.; Mount Vernon and Arlington, Va.; Atlantic City and Paterson, N. J.; West Point and New York City.

Mr. and Mrs. Harry Brock and son Harold, spent a few days last week visiting in Milwaukee.

A family reunion was held Sunday at the Peter Philipp home. Those who attended were: Mr. and Mrs. Russell Levy and Miss Evelyn Philipp of Chicago; Mr. and Mrs. Herbert Philipp of Oshkosh; Mr. and Mrs. Harold Miller and son of Larson, Mr. and Mrs. Wilbur Philipp and Violetta, Virginia, and Delmar Philipp.

Miss Irma Oelke who is in charge of Junior high grades in Chilton left Monday to assume her duties.

Mr. and Mrs. Henry Peterson of Chicago, Ill., are spending a few days at the Julius Nemon home.

John Mettlich of Carthage, Mo., a former Dale resident is visiting here after being gone 30 years.

The Ladies Aid society of the Lutheran church held an outing at North park, Oshkosh Sunday.

Mr. and Mrs. Wilbur Philipp entertained the following at a chicken dinner Thursday: Mr. and Mrs. Russell Levy and Miss Evelyn Philipp of Chicago, and Miss Violetta Philipp.

The Dale baseball nine lost to Readfield Sunday by a score of 8 to 6. Next Sunday Greenville will play at Dale.

# SEYMOUR GIRL BECOMES BRIDE OF INDIANA MAN

Seymour—Miss Catherine Wojciehowski, daughter of Mrs. Frances Wojciehowski, route 2, Seymour, and John Wojciehowski, son of Mr. and Mrs. Thomas Fucalik of Hammond, Ind., were married at 9 o'clock Monday morning at the St. John Catholic church at Seymour. The Rev. R. H. MacDonald performed the ceremony.

# 1,747 VEHICLES ARE COUNTED AT ROAD CROSSING

**Only 92 Out-of-state Cars Are Seen in Census Near Forest Junction**

Forest Junction—Over 1,700 motor vehicles passed the junction of Federal highway 10 and State trunk highway 57 a mile and a half east of the village on Labor day according to a traffic count taken under the direction of the Calumet-co highway department. The numbers on the two highways were quite evenly balanced, there being 872 cars counted on Highway 10 and 875 on Highway 57. Of the total number of 1,747, only 92 were out-of-state cars. The count was taken between the hours of 6 a. m. and 11 p. m. The heaviest traffic occurred between the hours of 6 and 7 in the afternoon when 183 cars, 90 on 57 and 93 on 10, passed the corner at an average rate of three cars per minute. One more census this month, it is said, will conclude the count for this season.

The marriage of Orville Seybold of Kohler, son of Mr. and Mrs. George Seybold of here; to Miss Florence Henschel, daughter of Mr. and Mrs. Edward Henschel of Sturgeon Bay, took place at the city last Sunday afternoon. The groom, formerly residing here, has been employed at Kohler for several years. The couple will live at Sheboygan after a two-week motor trip to Yellowstone park. The groom's parents from here, and his grandparents, Mr. and Mrs. Charles Jansch, were at Sturgeon Bay for the wedding.

Events of the Evangelical church assembly held at the Lomira camp grounds early in August will be reviewed in delegates' reports given to branch organizations at Zion Evangelical church during the coming week. Miss Hattie Ott, who represented the local Christian Endeavor society will give her report to that group on Sunday evening, and Mrs. Fred Mielke, representative from the Woman's Missionary society, will report at the monthly meeting of the group Thursday afternoon next week. The Sunday school report will not be given by Miss Meta Keller, local delegate, until the occasion of the annual rally in October.

# JULIUS BLOY SUCCEUMS AT FOREST JUNCTION

Special to Post-Crescent—Forest Junction—Julius Bloy, 67, died at 9:30 Monday night at the home of his brother Gustave Bloy. He was born in Germany and at the age of 12 years came to America. He had been living on a farm in the town of Woodville since that time. Bloy is survived by his father, Frederick Bloy, nine brothers, Robert, Clintonville; Herman, Gustave, Henry, Theodore, Forest Junction; Fred, Milwaukee; Reinhold, Chicago; Albert, Marshfield; Adolph, Sheboygan; four sisters, Ernestine and Martha Bloy, Milwaukee; Mrs. John Tennebocker, Waupaca; Mrs. Pauline Knoespel, Forest Junction. Funeral services will be held at 1 o'clock Tuesday afternoon from the Zion Evangelical church. Burial will be in the church cemetery.

# INA ORTLIEB BECOMES REUBEN ANHALT'S BRIDE

Chilton—Reuben Anhalt, son of Mr. and Mrs. John Anhalt and Miss Ina Ortlieb, daughter of Mr. and Mrs. Henry Ortlieb, were married at 9 o'clock Wednesday morning at St. Augustine's church, the ceremony being performed by the Rev. James Meagher. The bride was attended by her sister Margaret and the bridegroom by William Schumacher.

At 1 o'clock a dinner was served at the Hotel Chilton to the immediate members of the two families, covers being laid for twenty. Out of town guests were Mr. and Mrs. John Owens of Brillion and Mr. and Mrs. Herbert Kersten of New Holstein.

Mr. and Mrs. Anhalt left for a motor trip through northern Wisconsin and on their return will make this city their home.

# ENTERTAIN FRIENDS AT DINNER ON LABOR DAY

Cicero—Mr. and Mrs. Henry Peters entertained the following guests at dinner at their home on Labor Day: Mr. and Mrs. Charles Reznice and Lena Erickson of Chicago, Mr. and Mrs. Walter Gibson, Mrs. Clara Reid, Miss M. Herman, Oley Peck, Ervin Haaking and Milton Weisnitch of Milwaukee, Leonard Leroy Weisnitch of Well Haven, and Mr. and Mrs. John Weisnitch of Briarton.

# CONDUCT SERVICES FOR CHILTON WOMAN

**Members of Women's Relief Corps, Ladies Aid Society Take Part**

Chilton—The funeral services for Mrs. Michael Rau, who died at the home of her daughter Mrs. Frank Huntz in Appleton on Saturday, were held from the residence of Ernest Rau at 2 o'clock Tuesday afternoon, the service being conducted by Rev. G. A. Kaltenbach of the Presbyterian church. Burial was in Hillside cemetery.

Members of the Women's Relief Corps and of the Ladies Aid of which organizations the deceased was a member, attended the body. The bearers were: Charles Jensen, Frank Tesch, Luke Owens, William Schneid, Theodore Stendel and William Schaefer.

Those from out of the city who were present were Mr. and Mrs. Albert Rau of Fond du Lac, Mr. and Mrs. George Rau of West Bend; Mr. and Mrs. Frank Huntz of Appleton; Ernest Schneider of Thorp; Mrs. Selma Ehmert, son Arno and daughter Maude of Reedsville; Miss Emma Link of Reedsville; Mr. and Mrs. Dale Andrews, Mrs. J. Lemke of Kaukauna; Mr. and Mrs. Julius Brown and son Donald of Mayville; the Misses Clara, Bertha, Frances Schneider and Mrs. Matilda Fogg of Fond du Lac; Mrs. Henry Kuehl of New Holstein; Dr. Marvin Hessel of Chicago, Mr. and Mrs. Peter Rademacher and Mrs. Edgard Albrecht of Appleton.

Lee Eldridge, son of Mr. and Mrs. Wilson Eldridge and Mrs. Alvina Haus were married at 5 o'clock on Monday morning in St. Mary's church, the ceremony being performed by Rev. H. E. Hunck. The attendants were Mr. and Mrs. A. O. Baker of Hilbert. Following the ceremony a wedding breakfast was served at the home of the bride's parents, Mr. and Mrs. Barthel Dprn.

Mr. and Mrs. Eldridge left for a motor trip through North and South Dakota and parts of Canada. On their return they will reside in this city.

The Misses Medella Keller, Rose Boehnlein and Marcella Dohr, who have been employed at the Knauf and Tesch stores, have left for Milwaukee for an indefinite stay.

The Calumet County fair closed on Tuesday, having opened on Saturday. The weather conditions during the entire week were ideal, and a record breaking crowd was in attendance each day. On Sunday and Monday there were horse races, and on Tuesday afternoon there were auto races, conducted by Walter Trudell of Milwaukee.

The various bands from the different cities of the county furnished the music, and there was a night fair each evening, the main feature being the Pat O'Dea Revue.

Miss Madeline Reinhold, who graduated from the University of Wisconsin in June, will teach the Gravesville school during the coming year. Miss Adelaide Woelfel, the former teacher of that school, will go to Jefferson-co as supervising teacher.

# OPERATION IS FATAL TO DEER CREEK CHILD

Special to Post-Crescent—Deer Creek—Rose Peeters, 3, daughter of Mr. and Mrs. Cornelius Peeters, town of Deer Creek, died Tuesday at Green Bay, following an operation performed a week ago. Survivors are her parents, three brothers, Anthony, Martin and Joseph, one sister, Agnes, all at home; her grandparents, Mr. and Mrs. W. J. Peeters, Deer Creek; and a maternal grandmother, Mrs. A. Vanden Elzen, Bellevue. Funeral services will be held at 1 o'clock Wednesday morning at St. Augustine's church, the ceremony being performed by the Rev. James Meagher. The bride was attended by her sister Margaret and the bridegroom by William Schumacher.

# ROB HOPFENSBERGER MARKET AT BRILLION

**Thieves Use Combination to Open Safe; Escape With \$151 in Cash**

Brillion—The Hopfensberger Meat market was burglarized of \$151 in currency on Monday evening. The safe was opened to get the currency, but other valuables were left untouched.

The market was entered through a back window. The burglar knew the combination of the safe because there was no evidence of its being opened by force, according to authorities.

Miss Mildred Haese, left for Leona on Labor day where she has accepted a position to teach this year.

Irving Schaeffer of Milwaukee spent the weekend at his home here. Mr. and Mrs. Ben Pritzl and family of School Hills spent Sunday with the former's parents.

Miss Lenora Felchardt, spent several days with friends at Black River falls.

A surprise birthday celebration was held at the home of Mrs. Frances Kleiber, Sunday evening. Skat and 500 were among the card games played, after which a lunch was served. Out of town guests present were: Mr. and Mrs. Tony Pritzl and children, Mrs. Mike Welns of Greenleaf, Mr. and Mrs. John Ecker of Hilbert. Prizes in 500 went to Mrs. Joseph

# CONDUCT LAST RITES FOR MRS. BRUGGER

Leeman—Funeral services were held Saturday afternoon from the Brugger home for Mrs. Ervin Brugger who died at her home here following a brief illness.

The services were conducted by the Rev. Knutzen of the Seymour Methodist church. Interment was made at Seymour. Many out of town people attended the funeral.

The following students resumed their duties at Shiloh high school Monday: Misses Celia Nelson, Olive Falk, Jessie Cook and Donald Nelson.

Mrs. Stanley Main and children of Madison visited Leeman friends over the weekend.

Several families gathered for a picnic dinner in Oscar Nelson's Grove Sunday.

Mr. and Mrs. P. B. Lind and Mrs. M. Finger spent Sunday with relatives in Appleton.

The Leeman school opened Monday with Miss Edith Gilson as teacher. Miss Mildred Brady of Seymour is teaching the Pleasant Hill school. Miss Thelma Colson Oak Hill school. The Sunset school will open Monday Sept. 9 with Miss Edna Dietzler as teacher.

Misses Mildred and Phyllis Lind and Darwin Lind of Appleton and Miss Elele Blohm of Seymour spent Sunday evening at the Peter Lind home.

Pritzl, Mrs. Mike Kleiber and Mrs. Joseph Kleiber.

Miss Flora Schiel, left for Two Rivers, where she teaches in the High school.

Mr. and Mrs. W. R. Sphatt, Miss Helen Becker and Mrs. Mike Becker, spent the weekend at Milwaukee and Chicago.

## CLOSE BRIDGE ON LAWE-ST TO AUTO TRAFFIC

Might Cave in at Any Time,  
Engineer Advises City  
Council

Kaukauna—Lawe-st bridge was ordered closed to automobile traffic by the common council Tuesday evening after a report on the condition of the bridge was given by E. A. McMahon, acting city engineer. The consensus of the report given by Mr. McMahon was that the bridge is in such shape that it would be advisable to close it to traffic. The piers are undermined, the abutments out of line, the steel work almost rusted through in places and the road a mass of patchwork. Only pedestrians will be allowed to cross the bridge. "The bridge will not last over a couple of years and I couldn't assume any responsibility by saying this bridge is fit for traffic," Mr. McMahon stated. He told the council that he wouldn't be surprised to see some part of the bridge cave in at any moment.

### WHAT WAS FOUND

An inspection of the bridge was made Labor Day by Mr. McMahon. His report showed that one abutment is tipping at the north end, and causing the pinching of the bridge so that at times it can't be opened for boat traffic. Some of the piers are undermined from one to three feet.

It was decided to have the district engineer at Green Bay inspect the bridge before the hearing with the state highway commission on Sept. 10 to get help for a new bridge. Whether the bridge will remain closed or be opened again to traffic will be determined by the inspection.

All traffic will be detoured over the new Wisconsin-ave bridge. Alderman B. Roberts proposed having an arterial on Oak-st at the approach to the bridge. Mayor W. C. Sullivan pointed out that closing the bridge to traffic would cause but little inconvenience to motorists.

### REPAIR ROAD

Alderman H. Woffenbach, chairman of the committee to investigate the matter of putting county trunk Z in better condition, stated that the road is being repaired in first class shape by the county and township. The road will be fixed by fall, he said.

A new state law making the city liable for accidents of their city employees was brought to the attention of the council by Alderman G. Smith who advised having liability insurance on the firemen. The council voted to instruct the fire and police commission to take care of the matter.

Plans for building sidewalks on Black-st and Wisconsin-ave were opened. The two bids, by Renn and company and by Lummerding, were the same. The contract will not be let until some arrangement is made between the bidders. A letter from the state highway commission was read stating that a petition from Kaukauna for aid on highway 55 in this city has been received. City Clerk L. Wolf was instructed to advertise for bids to complete the Jefferson-st sewer.

Alderman F. Gertz stated that he received a number of complaints from residents on Boyd-ave that the sewer was not large enough to take care of the house water. Engineer McMahon said that matter could be remedied by closing a number of the catch basins and draining the water into Kankapet creek. The board of public works was instructed to take care of the matter.

### GIRL OF 19 DIES AFTER SEVERAL MONTHS ILLNESS

Kaukauna—Miss Hilda Huebner, 19, daughter of Mr. and Mrs. Julius Huebner, 218 Fifth-st, died about 3 o'clock Tuesday afternoon after an illness of several months. She died at the home of her parents.

Miss Huebner was born in Kaukauna and has lived here all her life. She was a member of the Lutheran Young Peoples society. Survivors are her parents, three sisters and a brother. Funeral services will be held at 1:30 Friday afternoon from the home and at 2 o'clock at the Trinity Evangelical Lutheran church. Interment will be in the Lutheran cemetery.

**KAUKAUNA PERSONALS**  
Kaukauna—Mrs. Anna Swedberg and son Vernon and Mr. and Mrs. Chester Swedberg and family of Rhinelander visited at the home of Carl Swedberg over the past weekend.

Mr. and Mrs. Ray Breit of Antigo visited here Sunday.

Raymond O'Banski and Norman Frier spent the past week visiting in Milwaukee.

Captain O. E. Roberts of the local fire department started his two weeks vacation this week on the return of Captain Henry Esler. Two more firemen will take vacations this summer. James McMorrow will start his on the return of Captain Roberts and will be followed by Walter Specht.

The Post-Crescent's representative at Kaukauna is Lloyd Derna. His telephone number is 194-W. Business with The Post-Crescent may be transacted through Mr. Derna.

## LEGION GRIDMEN TO MEET FRIDAY NIGHT

Kaukauna—Coaches William Ashe and Harry McAndrews have issued a call for players to attend a meeting at the American Legion hall at 7:30 Friday evening for the purpose of making plans for the coming season. The American Legion again is planning to enter a team in the Northeastern Wisconsin Football league and the meeting Friday night will be held to determine when practices will be held and where and who will be eligible for the team. Those interested have been urged to be at the meeting on time as the hall is to be used for a meeting of the Kaukauna golfing fans at 8 o'clock and the football gathering must vacate the hall by that time.

## Social Items

Kaukauna—There will be a regular meeting of the local branch of Eagles at 8 o'clock Thursday evening in the Eagles hall on Wisconsin-ave.

The Ladies' Aid society of the Immanuel Reformed church will hold their regular monthly meeting at 2:30 Thursday afternoon in the church assembly.

The Ladies' Social union of the Brekrow Memorial Methodist Episcopal church will hold their first meeting of the new business year in the Epworth Home at 2:30 Thursday afternoon.

## \$284 EXPENDED IN AUGUST FOR CITY POOR

Kaukauna—A total of \$284.74 was spent in August to care for city poor, according to the monthly report of Chief of Police R. H. McCarty, poor commissioner. Of this amount \$103 was spent in giving aid and \$143 for care. Rent cost \$25 and merchandise \$12.74.

## POOR CROP OF PICKLES RAISED HERE THIS YEAR

Kaukauna—The pickle season will last only another week unless there is rain, according to the farmers hauling to the Flannigan pickle station here. The season started about the first of August but there was only a small crop. This was an off year for cucumbers.

About 250 tons of pickles are expected to be barreled and tanked this year at the pickle station. The crop last year yielded almost four times as much as the yield this year.

## CITY NURSE BACK ON JOB-AS SCHOOLS OPEN

Kaukauna—Miss Cell Flynn, city nurse, resumed her duties here Tuesday morning after being absent from the city for three weeks on a vacation. Miss Flynn will be at the schools which started this week, to checkup on the general health of the students.

## REPORT TEN BIRTHS IN LAST 31 DAYS

Kaukauna—Ten births were reported to City Physician Dr. W. N. Nolan during the month of August according to his monthly report. There were seven marriages, only one stillbirth. The general health of the city is good, according to the report.

## TURN ATTENTION TO TRAVELING CLOTHES

Tweed, Cumberland Cloth and Broadcloth Proving Popular

BY AILEEN LAMONT  
(Copyright, 1929, by Cons. Press)  
New York—The season of the year has turned everyone's thought toward traveling costumes. That means emphasis on the cloth coats of tweed, Cumberland cloth or broadcloth. These travel coats are usually extremely simple design, depending almost entirely for distinction on beauty of materials and cut. Some coats are straight and some slightly flared but practically all are belted.

Along with the tweed coats, go dark brown calf skin shoes. These also are plain but may be either of the Oxford type or laced through loops without a tongue. The lizard shoes with one simple strap are popular for travel and for sport, as the travelers work further south during the autumn, the white buck shoes with a wing tip of black or brown calf seem likely to hold the place they gained at northern resorts this summer.

**WATCH STRAPS**  
Along with the vogue which has put nearly every woman, whether she wears sleeves or is sleeveless, into a small pull-on type glove has come a novelty in wrist watches or rather in the straps by which they are carried. These straps are of braided leather in colors to match or contrast with the glove worn. They are worn outside the glove and mark the wrist line much as the leather now marks the waistline. Nothing could be flatter or more graceful than the skirts of some of the new Paris dresses just brought here. They are of black and white tulle with alternate tiers of tulle draped and ruffled. The bodice is set diagonally on a white tulle yoke and shoulders seem bare. The bodice itself is spangled in jet and silver.

Mrs. Ralph Watts of Appleton announces the opening of her piano class in Kaukauna on Saturday, September 7. Because the number must be limited, new pupils should register early, either by mail or by telephone, Appleton 475. adv.

## EXCHANGE HOPES TO BUILD CHEESE DEALING MARKET

Would Mart Greatest in  
Hemisphere, if Not in En-  
tire World

Chicago—(AP)—The "big butter and egg men from the west," who, by the way, don't care at all for the joke, are getting set to give the funny boys something more to work on. It's cheese!

Already the butter and egg capital of the world, the Chicago Mercantile exchange, of which Charles J. Eldredge is president is working toward establishment of a market to trade in cheese futures, which would be the greatest in this hemisphere, at least, if not in the world.

Chicago, in the heart of the dairy region, now receives annually around 97,000,000 pounds of cheese, more than twice the amount received in New York City and several times that of the other cheese centers, Boston and Philadelphia.

Further, the dairy industry has greatly expanded in recent years and continued increase in production in this region is expected.

The proposed market, still some way from inauguration, is part of the general plan of the exchange to expand its trading activities in other commodities, ranging from dairy products to apples.

With its predecessor, the Chicago Butter and Egg board, the exchange is 25 years old, although it had its beginnings around the time of the Civil War when groups of traders met in a little produce market to discuss the day's outlook.

The exchange is the largest trading board in the world, not only in butter and egg futures, but in the actual commodities. Chicago disputes with London supremacy in volume and in value perhaps exceeds the English city.

Its butter and egg future trading offers opportunities for speculation similar to those of the board of trade in grain and the two exchanges have many common points. The Mercantile exchange, however, guarantees that every contract will be fulfilled, both as to price and quality. It operates on a very slender margin, but can change marginal requirements on an hour's notice.

The exchange has its own home, a new 17-story building, which is occupied by many of the traders, governmental bureaus connected with the industry and allied industries.

## JUNIORS TO FILL LIVESTOCK SHOW

131 Boys and Girls Will Parade  
245 Entries at Madison

Madison—Exactly 131 boys and girls will parade 245 livestock entries at the 14th annual Junior livestock exposition to be held at the Wisconsin College of Agriculture, November 5-7.

The Wisconsin Livestock Breeders' association is offering liberal prizes in baby beef, lamb, and pig classes. Other interests are also contributing to make the show more attractive to boys and girls who are fitting livestock for the show.

Shorthorn baby beef entries lead the list in number of entries in the cattle exhibit, Poland Chinas in the hog show, and Shropshires and Oxford in the lamb classes. The total number of entries is slightly lower than last year.

The Junior livestock exposition is proving popular among boys and girls in the state and particularly those in Southern counties, says Arlie Muecke, secretary of the Wisconsin Livestock Breeders' association. All of the animals are sold at auction to packers who use them solely for meat purposes. The boy or girl who produces and exhibits a prize winning animal has the advantage of being doubly repaid for his efforts because the prize winner usually commands a better price at the auction, he says, but any good animal is profitable.

Animals, to be eligible for the exhibition, must be fed, fitted, entered, and shown by the boys or girls who exhibit them. Special prizes are offered by some of the record associations for prize winners which are sired by a purchased bull of their particular breed and show a preponderance of the blood of the representative breed. Other special premiums for economy of production of barrows and for champions of the show are offered by several commercial concerns that are interested in the meat industry.

Boys and girls will show their animals during the first two days, then the auction sale will follow on the last day of the show.

## DAIRY SHOW TO HONOR MANY BADGER HERDS

Madison—An increased number of Wisconsin dairymen will be eligible for recognition on the Herd Honor roll, which will be a feature of the National Dairy Exposition to be held in St. Louis, October 12-19. At the present time there are 1705 Badger herds which have been found eligible, according to Roy T. Harris, of the dairy records department at the University of Wisconsin. He expects several more names will be added to the list.

Herds that are to receive the distinction must consist of five or more animals that average more than 300 pounds of butterfat for the 12 months ending June 30, 1929.

Last year there were 1702 honor roll herds from Wisconsin. Michigan was second in the number of honor herds; Minnesota third; and Iowa fourth.

**REST MISSED HIM**  
CONSTABLE: (to auto victim prone on ground) Did you get his number?

VICTIM (peevishly): No. I missed that. I got the mudguards, the wheels and the axle — Passing Show.

## Plans Cheese Mart

Under the direction of Charles J. Eldredge, above, president of the Chicago Mercantile exchange, the exchange is working to establish a market to trade in cheese futures.

## STOCK BUYERS ON INSTALLMENT PLAN MUST BE CAREFUL

National Better Business Bureau Issues Warning to Investors

BY GEORGE T. HUGHES

Copyright, 1929, By Cons. Press  
New York—The National Better Business bureau sent out a warning the other day to prospective purchasers of securities on the installment plan. This method of buying stocks has gained greatly in popularity in recent years and is a desirable one provided certain precautions are observed.

When stock is bought by an employee of one of the great corporations in this manner there is no criticism to be made. In such cases payment is deducted from salary or wages at a specified rate and generally the price is below the market although this is not always so. Some companies make similar offers to outsiders.

It is only when stocks not well known, of corporations in the promotion stage, or of doubtful value from some other standpoint are contracted for that the danger signals are set. Then there is often uncertainty as to whether the buyer will receive his stocks after he has completed his payments to say nothing of whether they will be worth anything like the price paid. To guard against these perils the bureau says, "The investor should buy securities that have an open market" and should purchase "through a responsible house whose responsibility can be demonstrated."

Another way of buying securities on the partial payment plan which is to be recommended, assuming that only standard stocks are taken, is by borrowing money of one's own bank giving a note therefore and leaving the stock as collateral with the bank. Then there is no risk of not receiving the stock after payments are completed. Many banks will do this for depositors. It is a device, however, which the banks are more willing to approve in times of normal interest rates.

Investors who wish to save money in this way should discuss the matter frankly with their own bank. It is a good way to save money if it is done properly.

## KONJOLA HIGHLY RECOMMENDED AS HEALTH BUILDER

Man is Thankful For Results  
He Obtained Through New  
Medicine.

MR. JOSEPH L. GUY  
"My condition was not what you would call serious, but I just felt out of sorts at times," said Mr. Joseph L. Guy, 1613 West 13th street, Davenport, Iowa. "I felt tired and draggy, and my general condition was run-down to some extent. I figured that I ought to do something or serious developments might result."  
"I really was surprised at the great improvement Konjola made in my general condition. I am glad to recommend Konjola to all who feel as I did, as a fine tonic and general health builder. I feel possibly this new medicine has saved me from some trouble that might have developed later on."  
Konjola is sold in Appleton at Schlintz drug store, and by all the best druggists in all towns throughout this entire section.

# 3 out of 4 HOLLANDS replace heating systems that have failed

THOUSANDS of home owners find their heating bargains are bad ones after a few winters. The heating system that should be a lifetime investment is often a total loss after a brief period of use. You expect far greater returns from your heating investment than any other purchase of like cost. Use care in selecting it. Don't buy a failure that will have to be replaced within a few years. Check the advantages the modern Holland alone offers. Compare its feature by feature with any other heating system you are thinking of buying. Ask your friends and neighbors about Holland. The modern Holland controls temperature, humidity and circulation automatically. In the wintertime warmth

is evenly distributed to every room and the air is kept refreshing, moist and gently moving like outdoor air in spring. Equipped with the Holland electric power unit, the Vaporaire also keeps your home delightfully cool throughout the summer months giving you an all year round lifetime system. In buying a Holland you deal directly with the largest installers of home heating systems in the world. Comfort and satisfaction are positively guaranteed by written bond. Every Holland is built to fit the needs of the home it serves exactly. Prices are low and terms liberal. Get the facts without obligation. Have a Holland man call.

## For the Love of a Lady

by Jeffery Farnol

CHAPTER 29  
**A CURIOUS ROBBERY**  
A soft and fragrant dawn glowed in the many bright lattices of the Guyford Arms and upon the face of him in the stable-yard, that same gypsy-seeming fellow, Dick Fullalove. All at once, his white teeth shut with a snap and he stared away across the village green where stood the parish stocks—for there, with long legs fast shut within this instrument of shame, sat a prisoner, his upper parts hidden from sight by an enveloping sack.  
So the man Fullalove, shambled over to the stocks and stood there—goggling.  
“Lemme out!” gasped a strangled voice.  
“Ow?” enquired Fullalove and scratched his ear, then turned as Joe Elm, the blacksmith, came striding across the green.  
“Love us!” exclaimed the blacksmith. “I know them legs.”  
“Pretty long ‘uns!” nodded Fullalove.  
“Ad us better take a look at ‘im, doe-ee think?” inquired Joe Elm. Fullalove nodded and proceeded to un-knot constricting rope and, lugging off the sack, discovered the passion-contorted features of Master Titus Oldcraft.  
“Love us all!” ejaculated the blacksmith, while Oldcraft, wrenching open coat and waistcoat, drew thence large pocket-book, opened it, glanced through its contents:  
“Robbed!” cried he. “The villains robbed me!”  
“Aye, but,” demurred the cautious Joe Elm, “put ‘em in!”  
“Two rogues, two damned villains and robbed me!”  
Now at this moment, forth of the inn steep Tom Pitt, beholding whom Oldcraft called and beckoned, whereat Tom Pitt hastened up.  
“Call your master, rouse my lord Brocklehurst—say I’m robbed—important papers—go!”  
So away sped Pitt, leaving Oldcraft to fume and fret while Joe Elm scratched his head and stared at Dick Fullalove, who gaped his chins and gaped at Joe Elm.  
“The key,” snarled Oldcraft, jerking his imprisoned legs impatiently. “Don’t stand there like two post-look for the key!”  
“Aye, but where?” inquired the smith.  
“Look anywhere—everywhere!” cried Oldcraft. “Oh here’s a guinea to the man as gets me out!”  
“A guinea, by Gosh!” said the smith. “Looke now, why, the key be in the lock!”  
“Then unlock me!”  
“Guinea, mister!”  
So Oldcraft tossed him the guinea and Joe rubbed the coin, stared at it and nodded to Fullalove. “Here be ‘at for thee, lad,” said he, and proceeded to unlock and free the prisoner who hastened across to the inn door and forth thereof stepped Viscount Brocklehurst in silken dressing-robe.  
“What now?” cried he in voice shrill and querulous. “What’s this I hear? Tell me what’s to do?”  
“Last night, my lord,” answered Oldcraft, “I was waylaid outside the doctor’s house. I was strangled, trussed, tied, clapped in the stocks and—robbed.”  
“Ha, your purse, your watch?”  
“No my lord, all the villains got off w’ was the cat’s-eye ring and—another paper as I found last night in the barrel of the late Mr. Julian Guyford’s pistol!”  
Viscount Brocklehurst leapt up as if he had been stabbed! “Julian’s pistol? Are ye sure?”  
“So Doctor Samson tells me, my lord,” and Master Oldcraft laid the pistol on the rustic table.  
“The... the pistol!” gasped the Viscount, “you say there was a... a paper hid in it?”  
“Aye, my lord, writing as I could make no sense of nor the doctor either—in the barrel of the pistol.”  
“And what of this paper? Where is it?” demanded the Viscount.  
“And you read it, man, you read it through—what did it say—what?”  
“Words, my lord, words a-plenty, too many to bear in mind, wild words as made no sense—” Here Master Oldcraft gasped, for the Viscount was shaking him a fierce grip.  
“To whom was it written?”  
“To his cousin, my lord, to Sir Richard.”  
“Did it mention any names?”  
“None, my lord, none, but Sir Richard’s.”  
“But why,” cried the Viscount with passionate gesture, “why should these thieves steal your papers only—why? What manner o’ rogues were they?”  
“Ah, my lord, ‘twas dark and the devilish pair went masked—”  
“Ha, but two, ye say—two only and you armed?”  
“True enough, sir,” answered Oldcraft sullenly, “but they were devilish quick; they had one high stranded afore I could so much as cry out. I’m pretty sure I might know ‘em again—or one on ‘em.”  
“How—did they speak, then?”  
“Nary a word, my lord.”  
“Then what—what a plague d’ye mean?”  
“My lord, the chiefest rouge whistled softly through his teeth, below his breath.”  
The Viscount leapt to his feet, laughed shrilly, beating the air with his fists.  
“Fool!” cried he. “Through his teeth, says you, below his breath? then I tell you this, my lord, I’ll read this. I shall be dead by the hands of one of three or three together. Yet may my murderer be known since, living, I do hold his life in my grasp. And yet, because this message may never reach thee, Dick, since they seek it to destroy and with this the manifest proofs of their guilt, needs must I set thee a riddle. As thus. The ruined mill was oft-times our boyish playground, now is Death hid there to trap damned villainy. Opposite the day the 26 from going out and in 15 from what bears thee up. Seek, find and avenge me. Fich in memory of better days gone by. For with Death upon me, with none to succour and no escape I turn to thee, and now declare I do forgive and crave thy forgiveness because of the times we played as little lads and kissed each other Good night. For me is now farewell to all things earthly, so in my spirit I do kiss thee a long, long Good night, Cousin Dick, and now fare thee well.”  
(Copyright, 1928, Jeffery Farnol)

MADE HARD JOB OF IT  
Toome, Tenn.—In order to gain entrance to a general store here thieves bored 51 auger holes in a wooden door and removed the panel. They then proceeded to loot the store of a large quantity of novelties.

# 3,000 MEN WILL WORK SEVEN YEARS ON BOULDER DAM

Uncle Sam Getting Ready  
Now for \$165,000,000  
Project

BY RODNEY DUTCHER  
(Copyright, 1929, NEA Service, Inc.)  
Washington — The building of  
Boulder Dam on the Colorado river  
on the Nevada-Arizona border, which  
will be the highest dam in the world  
for which Congress has authorized  
\$165,000,000, will require seven  
years.

Four of those years will be de-  
voted to the preparations necessary  
before the erection of the dam itself  
can begin.

Congress is expected to make the  
first appropriation this fall so the  
gigantic task can be started in the  
near future.

Preliminaries of almost prodigious  
scope are now being planned by the  
engineers of the federal reclamation  
service in the Interior Department  
in their tentative seven-year pro-  
gram.

In the first year they will con-  
struct 41 miles of railway from Las  
Vegas, N. M., over which they will  
transport the personnel and an  
enormous amount of machinery and  
material. They will also start on  
the temporary power plant to be  
used for the dam operations.

**FOUR-MILE LONG TUNNELS**  
In the second year they will be-  
gin the four great tunnels, 50 feet  
in diameter and a mile long,  
through solid rock, which will serve  
as diversion channels for the Col-  
orado river during the construction  
period. In this year they will also  
start on two high cofferdams, one  
above and one below the dam site,  
and designed similarly for protec-  
tion from the river.

In the third year begins the ex-  
cavation work. The engineers will  
dig down to bed rock for the dam's  
foundations and into the sides of  
Black canyon, which is to be the  
actual site of the dam.

In the fourth year the exca-  
vations will be completed and then  
the first concrete will be thrown  
into the foundations of the dam  
itself.

The best of America's engineers  
are agreed that there is nothing of  
a dangerous nature involved in the  
building of Boulder Dam and that  
the plan is quite within the limits  
of what is considered feasible.

**3000 WORKERS NEEDED**  
The controlling construction fac-  
tor, however, is the cramped quar-  
ters at the bottom of the canyon.  
It is estimated that about 150 en-  
gineers and perhaps 3000 other work-  
ers will be used on the job.

The plan is to lower and lift  
these men in huge elevators for a  
distance of at least 1000 feet and  
the installation of these elevators  
will itself be a spectacular piece  
of engineering. The workers will  
live in a model government town  
on the Nevada side, about a mile  
from the dam site.

The river rises every summer and  
after the tunnels are built the en-  
gineers must get in and build their  
cofferdams high enough to divert  
the waters before they get into the  
regular channel where the exca-  
vation is to be made.

**DRILL THROUGH SOLID ROCK**  
Those tunnels through the walls of  
the canyon, running parallel  
with the stream bed, will be ap-  
proximately circular with a 50-foot  
diameter. They must be drilled and  
blasted out of the solid rock and  
their capacity is designed to carry  
as big a flood as ever came down  
the Colorado. They will be lined  
with concrete, for after the dam is  
built two of them will function as  
permanent spillways and the other  
two will carry water under full res-  
ervoir pressure for Boulder Dam's  
big permanent power plant. A net-  
work of smaller tunnels will also  
be dug out for power water.

The upper cofferdam, of course,  
will divert the waters of the river  
into the tunnels. The lower cof-  
ferdam will be designed to keep them  
from backing up into the excavation  
and building operations, for behind  
it the engineers will be digging  
down a couple of hundred feet to  
find the dam foundation.

The proposed 41-mile railroad  
would tap some of the nearby  
gravel deposits and quarry sites.  
About half-way from Las Vegas it

## Where Dam Will Be Built

Here's the Boulder Dam site on the Colorado river, as it looks today  
—and as it will look after an army of workers and U. S. engineers  
have completed their task seven years hence. The lower picture was pre-  
pared from the engineers' plans.

would fork, one branch going to the  
top of the site and the other to  
ward the bottom. The so-called res-  
idence level above the dam is about  
1600 feet higher than the bottom of  
the lowest excavation. Latest in-  
formation is that the railroad plan  
will be definitely adopted, though  
an aerial tramway, suspended on  
cables, has been suggested.

Although all these preliminaries  
are essential and require great ex-  
pense and labor, the biggest single  
item of the job is the concrete for  
the dam. It is estimated that 2,  
500,000 cubic yards of concrete and  
4,000,000 barrels of cement will be  
used to build Boulder Dam to its  
elevation of 1200 feet.

**IN THREE BIG PROJECTS**  
There are three main projects in  
the general program:

1. The dam and reservoir.
2. The power plant—a million horse  
power development.
3. The all-American canal.

The first is expected to cost about  
\$70,000,000 and the other two about  
\$40,000,000 apiece. Later on the city  
of Los Angeles—approximately 200  
miles distant—plans to make the  
largest expenditure ever made on a  
city water supply by constructing  
a great aqueduct from the reservoir  
which will pump water for a lift of  
1,400 feet with cheap water. The  
major section of this aqueduct will  
be open canal and the rest part  
tunnel and part pipe line.

\$165,000,000 Authorized  
Congress has authorized appro-  
priation of \$165,000,000 for the Boul-  
der Dam job and Secretary of the  
Interior Wilbur is engaged in get-  
ting contracts for the sale of pow-

## Children Almost Hate Cross, Nervous Mother

"My children almost hated me, I  
was so cross. Thanks to Vinol, my  
nervousness is all gone and we are  
happy again."—Mrs. T. Johnstone.  
Vinol is a compound of iron,  
phosphates, cod liver peptone, etc.  
The very FIRST bottle makes you  
sleep better and have a BIG ap-  
petite. Nervous, easily tired people  
are surprised how QUICK the iron,  
phosphates, etc., give new life and  
pep. Vinol tastes delicious. Schlitz  
Bros. Co., Drugs, adv.

## TELLEZ CHILDREN HOLD ATTENTION

Youngsters of Ambassador  
from Mexico Are Bright  
and Keen

BY SUE McNAMARA  
Washington —(AP)— That chil-  
dren acquire languages quickly when  
they mingle daily with different na-  
tionalities is proved by the young-  
sters belonging to Senor Don Man-  
uel Tellez, ambassador from Mex-  
ico, and Senora Tellez.

In the great, cream-colored, four-  
story Mexican embassy, one of the  
largest and most beautifully fur-  
nished embassies in Washington, the  
three children—aged 7, 5 and 2—  
talk in French, Spanish and Eng-  
lish.

The two oldest study English at  
school. They have a French nurse  
with whom they exchange odds and  
ends. The Spanish they acquire  
from their parents and from play-

the leaders in dam building in this  
country ever since they put up the  
Roosevelt dam, 190 feet high. More  
recently they built Arrowlock dam,  
at 349 feet.

The actual height of Boulder dam  
will be nearly 700 feet and it will  
raise the water 550 feet. A great  
lake, many miles long will back up  
behind the massive barrier.

Better  
to be safe  
than sorry

RADIO TUBES

How much  
money  
do you need  
?

We Can  
SAVE 1/3  
You nearly

IF YOU need money for sickness, accumulated  
bills, moving, insurance, taxes or other reasons,  
ask us about the Household Loan Plan. This plan  
is designed to offer relief from financial worry to  
families whose incomes fail to cover emergency  
expenses and who need extra funds badly.

When You Borrow  
\$100 \$200 \$300  
or other amounts

You can get it from Household quickly, easily and  
with absolute privacy. You save nearly one-third,  
and repayments are arranged to suit your conven-  
ience—take as many as twenty months if you wish.  
Under our new low rate, loans payable in twenty  
equal monthly payments cost as follows:

[\$100 loan, average monthly cost \$1.32]  
[\$200 loan, average monthly cost \$2.63]  
[\$300 loan, average monthly cost \$3.94]

### How We Make Loans

A \$100 loan is payable \$5.00 per month, plus interest. The  
first month, the interest charge is \$2.50 and the last month  
it is only 13 cents. The average monthly cost is \$1.32. Other  
amounts in proportion. There are no fees or deductions. If  
loans are repaid sooner than twenty months, the total cost is  
less. Loans are made to families, and no outside signers are  
required.

### This Is What YOU SAVE under our New Low Rate:

\$100 Loan, You Save . . . . . \$10.50  
\$200 Loan, You Save . . . . . \$21.00  
\$300 Loan, You Save . . . . . \$31.50

mates at Latin American emba-  
sies.  
Inasmuch as their parents have  
lived in Washington almost ten  
years, the children know their na-  
tive land only from visits.  
The Tellez children command as  
much attention in the capital as the  
five little Davises or Paulina Long-

worth. They have keen minds and  
graceful, courteous ways.  
And what a colorful, interesting  
life circles round them in the great  
home which assumes almost the pro-  
portions and elegance of a palace  
with its ballrooms and music rooms,  
its rare art objects from Mexico,  
Italy and other parts of the world.  
Sometimes Ambassador and Sen-

ora Tellez entertain 1,000 guests at  
a time. There are many large,  
high-ceilinged, attractively fur-  
nished rooms, each with its peculiar  
charm.  
Thus are the children being co-  
mopolitanized!  
WET DRY OFFICERS  
Youngstown, O. — When Officer  
Thomas Joyce approached a man

whom he suspected of carrying a  
quart of liquor, the suspect ran and  
Joyce started after him. When the  
pace-setter reached the Mahoning  
river he didn't stop but jumped right  
in, the officer following behind him.  
The man still clung to the bottle of  
whisky when he was captured.

# LEATH'S

## Radio Headquarters

In radio as in all things else, this store is looked to as authority and as the logi-  
cal place to purchase. Just why this is so, you yourself can hardly explain. Yet,  
when you think it out, you can realize that a tremendous responsibility rests upon  
a store that stands so high in public confidence. You will purchase your radio here  
because you can depend on this store. This then is our responsibility and we  
MUST always be careful and sure that you receive all you expect and even more.  
We do know radio and we do know values. We believe we are rendering the pub-  
lic a real service in introducing and endorsing the set which we believe to be the ul-  
timate in popular price receivers.

## Earl Radio

## ALL ELECTRIC 8 TUBE SET— INDUCTOR DYNAMIC SPEAKER

\$99.50  
(Less Tubes)

### Pay For It—\$2 Weekly

All the world's finest musical programs at your finger tips to command and enjoy  
—all the major sports events, lectures, etc. When you own an "Earl" you own the  
air. Distance and range seem to matter not at all to this powerful 8 tube set —  
with the amazing new Inductor Dynamic Speaker, the "push-pull" amplification  
can, at will, swell the volume to heights beyond belief or reduce it to a soft whisper  
and yet, through the entire range of volume the tone is incomparably beautiful.  
The richness and beauty of the walnut veneered cabinet is beyond comparison.—  
It represents value without parallel.

Come at once! See and hear for yourself! A small initial cash payment will de-  
liver it to your home and you can then pay the balance in small amounts of as little  
as \$2 weekly.

## "my umbrella, James"

WHAT an inconvenience,  
playing bridge under an  
umbrella. Oh, the pity of it—  
an otherwise successful even-  
ing ruined by a leaky roof.  
And you need not have a leaky  
roof in this town, nor when  
there are expert roofers like  
us ready to provide you with

a new roof of Johns-Manville  
shingles.  
The cost is not great and  
we can give you any style or  
color that you want — in  
either their permanent Johns-  
Manville Asbestos Shingles  
or the durable Johns-Manville  
Asphalt Shingles.

# SMALL PRODUCERS OF GRAIN TURN TO WINDROWER DEVICE

Machine Cuts Grain and Lays It in Long, Even Rows on Fields

Ames, Iowa.—(AP)—Here, on the edge of the wheat belt proper the elation of combine and high-speed reaper has tantalized small producers for the last time.

Their answer is the windrower, a machine which cuts grain and lays it in long, even rows where it can be picked up and threshed by a combine using a loader instead of a cutter bar.

A two-year study of machinery and harvest requirements in the small grain states has been completed by E. M. Mervine, professor of agricultural engineering at Iowa state college, and other engineers. Their conclusion is that windrowing, followed by regular combining operations, answers the demand for large-scale methods in areas where rainfall makes straight combining impractical.

Since discarding the cradle and flail farmers near the wheat belt have cut grain with a binder and shocked it. In some instances it has been dry enough to thresh at cutting time, but for the most part it has been customary to let grain sweat in the shock. The numerous operations have been slow and expensive.

In the meantime, combines in the wheat belt have increased 20,000 or more annually, making it possible to cut and thresh in one operation and get much grain to market before the small producer has begun his harvest. Dry weather favors the combine, and vast level acreage is ideal for big machinery.

Where prairies and dry-land farming ends, hills, small fields, and rainfall begin. Only recently have farmers in such states as Ohio and Indiana been replacing horses and binders with tractors and other equipment suited to the topography of their fields. Ever then, rainfall has been a standing factor. Ripened wheat, caught in a rain, must be threshed before it is trampled. By the time the ground is dry enough for the machines to enter the wheat may be badly shattered.

With the windrower, wheat, oats, barley, rye and any of the small grains may be cut and left in rows for drying. Weeds and other green material, which cause stored grain to heat when combined with standing, also dry.

Rain will not damage the yield and quality of grain in the windrow as much as in the shock, engineers say. Air circulates freely through grain which is held up on the stubble and dries it thoroughly and quickly. Loss by shattering is decreased since rain, hail or lodging has little effect on

# It Was Only 40 Years Ago That Tourists Were Seeing America First By Bicycle

BY ALEXANDER GEORGE

The thrill of a motorist today at the wheel of a new car is a feeble sensation compared with the "kick" that a scootier of 40 years ago got when he displayed before the envious eyes of neighbors his new Stearns sport bicycle.

"The Yellow Fellow." Bicyclists had launched a good roads movement and had adopted the slogan "See America First by Wheel." Harper's Weekly predicted:

"With good roads—and we shall surely have good roads before the next century is very old—the bicycle will enable its riders to learn their land more intimately and extensively than they dream of doing now."

In those days, "money could be made at home easily, honestly and honorably by giving illustrated lectures with stereopticon and lantern slides, very little capital being required."

Ten-room houses rented for \$200 a year and to the purchaser of a child's suit, merchants gave the puzzle, "pigs in clover."

A game of baseball at Long Branch, N. J. was suddenly terminated when the center fielder, chasing a fly ball, fell head foremost into a nest of 32 garter snakes. He picked himself up but sank to the ground almost prostrated by fright.

"Players with their bats succeeded in killing 26 of the ugly reptiles. Some of the snakes measured three feet in length. It was fully a half hour before the young man who fell into the nest recovered sufficiently to walk. The game was postponed until tomorrow."

Casper W. Whitney, celebrated sports writer, was making a 2,000-mile hunting trip in the barren ground of British North America. At the annual jack rabbit hunt at Lamar, Colo., 5,142 rabbits were killed.

At the Grand Pacific hotel in the Minnesota lakes country, a fisherman's paradise, rates were \$2 a day for room and board, the use of two horses, a wagon and the services of a driver. Here a kindly German, "mellowed by liberal draughts of beer," was the landlord. At night on Pine Lake the laughter of pretty girls in boats mocked the crying of the loons.

The handsome Kyrle Bellow was causing heart flutters among fem-

mine theatergoers, the great Pat and Little Katie Rooney were "stopping the show" and Madame Melba's was the only voice that in the memory of the living rivalled that of Patti.

Eugene Ysaye, the young Belgian violinist, was making a triumphal tour of America and two trainloads of Pabst's Milwaukee beer were shipped daily.

Jack Hardy, notorious sporting character, with the reputation of having killed more than any other man in this country, dropped dead on the New Orleans race track.

"He is said to have killed 21 men in one year, all in pistol fights," the press reported. "His skill with the weapon was marvelous. He could hit a silver quarter as far as he could see, it nearly

## SEEK FUNDS TO BUY LA FOLLETTE MEMORIAL

Madison.—(AP)—A legislative committee, chosen for that purpose, is collecting funds for a bronze tablet to the memory of the late Robert M. La Follette, which is to be placed in the supreme court chamber at the spot where La Follette remains lay in state. Senator Ben Gettleman, Milwaukee, is chairman of the committee. Other officers are Senator Glenn D. Roberts, Madison, secretary-treasurer and Assemblyman Alvin C. Reis, vice chairman. Funds are to be raised by popular subscription and no donation shall exceed one dollar.

## POSTAL DEPARTMENT TO ISSUE NEW 2-CENT STAMP

The postoffice department is preparing to issue a special 2-cent postage stamp to commemorate the completion of the Ohio River Canalization, according to word received here at the local postoffice.

The new stamp is the same size as the regular issue, 75 by 47 inches, but with horizontal design, and is printed in red ink. The central design represents an Ohio river lock with surrounding scenery. At the top, of the stamp with a dark panel in white Roman letters appear the words "United States Postage."

Below on a ribbon scroll are the words "Ohio River Canalization." In both upper corners on extensions of the ribbon scroll are the dates "1875" at the left, and "1923" on the right. At the bottom of the stamp in a dark panel with white edges is the word "cents."

The new Ohio river stamp will first be placed on sale Oct. 12 at postoffices at Cairo, Ill., Evansville, Ind., Louisville, Ky., Cincinnati, O., Homestead, Pa., Pittsburg, Pa., and Wheeling, W. Va.

Crab Lunch Tonight at Hemenway's, corner Lawe and Wisconsin Ave.

## Factories Give Many Cities Their Nicknames

Early settlers named Wisconsin cities and factories gave many of them their nicknames. Numerous cities in the state are known almost as well by nicknames gained from some article of local manufacture as they are known by their given names, according to a study made by Wisconsin Manufacturers' Association, Madison. Some Badger state cities gained their soubriquets for unusual beauty or some other noteworthy attribute, some because of their location, others for some product manufactured there in sufficient quantity to attract attention. A partial list of city names and nicknames follows:

Appleton: City of Pretty Homes, the Crescent City, Paper City; Beloit: Gate City; Chippewa Falls: City of Sparkling Water or Power City; Janesville: LaBays or Historic City; Janesville, Bower City; Kenosha: Line City; La Crosse: City Beautiful; Madison: Four Lake City, Lake City or Capital City; Marinette: Queen City; Marshfield: Hub City; Menomonie, Erick City; Milwaukee: Cream City; Montello: Granite City; Neenah: Paper City; Oshkosh: Sawdust City; Platteville, Lead City; Portage: River City; Rochelle City; Sheboygan, Chair City or Furniture City;

Stoughton, Wagon City; Superior: Eye of the Northwest; Waukesha: Saratoga of the West; Waupun; Rib City; Wisconsin Rapids, The Rapids.

This list of nicknames is far from complete. Though city soubriquets have some value and historical importance, no complete tabulation of by-names and their explanations has ever been made. For this reason the Wisconsin Manufacturers' Association will welcome additions to the present known list from readers who have information on this interesting but neglected subject.

## TRADE SCHOOL MENTORS TO ATTEND JOINT MEET

Teachers of the Appleton vocational school will attend a meeting of all teachers in schools in the city at Appleton high school at 8:30 Saturday morning, according to Herb Helgen, director. Matters pertaining to membership in the Appleton Teachers' association and in the Wisconsin Teachers' association will be discussed. They also will receive final instruction from B. J. Rohan, superintendent of city schools.

Berne, Switzerland.—(AP)—Just about every other imported automo-

bile in Switzerland is American made. Last year, for the first time, American automobiles were more than half of those imported. Three years ago it was one in four.

## HELPED DURING MIDDLE AGE

Woman Took Lydia E. Pinkham's Vegetable Compound

Denver, Colo.—"I have taken six bottles of Lydia E. Pinkham's Vegetable Compound and will take more. I am taking it as a tonic to help me through the Change of Life and I am telling many of my friends to take it as I found nothing before this to help me. I had so many bad feelings at night that I could not sleep and for two years I could not go down town because I was afraid of falling. My mother took the Vegetable Compound years ago with good results and now I am taking it during the Change of Life and recommend it."—Mrs. T. A. MITCHELL, 1611 Adams Street, Denver, Colorado.

# THE PETTIBONE-PEABODY CO.

Extra Values All Over Our Store!

65 Feet More Window Display Space

After Our Remodeling Is Completed

Four new display windows looking out upon Appleton Street—now one of the most important business streets in Appleton—will completely change the appearance of this Store. What was formerly a blank wall now becomes alive with interest. The latest arrivals in new merchandise from all over the world will appear in these windows. Thousands of passers-by will have fascinating glimpses of new apparel, the smart accessories of the moment, new things for the home.

## NEW ENTRANCE ON APPLETON STREET

Appleton Street is as important to Pettibone's as College Avenue and a new entrance to the Store on that side provides a needed convenience for our customers who come to us from the north and west sections of the city. It is fitting that Pettibone's—built when Appleton was a mere village—should progress with the growth of the city.

The Remodeling Sale Continues All This Week

# THE New BUICK

New Road shock Eliminator .. and New Steering Gear

make Buick the easiest car in the world to drive!

The road shock eliminator—built into the front of the frame on the steering gear side—absorbs every jolt and jar arising from road inequalities, and thus prevents their transmission to the steering wheel and the driver's hands.

Imagine being able to travel the roughest road with your hands resting lightly on the wheel! Think of having an automobile which you can drive all day at any speed without feeling a single road jolt transmitted through the steering wheel!

Such are the fine results of two matchless new quality features in the 1930 Buick—two features which add to this car's appeal as the greatest dollar value of the day: a wonderful new frictionless steering gear, and the new Buick road shock eliminator!

The new Buick steering gear, of the effective worm-and-roller type, moves with incomparable ease throughout its entire turning range, assuring instant, effortless response to the driver's every wish.

Come drive this new Buick. Head for the road you ordinarily avoid as too rough for comfortable travel. Test these twin features of comfort which make the new Buick the easiest steering car in its field!
